accept responsibility in any way for the crop, nor how they will turn out. All seeds purchased from us must be accepted on these terms, or immediately returned.

NEW CUSTOMERS.—Cash should always accompany orders from unknown correspondents, or satisfactory references.

DISAPPROBATION.—We must be informed at once should there be any cause for complaint with the execution of an order. We will rectify promptly any error, if it is ours.

PAYMENTS.—Wherever practicable, we would greatly appreciate payment with all orders, as the amount of book-keeping and rendering of accounts thus prevented would net us a considerable saving.

CHANGE OF ADDRESS.—Customers are earnestly requested to notify us of any change in their address. Catalogues are mailed to all customers, and should the address prove wrong the Catalogue is lost.

SEEDS NOT PRICED.—We shall be pleased to quote prices on any such Seeds when desired, such quotations being always for immediate acceptance.

Clover, Timothy, etc., are subject to market changes in prices.

ORDER SHEETS and addressed Envelopes are enclosed in every Catalogue, and customers are respectfully requested to make use of them when sending their orders. A supply of Order Sheets and Envelopes can be had on application.

MARKET GARDENERS using large quantities of Seed will please send for our SPECIAL MARKET GARDENERS PRICE LIST.

CITY CUSTOMERS not finding it convenient to visit our warehouse can depend on their post or telephone orders being promptly and carefully attended to. We deliver Seeds, etc., free to any part of the City and Westmount.

HEAD GARDENERS AND FARM OVERSEERS.—We keep a list of practical Gardeners and Farmers whom we will be happy to recommend to customers in want of such help.

SEED CLEANING.—We are the only Seedsmen in the Province of Quebec who have made a specialty of this very important matter, and possess one of the most modern seed-cleaning Plants, and can turn out first-class samples of Timothy, Clover and Seed Grain at moderate prices. We trust our numerous farming friends will appreciate our efforts in this respect, by giving us their patronage.

IN GARDEN, FLOWER, AND FARM ROOT SEEDS the assortment we offer embraces everything of value to the Gardener or Farmer, and suitable to our Canadian climate.

IN CORN, WHEAT, OATS, BARLEY, ETC., we offer a selection ahead of any Canadian Seed House, and including many new varieties. Samples are plump and heavy, and all carefully cleaned for seeding purposes.

IN GRASSES AND CLOVER we offer all the kinds that are of practical utility in Canadian Agriculture. Ewing’s Reclaimed Lower Canada Timothy and choice samples of Clover are known and wanted all over the Dominion by farmers who require the best, and are satisfied with nothing less. We shall be pleased to send samples and prices on application. Remember that 50c difference per bushel in price of Timothy only means 12½c per acre. We also offer choice qualities of the different kinds of Clover—all carefully reclaimed and unexcelled in purity and germination. The samples will speak for themselves and be more conclusive than anything we can say.

INCUBATOR AND POULTRY SUPPLY DEPARTMENT.—We find a rapidly increasing demand in this line, and are glad to extend as much as we can to our being Canadian agents for Cyphers Incubators, and their other manufacturers, which are acknowledged, on all hands, to be the best on the market.

FARM AND GARDEN TOOLS, LAWN MOWERS, ETC., and all GARDEN AND GREENHOUSE SUPPLIES.—We keep a heavy and varied stock of these, including “Planet, Jr.” and “Iron Age” Implements, for which we are agents. They are the leading tools of the kind, and have a world-wide reputation.

SPRAYING APPLIANCES, INSECTICIDES, ETC.—We are agents for the justly celebrated Spracorn Sprayer Pump, the best sprayer yet introduced. We carry a full line of Insecticides for Greenhouse and outside spraying.

VEGETABLE NOVELTIES FOR 1908

New Turnip Beet, "Witham Fireball"
A new and quite distinct extra early turnip-rooted variety of the finest table qualities. The flesh is solid crisp and sweet, and of a brilliant fiery red color. It is of a perfectly globular form with smooth skin, a tiny tap root and very slender leaf stocks. While it is as early as the earliest strains of flat Egyptian, it conserves its good qualities for a very much longer time. Pkt. 10c.; oz. 20c.; ½ lb. 60c.

New Pea, "Admiral Dewey" Re-Selected
(A late variety.) The largest podded Pea of which we have any knowledge. A heavy cropper of highest quality, and stands at the head of its class. Height 3½ feet; foliage, vine and pod, rich dark green, remarkably healthy and vigorous. Pods frequently six inches in length, beautifully shaped, well filled with Peas of largest size, tender and first class flavor. Seed large green wrinkled. Pkt. 10c.; ½ lb. 20c.; lb. 35c. (If by mail add 5c. per lb., 3c. per ½ lb.)

New Turnip Radish, "Cooper's Sparkler"
A quite distinct variety now offered for the first time. Fulfills every requirement in all respects, the color being a rich carmine scarlet with a pronounced tip of the purest white. The roots, even when fully developed, are solid, crisp and sweet, and remain fit for use as long as the coarser kinds. It is equally well adapted for forcing or growing in the open ground. Pkt. 10c.; oz. 20c.; ½ lb. 60c.

Livingston's New "Coreless" Tomato for 1908
The most perfect shaped Canning variety ever produced. Large size, globe shaped, full at stem end, bright red, a strong grower and big cropper.

Ewing's Re-selected Danish Cannon Ball

Cabbage, "Ewing's Re-Selected Danish Cannon Ball"
Extra selected stock. Heads are nearly round in shape, and in every way it is a distinct variety of Fall or Winter Cabbage. There is no variety that approaches it in solidity. Is saleable shortly after the Henderson's Summer, and is equally good for storing, as it is a splendid keeper. A head of it will weigh 50 per cent more than one of similar size of Fottler's. Every plant produces a head. Every market gardener should grow it. ½ lb. 50c.; oz. 20c.; pkt. 5c.

Cauliflower, Ewing's Extra Selected Earliest "Queen of the Danes" Erfurt
A splendid strain, very dwarf, compact, and the earliest of all to cut; produces extra large snow-white heads, well protected, and of delicate flavor. For forcing this variety is unequaled. ½ oz. 90c.; pkt. 25.

New Cabbage Lettuce, "Brown Percheronne"
Of the same size and color as the Brown Stubborn-headed, but with leaves rather smooth than wrinkled. Inside they are extremely tender and of a pure yellow. Forms extra firm heads and stands a very long time, without running to seed ........................................ 25

New Turnip Radish, "Violet Giant"
This distinct new variety has originated from the "Crimson Giant" Radish, the valuable qualities of which have already earned for it a wide dissemination. It is of the same shape and exceptional size as the latter, and the pure white flesh keeps an extraordinarily long time crisp and tender without getting woolly; the outer skin is of bright violet color. It also comes a little later than the parent sort. ........................................ 25
ingston's Coreless render it a very firm fruit, and one of the best for long distance hauling or shipping.

Offered this season in packets only..................... 25

Livingston's New “Coreless” Tomato

Ewing's Golden Stone-head Lettuce

Very early. Good either for forcing or outdoor culture. Heads are of good size and pale yellow color, solid, and hearts right up. A splendid variety for the home garden.

lb. 50c.; oz. 20c.; pkt. 5c.
VALUABLE FLORAL NOVELTIES FOR 1908

Vick's 2 New Early Branching Asters.

Offered for the first time this season, Vick's Early Branching is a selection from the Late Branching. In two colors, white and rose. Both are similar in habit to the parent but, derive considerable value from their earliness, enabling a grower to get into the market with Branching Asters considerably ahead of regular Branching sorts. These colors are both well fixed, and will give entire satisfaction to the most critical grower. Rose, pkt. 25c. White .................. 25

New Giant Comet Aster
“Triumph of Paris”

Of pyramidal habit, this new Aster grows 2 to 2½ feet high and produces enormous flowers, 4½ to 6 inches across, with long pure white outer petals, in the centre of which the quilled disk florets form a bright golden yellow wreath. A first class certificate of the French Horticultural Society was awarded to this Novelty on August 29th, 1907. ................. 40

New Antirrhinum, Majus Nanum
“Daphne”

(Dwarf Snapdragon). Of late years some remarkably fine colors have been introduced in the semi-dwarf Antirrhinums, and among these this new variety will certainly take high rank. Its flowers are deep carmine rose, the lower lip is suffused with white, and the throat pure white. This delicate coloring produces a most fascinating effect, and in combination with the bright dark green foliage renders the plant an excellent one for groups and cutting. ................. 30

New Godetia, Dwarf Compact
“Crimson Glow”

It forms a compact little bush about 9 inches in height completely smothered with flowers of the most dazzling intense crimson. A bed of this variety produces a vivid effect the intensity of which it is impossible to describe, and to be fully appreciated it must be seen growing ...... 30

New Pansy “Eros”

A grand new Large Flowered Pansy, deep velvety brown with broad golden yellow edge. The back of each bloom has the same broad margin as the front, while the dark velvety centre is shining through, so that a bed of this lovely Pansy has an appearance of being full and rich flowering. This peculiarity renders Pansy "Eros" most valuable for groups and beds. .... 35

New Aquilegia (Columbine), Long-Spurred “Rose Queen”

This splendid novelty, which has arisen among the highly popular long-spurred hybrids of Aquilegia Caerulea, attains a height of 12 to 16 ins. Freely branching and with the characteristic elegant Columbine foliage, the plants produce on long and slender stalks a great profusion of graceful long-spurred flowers of light to dark rose with white centre and yellow anthers, a most delicate and beautiful combination of color. This lovely Aquilegia comes about 80 per cent true from seed. .... 35

New Eschscholtzia, Erecta Compacta
“Dainty Queen”

An exquisite new color in Eschscholtzia, so delicate and striking that it will excite universal admiration. The color is a tender blush or pale coral pink, slightly deeper towards the edges, with a ground work of delicate cream, and quite the same shade inside the flower as outside, so that the effect in color is the same when the flower is open as when closed, which is quite unusual in all other Eschscholtzias. It forms a small compact

Vick's New Early Branching Aster.
New Pansy “Eros”

Sweet Peas
TWO NEW “SPENCERS” FOR 1908
Burpee’s White Spencer

Produces in the greatest profusion flowers of enormous size that are absolutely pure white. It is white-seeded and comes true to the Countess Spencer type. The standard is decidedly waved, crinkled and fluted; the wavy wings are so folded, that the keel is almost hidden. The standard measures from one and three-quarters to two inches across by one and three-eighths inches to one and five-eighths inches in depth. The wings are fully an inch wide and nearly as deep as the standard. The flowers are borne three and four to the stem and are uniformly well placed. The stems are extra strong and measure from twelve to fifteen inches in length.

The vines are most vigorous in growth, with heavy foliage, and attain a height of from ten to twelve feet. They are nearly covered with bloom, while the flowers retain their enormous size throughout the season. Of fine substance the magnificent flowers are unsurpassed for cutting and for keeping after being cut. Pkts. containing 25 seeds .................................................. 35

### Burpee’s Primrose Spencer

This is a fitting companion to Burpee’s White Spencer. The vine is equally as thrifty and free flowering, but slightly shorter in growth, attaining a height of eight to nine feet. The flowers are well placed on strong, thick stems, ten to twelve inches long, and are borne never less than three flowers, and sometimes four flowers, to the stem.

The color is a pronounced primrose or creamy-yellow throughout both standard and wings. Standard and wings are thoroughly crinkled or “waved.” Surpasses all others, of this color in size of flower, length of stem and vigor of growth. Pkts. containing 25 seeds at .................................................. 35

#### PANSY

**Ewing’s Superb Prize Strain:**

A superb strain of all the finest large flowering varieties. Per ½ oz., $1.50 .......................... 50c. pkt. Comprises all the very best strains of FANCY AND SHOW PANSIES, selected from the leading growers of Europe and America, so that in ONE PACKET will be found examples of all the best classes and styles of Pansies of all shades of colors and markings, with blooms of great size and substance.

CONDITIONS OF SALE:—While we exercise great care to have all Seeds pure, reliable, and true to name, our Seeds are sold without any warranty expressed or implied, and without any responsibility on our part in respect to the crop. If Seeds are not accepted on these terms, they must be returned at once. Before ordering, read carefully the front page of Catalogue regarding payment of postage, etc.

SEEDS PREPAID BY MAIL:—Please note that prices in the following list include prepayment of postage on Seeds offered in packets, ounces and quarter pounds to any post office in Canada, when money accompanies the order, unless otherwise mentioned. On half pounds and pounds, postage must be added at the rate of 6 cents per lb. for all Post Offices in Canada, and at the rate of 16 cents per lb., on quarter pounds, half pounds and pounds, when mailed to Newfoundland or U.S.A.

MARKET GARDENERS:—Using large quantities of Seed will please send for our Special Market Gardeners Price List.

ARTICHOKE—FR. ARTICHAUT

The Globe Artichoke is cultivated for its flower-heads, which are cooked like Asparagus. Set the plants in any good soil, and if covered slightly during winter will remain in bearing several years.

ASPARAGUS

One ounce of seed will sow about 40 ft., of a row. A bed 12 x 40 feet requires 100 plants, which is sufficient for the use of a small family. Soil should be made as rich as possible before planting, and the beds should be manured, and slightly dug every fall.

NEW GIANT SNOW-CAP—By far the earliest Asparagus. Heads are pure white, and of the most delicate flavor. oz. 25c.; pkt. 10c.

ARGENTEUIL—An early and remarkably healthy variety and extensively grown in France. Stalks grow to a mammoth size, and quality is excellent. pkt. 10c.; oz. 20c.; 1/2 lb. 40c.

PALMETTO—Grows to an immense size. The heads are green without any purple tinge, of excellent flavor, and tender. lb. 75c.; 1/2 lb. 25c.; oz. 10c.; pkt. 5c.

We can supply fine, strong, two-year old plants of the leading varieties at $1.00 per 100, express extra.

BORECOLE OR KALE

Sow early in Spring, culture same as Cabbage.

DOBBIE’S VICTORIA—Grows from 20 to 24 inches high and produces medium-sized leaves that are excellently crisp and curled. Sprouts freely after the heads have been cut, and these sprouts are delicious when cooked as spinach. pkt. 15c. per oz. per pkt.

TALL GREEN CURLED SCOTCH.............. 15c. 5c.
DWARF GREEN CURLED SCOTCH............. 15c. 5c.

BRUSSELS SPROUTS

—Fr. Chou a Jet de Bruxelles.

The cultivation of this delicious vegetable is similar to that of Cabbage. To preserve through winter, store in a cool cellar with roots in earth.

EDINBURGH PRIZE — Grows large, and the stem is completely clad with sprouts. oz. 25c.; pkt. 5c.

DWARF PARIS MARKET—A fine reliable dwarf variety with perfect sprouts. oz. 20c.; pkt. 5c.
BEANS—English
Sow in drills two feet apart, and leave 5 or 6 inches between plants. One pound of seed will sow 100 feet of row.*

CHAMPION BROAD WINDSOR—Very large, remains long fit for use. Per lb. 20c.; post paid, 25c.

BEANS
Dwarf or Bush Wax Podded Varieties
One pound will plant 100 ft. of row, one bushel will plant half an acre in drills.

If by mail add 5c. per pound to Newfoundland or U.S.A.

To secure a succession of Dwarf Beans, make successive sowings from May till middle of July, in rows 1½ to 2 feet apart, covering the Beans 3 inches. Thin out to from 4 to 6 inches, and slightly earth up. Commence picking when pods are young, and the plants will thus continue producing for quite a time. Make sowings of Pole Beans about same time as the dwarf varieties, in rows 6 to 10 feet apart, leaving 6 to 9 inches between plants. Stake when plants are well above ground. In “hills” drive in poles 4 feet apart, planting 4 or 5 beans round each, tying to poles as beans grow.

CURRIE’S RUST PROOF BLACK WAX—Upright and robust habit. Pods are long, flat, and hang well off the ground. Beautiful golden color. lb. 18c.; 5 lbs. 85c.; pkt. 5c. (add 5c. per lb. if by mail).

WARDWELL’S KIDNEY WAX—One of the best early sorts. Particularly free from rust, very prolific. lb. 20c.; 5 lbs. 90c.; pkt. 5c. (add 5c. per lb. if by mail).

PROLIFIC FLAGEOLET—Yielder, 5c. per lb. by mail).

YOSEMITE MAMMOTH WAX—Pods are long, round and solid, bright yellow in color, absolutely stringless, and numerous. lb. 35c.; by mail postpaid, lb. 40c.

NEW GOLDEN EYE WAX—Is claimed to be rust proof. Straight, flat, fleshy pods 5 ins. long and ½ in. broad. Heavy bearer. lb. 18c.; 5 lbs. 85. (add 5c per lb. if by mail).

FLAGÉOLET or SCARLET WAX—A valuable heavy cropping variety producing very long broad, flat, yellow pods of excellent quality and stringless. lb. 20c.; 5 lbs. 90c. (add 5c. per lb. if by mail).

DETROIT WAX—Round, extremely tender, beautiful yellow pods. Very productive. lb. 18c.; 5 lbs. 85c. (add 5c. per lb. if by mail).

GOLDEN PODDED WAX—Light golden yellow pods, very brittle. Plants stand erect, bearing an abundance of fine pods held well off the ground. lb. 18c.; 5 lbs. 85c. (add 5c. per lb. if by mail).

PROMOTIVE BLACK WAX—Dwarf bush growth, very early and prolific. Deep golden yellow pods of excellent flavor. lb. 15c.; 5 lbs. 70c. (add 5c. per lb. if by mail).

DAVIES’ WHITE WAX—Immensely productive. Pods are large, straight, and six inches long. Makes a fine winter shell bean. lb. 20c.; 5 lbs. 90c. (add 5c. per lb. if by mail).

SADDLEBACK WAX—A grand variety. Plants of strong bushy habit, about 15 inches in height and extremely productive. Pods are long and straight, well rounded and very meaty. Always stringless and very brittle, rich golden yellow in color and of finest flavor. lb. 25c.; 5 lbs. $1.00 (add 5c. per lb. if by mail).

DWARF GREEN PODDED VARIETIES

EXTRA EARLY RED VALENTINE—A standard early round pod variety of fine flavor. Very productive. lb. 15c.; 5 lbs. 60c. (add 5c. per lb. if by mail).

BURPEE’S STRINGLESS GREEN POD—A grand sort, combining hardiness, extreme earliness and great productivity with large handsome pods of finest quality. lb. 20c.; 5 lbs. 90c. (add 5c. per lb. if by mail).

BURPEE’S BUSH LIMA—Of erect growth, about 20 inches high. An immense yielder, and the pods are filled with large beans of luscious flavor. Beans are as large as the Pole Lima and 3 weeks earlier. lb. 25c. (post paid, lb. 30c.)

EARLY CHINA—A good early sort. Very productive, and much esteemed as a dry shell bean. lb. 15c.; 5 lbs. 60c. (add 5c. per lb. if by mail).
GREEN POD BEANS—Contd.
EARLY YELLOW SIX WEEKS—Flat pods 6 inches in length, light green. lb. 15c.; 5 lbs. 60c. (add 5c. per lb. if by mail).
IMPROVED REFUGEE or 1000 to 1—An extremely prolific sort, bearing pale green pods about 5 inches in length and almost round. Solid flesh, brittle, and of fine flavor. lb. 15c.; 5 lbs. 60c.
DWARF HORTICULTURAL—Grown as a shell bean. Grand sort. lb. 20c. (post paid, lb. 25c.).
EARLY MARROWFAT—Grown as a shell bean. lb. 15c. (post paid, lb. 20c.).
WHITE KIDNEY—Used as a cooking bean, dry. lb. 15c. (post paid, lb. 20c.).
IMPROVED YELLOW EYE or BOSTON FAVORITE—This fine sort is most valued as a shell bean. lb. 15c. (post paid, lb. 20c.).

POLE OR RUNNING BEANS
ASPARAGUS—(Green pod.) Is the heaviest cropper of all. Pods are round, of great length, tender and of delicious flavor. A splendid sort. pkt. 10c.; lb. 60c. (post paid, lb. 65c.).
KENTUCKY WONDER or OLD HOMESTEAD—(Green pod.) Pods are seven to nine inches in length and are solidly meaty, stringless when young, and of particularly good quality. Very prolific. lb. 20c. (post paid, lb. 25c.).
EARLY GOLDEN CLUSTER WAX—(Yellow pod.) Bears clusters of from 3 to 6 large flat pods of rich golden yellow color and of excellent quality. lb. 20c. (post paid, lb. 25c.).
BLACK BUTTER or INDIAN CHIEF—(Yellow pod.) Waxy yellow pods of fine flavor. A good cropper. lb. 20c. (post paid, lb. 25c.).
GOLDEN ANDALUSIA—(Yellow pod.) A splendid variety producing fleshy fine flavored pods. lb. 20c. (post paid, lb. 25c.).
HORTICULTURAL or CRANBERRY—(Green pod.) A popular old variety and is very productive. A favorite snapshort, matures early and is used as a shell bean. lb. 20c. (post paid, lb. 25c.).
WHITE DUTCH CASE KNIFE—(Green pod.) An early prolific variety. Long, flat, green pods. White seeded, and makes a fine dry shell bean for winter. lb. 20c. (post paid, lb. 25c.).
LAZY WIFE'S—(Green pod.) Dark green pods produced in great abundance, and are from 5 to 6 inches long, broad and thick, very fleshy and entirely stringless. Excellent flavor. A grand sort. lb. 20c. (post paid, lb. 25c.).
IMPROVED LARGE LIMA—(Green pod.) A delicious bean either in its green or dry state. lb. 20c. (post paid, lb. 25c.).
SCARLET RUNNERS—lb. 20c. (post paid, lb. 25c.).
WHITE RUNNERS—lb. 20c. (post paid, lb. 25c.).
PAINTED LADY RUNNERS—lb. 20c. (post paid, lb. 25c.).

The three preceding varieties are mainly cultivated for their flowers, but the pods are also used as a culinary vegetable.

Beet—FR. BETTERAVE À TABLE

One ounce will sow about 50 feet of drill; 5 lbs. will sow an acre.

Make drills 1 inch deep, and from 1 to 1 1/2 feet between, and sow early in spring. As plants grow, thin out to from 4 to 6 inches, according to size of variety, keeping in mind that medium sized, good colored roots are best. Too rich soil and too much space produce large coarse roots. Never use manure in spring. Thinning makes the best of Spinach.

HALF LONG AND LONG VARIETIES

CHELTENHAM—Long.—Produces medium-sized half long roots, with dark scarlet flesh, of rich flavor and fine quality. pkt. 5c.; oz. 15c.; ½ lb. 50c.

MARTIN'S EXHIBITION LONG BLACK—Long tapering roots of the deepest black color to be found in any Beet. A fine Exhibition variety. oz. 20c.; pkt. 10c.

DOBBIE'S NEW PURPLE—For form, smoothness, color and quality this sort is unequalled. pkt. 15c.

EWING’S IMPROVED BONSECOURS MARKET—The best general ½ long Beet in cultivation. neat shape; uniformly smooth, splendid color and excellent flavor. Is a very heavy cropper, and great favorite with market gardeners. We strongly recommend it. lb. 75c.; ½ lb. 25c.; oz. 10c.; pkt. 5c.

GARDENER’S FAVORITE—Medium sized, finely shaped roots of deep crimson color. One of the finest table beets. ½ lb. 35c.; oz. 15c.; pkt. 5c.

COVENT GARDEN—Fine color, not too large, a fine sort for private gardens. lb. $1; ½ lb. 40c.; oz. 15c.; pkt. 5c.

IMPROVED LONG BLOOD—The heaviest cropper. lb. 60c.; ½ lb. 25c.; oz. 10c.; pkt. 5c.

WHYTE’S DEEP BLOOD—Half long. lb. 75c.; ½ lb. 25c.; oz. 10c.; pkt. 5c.

DELL’S SUPREME BLACK—Wine-colored leaves; greatly admired as a foliage plant. Small roots. oz. 15c.; pkt. 5c.

ROUND OR TURNIP VARIETIES

EARLY ECLIPSE—Extra early. Smooth, round, intense red roots; extremely popular both for the home garden and market; excellent quality. lb. 75c.; ½ lb. 25c.; oz. 10c.; pkt. 5c.

EARLY EGYPTIAN—A very early medium-sized root of excellent quality and dark red color. lb. 75c.; ½ lb. 25c.; oz. 10c.; pkt. 5c.

CRIMSON GLOBE—Remarkable for its fine form and smoothness. A second early sort of medium size. Flesh dark red and of fine flavor. lb. 75c.; ½ lb. 25c.; oz. 10c.; pkt. 5c.

FLAT BASSANO—Suitable for shallow soils. Very early. Flesh white, tinged with rose. lb. 60c.; ½ lb. 20c.; oz. 10c.; pkt. 5c.

(For Stock Feeding Varieties see "Agricultural Seeds.")
Cauliflower

One ounce of seed will produce about 1,500 plants.

**EARLY VARIETIES**

**BAMBERG EARLIEST**—This new Cabbage is earliest of all. It forms large and uncommonly firm heads of a light green color, which, when cooked, are tender and of good flavor. Will probably soon take the leading place among the Early Cabbages. pkt. 10c.; oz. 30c.

**EXTRA EARLY EXPRESS**—The earliest variety. Is of conical shape, resembling the Etampes in form, but is from eight to ten days earlier. Has few outside leaves, and can thus be planted very close. We recommend it strongly. lb. $1.75; 1 lb. 50c.; oz. 20c.; pkt. 5c.

**EARLY ETAMPS**—Is one of the Oxheart type, forming a hard head very early. Both the Etampes and the preceding we recommend with perfect confidence either to market gardeners or private growers. lb. $1.75; 1 lb. 50c.; oz. 20c.; pkt. 5c.

**EARLY STANDARD or EARLY PARIS MARKET**—Is also of the Oxheart type, but larger. Forms a saleable head quickly, and is a most valuable sort for market gardeners. lb. $1.75; 1 lb. 50c.; oz. 20c.; pkt. 5c.

**EARLY SPRING**—This is the earliest of all flat headed Cabbages. Has but few outer leaves, and the head closes in quickly. Stem is short and heart very small, making almost entire head fit for use, thus a most saleable variety for early marketing. lb. $1.75; 1 lb. 50c.; oz. 20c.; pkt. 5c.

**CHERVIL**—FR. CERFEUIL

Cultivate same as Parsley.

**DOUBLE CURLED**—lb. 40c.; oz. 15c.; pkt. 5c.

**CRESS**—FR. CRESSION

Sow in drills and repeat sowings frequently, as it quickly runs to seed. Water Cress should either be sown on or transplanted to the banks of a running stream, or placed in the bed of it, with a stone on each plant to prevent shifting.

Per lb. ½ lb. oz. pkt.

We draw particular attention to the extra quality of our Cauliflower Seed, and more especially to Ewing's Selected Dwarf Early Erfurt and Ewing's Extra Earliest Queen of the Danes Erfurt.
CABBAGE—Contd.

EWING’S SELECTED EARLY WINNINGSTADT—(True French grown.) Of conical shape; about same size as Jersey Wakefield, but not quite so early. Forms the hardest head of any early Cabbage. A most popular variety on account of its great solidity. Of excellent quality, and is little affected with the Cabbage worm. lb. $1.75; ½ lb. 50c.; oz. 20c.; pkt. 5c.

LARGE EARLY OXHEART—lb. $1.60; ½ lb. 50c.; oz. 20c.; pkt. 5c.

SECOND EARLY VARIETIES

EWING’S SELECT DANISH “CANNON BALL”—Extra Selected Stock—Heads are nearly round in shape, and in every way it is a distinct variety of Fall or Winter Cabbage. There is no variety that approaches it in solidity, is saleable shortly after the Henderson’s Summer, and is equally good for storing, as it is a splendid keeper. Every market produces a head. Every gardener should grow it. lb. $2.25; ½ lb. 60c.; oz. 20c.; pkt. 5c.

HENDERSON’S IMPROVED EARLY SUMMER—Produces large solid round flattened heads of excellent quality. Comes in just after Standard and Etampes. lb. $1.60; ½ lb. 50c.; oz. 20c.; pkt. 5c.

SUCCESION—A popular second early variety about ten days later than Henderson’s Early Summer, larger heads and more uniform. An attractive light green color and splendid keeper. lb. $1.75; ½ lb. 50c.; oz. 20c.; pkt. 5c.

SELECTED ALL-SEASONS or VANDERGAW—A great favorite with market gardeners; a sure header, and produces large extremely hard and solid heads, flat on top, and is ready for market almost as soon as Henderson’s Summer. As good for winter and autumn as for early summer. lb. $1.75; ½ lb. 50c.; oz. 20c.; pkt. 5c.

ALL-HEAD EARLY—The largest heading of all early Cabbages. Remarkably solid deep flat heads, of uniform size. Growth compact and with few outer leaves. lb. $1.75; ½ lb. 50c.; oz. 20c.; pkt. 5c.

Henderson’s Improved Early Summer, Surehead Cabbage

Ewing’s Improved St. Denis Drumhead Cabbage.

FOTTLER’S IMPROVED BRUNSWICK—Large solid flat heads, dwarf compact growth, while the few outer leaves grow closely about the heads. The heads are uniform and hard. Planted early will be ready for use in August. A favorite with market gardeners. lb. $1.60; ½ lb. 50c.; oz. 20c.; pkt. 5c.

LATE OR WINTER VARIETIES

SELECT AUTUMN KING or WORLD BEATER—Extremely large solid headed variety quite distinct in its characteristics. Enormous flattened heads bluish-green in color, but requires a somewhat longer season of growth than the smaller varieties. lb. $1.75; ½ lb. 50c.; oz. 20c.; pkt. 5c.

LARGE BRUNSWICK SHORT STEM—Used as a second early and late variety, and produces very large, solid heads. A fine sort. lb. $1.60; ½ lb. 50c.; oz. 20c.; pkt. 5c.

SELECTED LATE FLAT DUTCH—A splendid strain. Remarkably large flat heads, even, very solid and of fine texture. A sure heading sort and excellent keeper. lb. $1.60; ½ lb. 50c.; oz. 20c.; pkt. 5c.

EWING’S IMPROVED ST. DENIS DRUMHEAD—The favorite winter variety; extra large heads, extremely solid and of excellent quality; a splendid keeper. One of the best. lb. $1.60; ½ lb. 50c.; oz. 20c.; pkt. 5c.

SUREHEAD—Remarkable for its certainty to head; produces large, solid flattened heads of Flat Dutch type. The heads are uniform, hard and fine in texture. Of excellent quality, and a popular sort with all lovers of good Cabbage. lb. $1.75; ½ lb. 50c.; oz. 20c.; pkt. 5c.

MARBLEHEAD MAMMOTH—A grand variety. Immense heads, solid and of excellent quality. Good keeper. lb. $1.75; ½ lb. 50c.; oz. 20c.; pkt. 5c.
WILLIAM EWING & CO.'S SEED CATALOGUE

CABBAGE—Contd.
RED VARIETIES

MAMMOTH RED DRUMHEAD—The largest and most solid of the Red varieties. A tender sure heading sort. Excellent for pickling. lb. $1.75; ½ lb. 50c.; oz. 20c.; pkt. 5c.

EARLY RED DUTCH—Earlier than the Mammoth Red and considerably smaller, but equally good for pickling. lb. $1.00; ½ lb. 50c.; oz. 20c.; pkt. 5c.

CARROT—FR. CAROTTE

CULTURE—Use nothing but well-decayed manure, applied the previous autumn, when the ground should have been deeply dug. Sow early in drills about ½ inch deep and 9 to 12 inches apart, thinning out from 2 to 3 inches for early Carrots. As they become large enough to use, continue the thinning, until plants are 6 to 7 inches apart. In heavy clay, long varieties can be successfully grown for exhibition by making holes a foot deep with a croobar or a piece of wood, pointed, and the holes filled up with a compost of rich earth and sand, and a few seeds sown on top.

One ounce of seed will sow one hundred feet of drill and four lbs. will sow an acre.

SAVOY VARIETIES

GREEN CURLLED—Medium-sized early variety, and very tender. lb. $1.60; ½ lb. 50c.; oz. 20c.; pkt. 5c.

MAMMOTH AUBERVILLYES DRUMHEAD—A select strain, extra large, finely curled and of excellent quality. lb. $1.75; ½ lb. 50c.; oz. 20c.; pkt. 5c.

PERFECTION DRUMHEAD—A fine, large, hard variety. lb. $1.60; ½ lb. 50c.; oz. 20c.; pkt. 5c.

SUPPLEMENT

IMPROVED HALF LONG CHANTENAY—Half long scarlet. An improved variety of Nantes, with larger shoulder and more productive. Extra fine sort. lb. 75c.; ½ lb. 25c.; oz. 10c.; pkt. 5c.

HALF LONG NANTES (Stump rooted)—A select strain. Heavy cropper; does not require so deep a soil as long varieties. lb. 75c.; ½ lb. 25c.; oz. 10c.; pkt. 5c.

JAMES’ SCARLET INTERMEDIATE—Half long pointed. lb. 60c.; ½ lb. 20c.; oz. 10c.; pkt. 5c.

HALF LONG IMPROVED DANVERS—Tapering root of medium length; very smooth. This is the heaviest cropping variety of red carrot. lb. 75c.; ½ lb. 25c.; oz. 10c.; pkt. 5c.

HALF LONG GUERANDE or Oxheart—The root is very thick at the shoulder, tapering slightly to the point, is very dry, and is a heavy cropper. lb. 75c.; ½ lb. 25c.; oz. 10c.; pkt. 5c.

LONG RED STUMP ROOTED—This sort has but little heart or pith, and is the best flavored variety in cultivation. lb. 90c.; ½ lb. 30c.; oz. 10c.; pkt. 5c.

LONG ORANGE—Long root, of good color and flavor. lb. 65c.; ½ lb. 20c.; oz. 10c.; pkt. 5c.

For FIELD VARIETIES—See Agricultural Seeds.

CELERY—FR. CELERI

CULTURE—For early use, seed should be sown in a box in the house, early in March, and when plants are fit to handle transplant into other boxes, 2 or 3 inches apart. In May again transplant into a well prepared bed outside, 5 or 6 inches between plants, where they can stand till wanted to plant out in trenches in June. Dig out a trench (throwing the earth to either side equally) say one foot deep, and one foot wide enough for a single row—if for a double row, it should be 1½ to 2 feet wide. Dig into the bottom of the trench a good supply of well-rotted manure and rake smooth. Dibble in the plants 6 to 8 inches apart either in single or double rows. As plants grow, fill in the earth from the sides to blanch the stems, being careful that none gets into the heart of the plants. Continue earthing up till well on in September.
CELEBRITY—Contd.

DOBBIE'S INVINCIBLE WHITE—Tall growing sort, very crisp, solid and well flavored, and not liable to run to seed. A fine exhibition variety. Pkt. 15c.

DOBBIE'S INVINCIBLE RED—A similar variety to the above except in color. Pkt. 15c.

TRIUMPH—A late white variety. For crispness and nutty flavor it has no superior; keeps remarkably well. ½ lb. 75c.; oz. 25c.; pkt. 5c.

PINK PLUMES—Resembles the White Plume in growth, with the outer ribs of a delicate pink. oz. 25c.; pkt. 5c.

HENDERSON'S WHITE PLUME—Very early, needs but little earthing up and is of fine flavor. ½ lb. 75c.; oz. 25c.; pkt. 5c.

PARIS GOLDEN YELLOW—Of medium height, fine flavor and perfectly solid, and needs but little earthing up. The outer ribs are of yellowish white, while the heart, which is large and solid, is of a rich golden yellow, and it thus has a most striking appearance on the table. Is an excellent keeper. ¼ lb. $1.75; oz. 60c.; pkt. 10c.

DWARF LARGE RIBBED—A solid white sort and good keeper. ¼ lb. 60c.; oz. 20c.; pkt. 5c.

GIANT WHITE PASCHAL—Grows one-third taller than Paris Golden Yellow. Color white with golden heart. Keeps well when stored in a cool cellar. ¼ lb. 60c.; oz. 20c.; pkt. 5c.

NEW ROSE—Deep rose color, and very solid. ½ lb. 75c.; oz. 25c.; pkt. 5c.

BOSTON MARKET DWARF—Branching habit, and has a fine nutty flavor. Keeps well. ¼ lb. 60c.; oz. 20c.; pkt. 5c.

CELERIAC or TURNIP ROOTED CELERY—oz. 20c.; pkt. 5c.

CELERY SEED—For flavoring soups, pickles, etc. ½ lb. 20c.; oz. 10c.

SUGAR CORN—PR. BLÉ D'INŒ SUÇRÉ

One lb. will plant about 100 hills, and one peck will plant an acre in hills.

When ordered by Mail—Add 5c. per lb. for postage in the Dominion, or 16c. per lb. for U. S. A. and Newfoundland.

EARLY VARIETIES

GOLDEN BANTAM—The richest in flavor of all. Is extra early and extra hardy. The grains are rich creamy yellow, and though the ears are small (5 to 7 inches in length) this is fully made up by the deliciously sweet flavor of the corn when cooked. A grand variety for the home garden. lb. 30c.; 5 lbs. $1.40.

PEEP O' DAY—An extremely early variety, being remarkably sweet and tender. Stalks grow about 3½ feet and are very prolific, producing from 2 to 3 ears each. lb. 15c.; 5 lbs. 85c.

EARLY MARKET SUGAR—New. This new sort produces large ears of the sweetest flavor, and must become popular alike with the market and private gardeners. Stalks grow 5 to 6 feet high, each bearing one to two ears 10 to 12 inches in length. Cores and kernels are pure white, and the latter particularly tender and of true sugary flavor. It is exceptionally free from fungus growth and smut, is as early as Corey, and as sweet as Stowell's Evergreen, and in productiveness none excel it. lb. 20c.; 5 lbs. 90c.

HOLMES' NEW JERSEY—Combines all the merits of the extra early varieties, size, quality, and yield. Stalks grow about 5 feet high, generally bearing 2 well-developed ears to a stalk. lb. 15c.; 5 lbs. 85c.

EARLIEST SHEFFIELD—Is a cross between Corey and Adams' Extra Early. Is earlier than the Corey, and much harder, and can be planted almost as early as Flint corn. This will make it a favorite for early market. Grows 4½ feet high. lb. 15c.; 5 lbs. 85c.

FORD'S EARLY SUGAR—Is as early as White Corey. lb. 15c.; 5 lbs. 85c.

EARLY COREY or FIRST OF ALL—An extra early variety with a red cob, and very popular with market gardeners. Doz. ears 50c.; lb. 15c.; 5 lbs. 85c.

EARLY WHITE COREY—Same as preceding, excepting that the grain is pure white and has a better appearance when cooked. lb. 15c.; 5 lbs. 85c.

MINNESOTA EARLY WHITE—Small early variety. lb. 15c.; 5 lbs. 80c.

MEDIUM EARLY VARIETIES

NEW CHAMPION—Grows the largest ears of the early sorts. Is ready for use earlier than Crosby. Grains are pure white, very sweet and tender lb. 15c.; 5 lbs. 85c.

KENDAL'S EARLY GIANT—Is nearly as early as Crosby and produces ears 8 to 10 inches long, averaging 12 rows to the ear. Grains are pure white, sweet and tender. lb. 15c.; 5 lbs. 85c.

COUNTRY GENTLEMAN—A delicious, sweet variety. Kernels are of nearly whiteness, and although narrow, are exceedingly long. We strongly recommend it. lb. 15c.; 5 lbs. 85c.

OLD COLONY—A selection of the Evergreen type, but about ten days earlier. A very desirable sort for canners and market gardeners. lb. 15c.; 5 lbs. 85c.

MEXICAN EARLY—A black-seeded sort, and perhaps the sweetest of all. lb. 15c.; 5 lbs. 85c.

PERRY'S HYBRID—A second early sort. lb. 15c.; 5 lbs. 85c.

CROSBY'S EARLY—A standard variety and a great favorite. Very productive and of good quality. Doz. ears 50c.; lb. 17c.; 5 lbs. 80c.

Stowell's Improved Evergreen

(Continued over)
SUGAR CORN—Contd.

LATE VARIETIES

NEW ZIGZAG EVERGREEN SUGAR—Produces ears as large as Stowell's Evergreen, but much sweeter, and, what is very important, is ten days earlier. Instead of the rows being straight, the kern-Is run zigzag, hence its name. lb. 18c.; 5 lbs. 85c.

STOWELL'S IMPROVED EVERGREEN SUGAR—The standard late variety and one of the best. Doz. ears 60c.; lb. 18c.; 5 lbs. 85c.

MAMMOTH SUGAR—Ears large. Very sweet. lb. 18c.; 5 lbs. 85c.

CANADA YELLOW FLINT—White. oz. 5c.

POP CORN—White rice. Best popping sort. lb. 10c.; 3 lbs. for 25c.

CORN SALAD

Sow early. The leaves are much esteemed as a spring salad. oz. 20c.; pkt. 5c.

CUCUMBER—FR. CONCUMBE

One ounce will plant about 50 hills.

CULTURE—Can be easily raised in the open ground, and, when only a few are required, had better be grown in hills, 3 feet apart. Make a trench about 18 inches deep and 3 feet in diameter, and fill up with horse dung, tramping same down firmly, and then cover over with 9 inches of rich, light soil, so that over the manure the ground is slightly raised, and in a few days sow 4 or 5 seeds on each “hill,” ultimately leaving the three strongest plants. It is very important that the plants should suffer no check from sowing to fruiting, hence watering must be carefully attended to.

THE DAVIS PERFECT—This new variety is unequalled for quality, shape, color and productiveness, and is bound to become a tremendous money maker for market gardeners. It is not only the handsomest shaped variety, but is of the richest dark glossy green color. For growing out of doors it is unsurpassed and is equally good for forcing. We strongly recommend it. ½ lb. 50c.; oz. 20c.; pkt. 10c.

“FORDHOEK FAMOUS”—This “Extra Long White Spine” Cucumber possesses all the qualities that go to make a perfect cucumber, and will most certainly prove a most popular variety. Fruits are handsome in form, of beautiful dark green, are perfectly smooth, always grow straight, and are from 12 to 18 inches long. Vines are exceptionally vigorous and proof against insect attacks. Is a very heavy cropper. ½ lb. 45c.; oz. 20c.; pkt. 5c.

EWING'S IMPROVED WHITE SPINE—A splendid strain. Medium size and very early. lb. $1.25; ½ lb. 35c.; oz. 15c.; pkt. 5c.

ARLINGTON WHITE SPINE—The first fruits on the vine are very even in form and size, and continue so through the season. lb. $1.25; ½ lb. 35c.; oz. 15c.; pkt. 5c.

EWING'S PEERLESS WHITE SPINE—Extra long and smooth, and very early and prolific. It differs from the other strains of White Spine in retaining its deep green color. lb. $1.25; ½ lb. 35c.; oz. 15c.; pkt. 5c.

EWING'S IMPROVED LONG GREEN—A superior strain of fine dark green color, uniform size, crisp and tender. lb. $1.25; ½ lb. 35c.; oz. 15c.; pkt. 5c.

LONG GREEN PRICKLY—Dark green, tender and well flavored. lb. $1.25; ½ lb. 35c.; oz. 15c.; pkt. 5c.

COOL AND CRISP—A particularly excellent variety for pickling or table use. At the pickling stage the cucumbers are slim, and of very dark color. ½ lb. 35c.; oz. 15c.; pkt. 5c.

NEW JAPANESE CLIMBING—Vines and foliage are much stronger than other kinds, and as it is a climber it can be grown on fences and trellises. Is a most prolific bearer, and the fruit is about ten inches long and of fine flavor. lb. $1.50; ½ lb. 45c.; oz. 20c.; pkt. 5c.

TRUE PARIS PICKLING—The young cucumbers, when at the proper age for pickling, are from 3 to 5 inches in length, and slender. ½ lb. 90c.; oz. 30c.; pkt. 5c.

GREEN PROLIFIC (or Boston Pickling)—One of the best pickling varieties, dark green. lb. $1.25; ½ lb. 35c.; oz. 15c.; pkt. 5c.

LIVINGSTON'S EMERALD—Is a rich dark green, retaining its color till ripe. Is of vigorous growth and early, of large size, and entirely free from warts and spines. ½ lb. 45c.; oz. 20c.; pkt. 5c.

EARLY FRAME—Medium size. lb. $1.25; ½ lb. 35c.; oz. 15c.; pkt. 5c.

EARLY CLUSTER—Small and early. lb. $1.25; ½ lb. 35c.; oz. 15c.; pkt. 5c.

EARLY RUSSIAN—Early; small. lb. $1.25; ½ lb. 35c.; oz. 15c.; pkt. 5c.

WEST INDIA GHERKIN or BURR—Also known as Jerusalem Pickle. A very small oval-shaped prickly variety, quite distinct from all others. oz. 20c.; pkt. 5c.

ENGLISH FRAME CUCUMBER

SION HOUSE. TELEGRAPH (Rollinson's)—25c. per pkt.

MARQUIS OF LORNE.—25c. per pkt.
ENDIVE—FR. CHICOREE
Sow in June, in drills one foot apart, and thin out to about the same distance. When six or eight inches high, tie up to blanch, and draw up the earth around the plants. Be careful that the leaves are dry when tied up, but give plenty of water during dry weather.

GREEN CURLED ........... $ lb. 50c.; oz. 15c.; pkt. 5c.
WHITE " ........... $ lb. 50c.; oz. 15c.; pkt. 5c.
MOSS " ........... $ lb. 50c.; oz. 15c.; pkt. 5c.

EGG PLANT
Fr. Aubergine
Sow in a hot-bed and plant out about the end of May into deep, rich soil, with a warm exposure: plants two feet apart.

Improved New York Purple Egg Plant.

LONG PURPLE.......................... oz. 40c.; pkt. 5c.
EARLY WHITE LONG .. oz. 50c.; pkt. 10c.
IMPROVED NEW YORK PURPLE .. oz. 60c.; pkt. 10c.

KOHL RABI—FR. CHOU RAVE
A hybrid between the Turnip and Cabbage; culture same as Turnip. Immediately above the ground the stem swells into a bulb similar to a turnip.

Green Giant Kohl Rabi

PURPLE GIANT .................. 1 lb. 60c.; oz. 20c.; pkt. 5c.
WHITE .................. 1 lb. 60c.; oz. 20c.; pkt. 5c.

For KALE—See Borecole.

LEEK—FR. POIREAU
One ounce of seed will sow one hundred feet of drill.

FLAG—A good medium-sized popular variety. lb. $1.35; 1 lb. 35c.; oz. 15c.; pkt. 5c.
MUSSELBURGH—Very hardy, and grows to a large size when well cultivated. lb. $1.50; 1 lb. 40c.; oz. 15c.; pkt. 5c.
MONSTROUS CARETAN—A large and excellent variety. lb. $1.50; 1 lb. 40c.; oz. 15c.; pkt. 5c.

LETTUCE—FR. LAITUE
CULTURE—Make a succession of sowings in the open ground beginning in May, at intervals of 2 weeks or so, in drills 1 foot apart, and leave plants 9 inches apart or seed can be sown in a small bed and transplanted into rows when 3 inches high. The first sowing can be made in a box in the house and planted out in May. To grow good Lettuce, soil should be light and rich, and plants never allowed to flag, so attend to watering. A light application of nitrate of soda increases the size of the heads and helps them to form early.

"MAY KING CABBAGE"—Introduced last season. A splendid improved early outdoor Cabbage Lettuce, and succeeds equally well in a cold frame. Neither cold nor wet weather affects it in the slightest. A rapid grower, producing splendid globular heads two weeks ahead of any other sort. Outside leaves are yellowish-green with light brown tinge, and inside a beautiful golden color. In flavor unexcelled. oz. 25c.; pkt. 10c.

IMPROVED ST. LOUIS—An excellent sort, producing good sized heads, very crisp and good for forcing. 1 lb. 40c.; oz. 15c.; pkt. 5c.

LARGE YELLOW MARKET—Particularly tender, and very fine large heads of greenish-yellow; of an especially hardy nature. 1 lb. 50c.; oz. 20c.; pkt. 5c.
LETTUCE—Contd.

Ewing's Golden Stone-head

ICEBERG—Handsome variety, with very solid heads, leaves curving in and keeping centre well blanched; always crisp and tender. oz. 20c.; pkt. 5c.

EWING'S GOLDEN STONE HEAD—Very early. Good either for forcing or outdoor culture. Heads are of good size and pale yellow color, solid, and hearts right up. A splendid variety for the home garden. ½ lb. 60c.; oz. 20c.; pkt. 5c.

GRAND RAPIDS—Somewhat loose headed, but valuable for winter forcing as it seldom damps off. ½ lb. 40c.; oz. 15c.; pkt. 5c.

EWING'S EXCELSIOR—A large crisp variety which does not run to seed quickly. Thick succulent leaves; can either be used when half grown or left to form heads. One of the best. ½ lb. 50c.; oz. 20c.; pkt. 5c.

NONPAREIL—Leaves yellowish-green, heads large, solid and tender. ¼ lb. 40c.; oz. 15c.; pkt. 5c.

DEFIANCE—Admirably adapted for open air culture, as it does not run to seed quickly. ½ lb. 40c.; oz. 15c.; pkt. 5c.

DENVER MARKET—Large solid heads of a light green color, with crimped leaves, resembling Savoy Cabbage. ½ lb. 40c.; oz. 15c.; pkt. 5c.

MUSK MELON—FR. MELON MUSCADE.

CULTURE—The Musk Melon requires somewhat similar treatment to Cucumber, in the open air, but, as a rule, does not succeed so well with amateurs. Seeds can be sown in March in the house, in a 6 inch pot. After planting in hills, prepared as for Cucumber, plants should be covered with glass—a double window will do on a box same size as window. Should get air through the day, but always be closed in the evening to retain the heat gained during the day, and watering must not be neglected. When the vines fill the frame, it should be lifted on to bricks, and about July the frame can be removed altogether.

Ewing's Montreal Improved Nutmeg Melon

EWING'S MONTREAL IMPROVED NUT-MEG—Light green flesh, large size and splendid flavor. The best variety in cultivation. Our stock is true, and saved from selected melons grown here under glass. It is to be noted that the leading hotels in New York, Philadelphia and other cities in the United States buy Montreal Melons in large quantities during the season. pkt. 15c.; oz. $1.00.

MONTREAL MARKET—United States grown seed. ½ lb. 60c.; oz. 20c.; pkt. 5c.

GREEN NUTMEG—Green flesh, finely netted, oval shaped. ½ lb. 60c.; oz. 20c.; pkt. 5c.

ROCKYFORD IMPROVED—A Colorado variety. Is round in shape, with light green flesh and of medium size. Is a splendid keeper. ½ lb. 60c.; oz. 20c.; pkt. 5c.

SILLMAN'S NETTED—Early. ½ lb. 60c.; oz. 20c.; pkt. 5c.

HACKENSACK—Ripens early and is very productive; flesh green and of excellent flavor. ½ lb. 60c.; oz. 20c.; pkt. 5c.

BANQUET—A deliciously flavored salmon-colored variety. Grows to a good size. ½ lb. 60c.; oz. 20c.; pkt. 5c.

(Continued over.)
MUSK MELON—Contd.

BAY VIEW—Green flesh and oblong shape. ½ lb. 60c.; oz. 20c.; pkt. 5c.

LARGE YELLOW MUSK—Large and deeply ribbed; oval shaped. ½ lb. 60c.; oz. 20c.; pkt. 5c.

PERFECTION DELMONICO—Almost round; skin, when ripe, is bright yellow and finely netted. Flesh deep rich orange and of high quality. ½ lb. 60c.; oz. 20c.; pkt. 5c.

JERSEY BELLE—Large and early, resembling the Montreal Market in appearance. Green flesh of good flavor. oz. 20c.; pkt. 5c.

WATER MELON—FR. MELON D’EAU

PHINNEY’S EARLY—One of the earliest sorts. Flesh scarlet, very thin rind. ½ lb. 40c.; oz. 15c.; pkt. 5c.

PEERLESS or ICE CREAM—An oblong variety with deep green skin, flesh very solid and sweet; deep pink. ½ lb. 40c.; oz. 15c.; pkt. 5c.

MOUNTAIN SWEET—Early; large; dark skin; very solid, red sweet flesh. A splendid variety for northern gardens. ½ lb. 40c.; oz. 15c.; pkt. 5c.

CUBAN QUEEN—A very large sort of oblong form. Skin beautifully striped in light and dark green, thin rind; bright red firm flesh of luscious quality. ½ lb. 40c.; oz. 15c.; pkt. 5c.

BLUE GEM or ICEBERG—Melons are uniformly large, with dark skin. Flesh entirely free from stringiness and of a beautiful shade of pink, and sweet sugary flavor. ½ lb. 40c.; oz. 15c.; pkt. 5c.

COLORADO PRESERVING CITRON—Excellent for making preserves. ½ lb. 40c.; oz. 15c.; pkt. 5c.

MUSTARD—FR. MOUTARDE

During Spring and Summer, sowings should be made every few days, to provide a continuous supply.

WHITE—lb. 30c.; ½ lb. 15c.; oz. 10c.; pkt. 5c.

CHINESE—Leaves are dark green and large. lb. $1.00; ½ lb. 30c.; oz. 10c.; pkt. 5c.

PICKLING MUSTARD—For flavoring. lb. 20c.

MUSHROOM—FR. CHAMPIGNON

When ordered by mail, add 8 cts. per brick and 15c. per box to prices of Mushroom Spawn, for postage in the Dominion.

FINEST ENGLISH MILLTRACK MUSHROOM SPAWN—Per brick, 15c.; per doz. $1.25. (Special prices on large quantities.)

FRENCH MUSHROOM SPAWN—Loose; in boxes containing 2 lbs. each, with full cultural directions. Per box $1.00.

MUSHROOM CULTURE—Can be successfully grown at any season in either shed or cellar where a temperature of 40 to 55 degrees can be maintained, and providing the place be dry. Procure the quantity necessary of fresh horse droppings, as free from straw as possible, and moist with urine if it can be got that way. Turn this over, say 3 or 4 times in a week, covering the heap to prevent washing with rain or blowing out with the sun. To this add a fourth of its bulk of nice light loamy soil, mixing all carefully together. The bed should be made 4 feet wide and whatever length is required. Put twelve inches or so in the bottom of the bed of rough manure trampled down, and on top of this 4 to 6 inches of the prepared manure, when the temperature has declined to 130, the latter being put on in layers and pressed down firmly and smoothly.

Then put planks on edge to form a box round the bed and nail firmly together and cover all over with clean hay or straw.

When the bed thus made registers 90 to 95 degrees a few inches below the surface, then break a brick of spawn into 12 pieces, and place these pieces 1½ inches deep and 8 inches apart. When temperature of bed reaches 85 degrees remove the straw and cover the whole surface over with two inches of fine sifted loam, heating it down firmly and smoothly, then put on the covering again. Watering is of the greatest importance. If dung was moist when bed had been watered, it will likely not be necessary till after spawing, but look over the bed weekly and give a thorough watering, with water at a temperature of 95 degrees, when necessary.

MUSHROOM going over the bed twice, using a fine spray. Be sure that at the end of six weeks, if the bed shows any signs of drying out, to water thoroughly then, because by watering when the bed is heating, the small mushrooms are liable to damp off. When first crop is gathered, procure some dry cow manure and mix thoroughly with a little fine soil, covering the bed very well with half an inch of the compost, beating it smooth, and give a good watering then. Mushrooms should always be picked, not cut.

OKRA

LONG GREEN—oz. 20c.; pkt. 5c.

The seed pods of this vegetable are used in soups and stews.

Onion—FR. OGNON

One ounce will sow 100 feet of drill; or five pounds to the acre is required.

We take the greatest care in the selection of our stocks of Onion seed. There are immense quantities of carelessly grown and old seed on the market, and though offered extremely low, would be very dear if got for nothing. Our stocks of Red Wethersfield and Yellow Danvers have been specially grown for us, and are good and thoroughly reliable.

CULTURE—Seed should be sown as soon as the ground is fit in early spring, in shallow drills, 9 inches apart. Previous to making the drills, the ground should be firmly trampled down, and after sowing mixed with smooth and the drills beaten down with the back of the spade. Thin out carefully as the plants grow to 6 inches apart, leaving only the strongest plants, when large bulbs are wanted, but a heavy crop of fair sized firm bulbs can be had by leaving the plants 3 inches apart. Should be thinned, but very slightly, and in every ease onions should be pulped and left on the ground to dry whenever the stalks die down, otherwise they are likely to start a second growth if the weather be moist. A rich sandy loam is most suitable, but a good crop on clay ground can be obtained by planting onion sets, or by sowing seed in March in the house, and planting out in drills in May, and on suitable soil the latter method will produce bulbs as large as imported Spanish onions.

MAMMOTH RED ITALIAN—A mild variety of flat shape. Grows to an immense size. Flesh almost white, red skin. ½ lb. 60c.; oz. 25c.; pkt. 5c.

MAMMOTH WHITE ITALIAN—A pale white mild sort, flat in shape. Bulbs grow to a mammoth size. ½ lb. 60c.; oz. 25c.; pkt. 5c.

(Continued over)
ONION—Contd.

EWING'S EXTRA SELECTED LARGE RED WETHERSFIELD—Large, flat, deep red, handsome bulks; is the standard variety in this market. A heavy cropper and a splendid keeper. lb. $3.00; ½ lb. 80c.; oz. 20c.; pkt. 5c.

EXTRA EARLY RED WETHERSFIELD—Similar to Red Wethersfield, but smaller and earlier. lb. $3.00; ½ lb. 80c.; oz. 25c.; pkt. 5c.

GIANT PRIZE TAKER—This immense Spanish variety is probably the largest Onion grown. The outside skin is of a rich straw color, while the flesh is white and mild. lb. $2.75; ½ lb. 75c.; oz. 25c.; pkt. 5c.

MAMMOTH SILVER KING—Single onions have weighed three pounds. It matures early, is a white skinned variety, in shape somewhat flat, and of an exceedingly mild flavor. lb. $2.25; ½ lb. 60c.; oz. 25c.; pkt. 5c.

GIANT ROCCA—Oval shaped, yellow; large and of mild flavor. lb. $1.00; ½ lb. 50c.; oz. 20c.; pkt. 5c.

Seeds of the preceding are better started early in boxes in the house or in a hot-bed, and planted out in May. The Onions will then mature thoroughly and attain great size.

SOUTHPORT WHITE GLOBE—An enormous yielder of pure white color and mild flavor. Globular shape and keeps well. lb. $4.75; ½ lb. 1.25; oz. 40c.; pkt. 5c.

SOUTHPORT RED GLOBE—A splendid keeper of superior quality. Beautiful globe shape. lb. $3.40; ½ lb. 95c.; oz. 35c.; pkt. 5c.

SOUTHPORT YELLOW GLOBE—Large, handsome, globular shaped variety, very productive and of mild flavor. Good keeper. lb. $3.25; ½ lb. 90c.; oz. 30c.; pkt. 5c.

EWING'S EXTRA SELECTED YELLOW GLOBE DANVERS—Early and of mild flavor and a good cropper. lb. $2.75; ½ lb. 75c.; oz. 25c.; pkt. 5c.

FLAT DANVERS—Suitable for either market or home use. lb. $2.25; ½ lb. 60c.; oz. 20c.; pkt. 5c.

We call the attention of our Market Garden Customers to our complete stock of Planet Junior and Iron Age, Horse and Hand Cultivators, Horse Harrows, Celery Hillers, Seed Drills, etc. No market gardener can afford to be without these tools.
WILLIAM Ewing & Co.'s Seed Catalogue

POTATOES

It is of the utmost importance that new blood be frequently introduced in order to raise large and paying crops of Potatoes. When a really good new potato hybridizer, and who has certainly done work that is of great appearance of these two varieties (that were proved to be not only highest quality), that in 1902 the price for one Potato of the "Eldorado" was $1.00, and in 1904 a single tuber of Eldorado brought $50.00. This is surely the Renown of the Potato.

These varieties are grown by the largest pedigreed seed potato growers in Canada from whole sets only, "not parings," and from selected plants for productiveness and vigor.

WOROTON BEAUTY

Claimed to be the most productive of all the very early varieties. Handsome, round, and uniform sized tubers—white with pink eyes. Has given the very greatest satisfaction in every way to the most critical growers. Its table quality is superb, a grand keeper. 1 lb. 20c.; 5 lbs. 85c.; post-paid (peck 75c.; bushel $2.30 here).

ELDORADO

For many years there has been an effort to produce a bight and disease proof potato, the result is the Eldorado. The stock we offer was grown from seed imported direct from the originator and introduced for the first time in Canada by the growers of our supply. This potato has cropped 1,200 bushels per acre, and 800 bushels is a common occurrence.

Eldorado is white skinned, slightly russetted, oval shaped, of very vigorous growth, highest table quality, bight and disease proof. All these qualities make it so desirable that no grower should fail to plant some. 1 lb. 20c.; 5 lbs. 30c.; post-paid (peck $1.60 here).

FINDLAY'S STAR

Mr. Findlay, the introducer, says:—"A very heavy cropper and the most disease resistant and weather defying potato I have known." The Star is a prodictious cropper, and though hardly so desirable as Eldorado, yet it is a variety the grower cannot afford being without, and in some circumstances of soil and season has proved the equal of the Eldorado. Findlay's Star has produced many times under ordinary field culture over 600 bushels per measured acre, and in some cases produced as high as 1,000 bushels per acre. 1 lb. 15c.; 5 lbs. 70c.; post-paid (peck $1.00 here).

EARLY 6 WEEKS

Very early, fine quality, handsome, oval shaped and nearly white in colour. As an early market sort none excels it, and before full grown is of better eating quality than any other sort. Grown specially for seed. 1 lb. 15c.; 5 lbs. 65c.; post-paid (peck 50c.; bushel $1.60 here).

TRISH COBBLE

Medium early and a very heavy cropper. White tubers, nearly round and of the best quality. One of the best for general crop. Grown specially for seed. 1 lb. 15c.; 5 lbs. 65c.; post-paid (peck 50c.; bushel $1.50 here).

GOLD COIN

A grand new main crop variety. Hardy and of most vigorous growth, wonderfully productive and rich in table quality. 1 lb. 15c.; 5 lbs. 65c.; post-paid (peck 50c.; bushel $1.50 here).

JUTE BAGS, 10c.

We can also supply the following Standard varieties locally grown—Prices on application.

Beauty of Hebron, Carman No. 1, Lee's Favorite, American Wonder, Early Harvest, etc.

PARSLEY — FR. PERSIL

Moss Curled Parsley

Sow early in spring, ½ inch deep, making rows 1 foot apart. One ounce will sow 140 feet of drill.

Ewing's Dwarf Perfection—Exquisitely curled and of bright green color. Makes handsome pot plants. oz. 25c.; pkt. 10c.

New Perpetual Curled—Perennial. Is hardy enough to stand the severest winter. oz. 15c.; pkt. 5c.

Triple Curled—A beautifully curled dwarf variety. lb. 75c.; ½ lb. 25c.; oz. 10c.; pkt. 5c.

Covent Garden—Finely curled, long stemmed sort, for garnishing. lb. $1.; 1 lb. 35c.; oz. 15c.; pkt. 5c.

Champion Moss Curled—The best curled of all. lb. $1.; ½ lb. 35c.; oz. 15c.; pkt. 5c.

Plain Leaved—lb. 75c.; ½ lb. 25c.; oz. 10c.; pkt. 5c.

Pepper—FR. PIMENT

Japanese Cluster—An immensely productive variety producing clusters of small coral-red peppers. pkt. 5c.

Celestial—The fruits stand upright, and when full grown are delicate yellow, changing to intense scarlet. oz. 40c.; pkt. 5c.

Cardinal—Peppers are 6 to 8 inches in length, and bright scarlet. oz. 40c.; pkt. 5c.

Black Nubian—The peppers are never green, but always coal black, and are good for pickling at any stage of growth. oz. 40c.; pkt. 5c.

(Continued over)
PEPPER—Contd.

PROCOPP’S GIANT—Large fruit, often from 8 to 9 inches long. Bright scarlet, very pungent. o z. 40c.; pkt. 5c.

LARGE RED—Bright red. oz. 30c.; pkt. 5c.

CAYENNE—Red pods, very pungent. oz. 40c.; pkt. 5c.

LARGE BELL or BULL NOSE—Bright red. oz. 40c.; pkt. 5c.

GOLDEN DAWN—Large, bright yellow fruit. oz. 40c.; pkt. 5c.

CHINESE GIANT—The largest red sweet pepper ever offered. Immensely productive. Thick flesh, very mild, and remarkably sweet. oz. 50c.; pkt. 10c.

PUMPKIN—FR. CITROUILLE

If by mail, postage must be added at the rate of 5c. per lb.

JAPANESE PIE—The flesh is very thick and solid. Finely grained, dry and sweet, having much the same taste and shape as the sweet potato. Ripens early, keeps well and produces largely. lb. $1.50; ½ lb. 45c.; oz. 15c.; pkt. 5c.

CALHOUN—Skin is a creamy brown, while the flesh is a deep salmon yellow, wonderfully thick and finely grained, and the seed cavity is small. ½ lb. 50c.; oz. 25c.; pkt. 5c.

KING OF THE MAMMOTS—Grows to a prodigious size, often attaining the weight of 250 lbs. The flesh is solid and desirable for cooking. ½ lb. 75c.; oz. 25c.; pkt. 10c.

PUMPKIN—Contd.

CHEESE or KENTUCKY—Good cooking variety. lb. $1.00;
½ lb. 30c.; oz. 10c.; pkt. 5c.

YELLOW or CONNECTICUT FIELD—lb. 40c.; ½ lb. 20c.; oz. 10c.; pkt. 5c.

PEAS

One pound or pint will sow about 50 feet of drill.
Two bushels will sow an acre in drills.

CULTURE—Light dry ground suits the Pea best, especially for early crop, but fair results can be obtained with proper cultivation on almost any kind of soil. The dwarf sorts can be grown in single rows like bush Beans, but the taller sorts require staking, and should be sown in double rows (8 inches between), from 4 to 6 feet apart, and Spinage can be grown between. Cover not less than 4 inches so as the better to withstand drought, and plants should be thinned to say 1 inch. Sow three sorts, early, medium, and late, at the same time so as to secure a succession in crop, and this can also be obtained by sowing any of the early varieties every ten days, and for small gardens the dwarf sorts are preferable.

If ordered by mail add 5c. per lb. postage in Dominion and 16c. per lb. in United States and Newfoundland.

EXTRA EARLY VARIETIES

GRADUS or PROSPERITY—Is as early as any of the round varieties while in flavor there is no comparison. The pods and peas are large, with the same delicious taste as the best wrinkled varieties; 3 feet. Per lb. 30c.

THOMAS LAXTON—A grand new wrinkled pea of delicious flavor and taking it all round is the best early pea. Pods are larger than Gradus and the quality is delicious. 1 foot. Per lb. 30c.

EXTRA EARLY STAR—Round, smooth, white variety. One of the earliest and best first crop peas. Beans well, ripens evenly, and seldom requires more than two pickings to clear off the crop; 2½ feet. Per 15 lbs. $1.50; lb. 18c.

ALASKA—Is the earliest smooth blue pea in cultivation. A valuable sort for early marketing; height, 2 feet. Per 15 lbs. $1.65; lb. 20c.

AMERICAN WONDER—An early wrinkled sort; there is no better dwarf variety; 1 foot. Per 15 lbs. $2.00; lb. 25c.

McLEAN’S LITTLE GEM—A green wrinkled sort, of delicious flavor; 1 foot. Per 15 lbs. $1.80; lb. 20c.

NOTTS EXCELSIOR—A superior early wrinkled variety; very prolific; 1 foot. Per 15 lbs. $2.25; lb. 25c.

(Continued over)
PEAS—Contd.

SUTTON'S A 1—Early wrinkled pea, growing from 3 to 4 feet, the haulm being literally covered from top to bottom with handsome pods of peas of the true marrowfat flavor. Per lb. 30c.

HORSFORD'S MARKET GARDEN—Is a cross between Alpha and American Wonder. Requires no stakes, is extremely prolific and bears its pods in pairs; 2 feet. Per 15 lbs. $1.65; lb. 20c.

MAIN CROP VARIETIES

IMPROVED STRATAGEM—Blue wrinkled marrow. Pods are large and filled with very large dark green peas of the finest quality; heavy copper. Fine flavor, large peas and long pods; 2 feet. Per 15 lbs. $2.25; lb. 25c.

SUTTON'S PERFECTION MARROWFAT—Of strong branching habit, so it requires ample space between rows. Peas are deep green, and unsurpassed for size and flavor. Second early; 3 feet. Per lb. 30c.

SUTTON'S MATCHLESS MARROWFAT—An exhibition pea of superb quality; slightly curved pods, with 10 to 12 peas in each. Second early; 3 to 4 feet. Per lb. 30c.

COOPER'S PRINCE EDWARD—Withstands both drought and mildew well. Pods are from 5 to 7 inches long, mostly in pairs, and closely packed with 11 to 13 dark green peas of most mellow flavor; 5 feet. Per lb. 30c.

FRIEDE OF THE MARKET—We strongly recommend it. Both for flavor and crop. Per 15 lbs. $2.50. lb. 25c.

TELEPHONE—A wrinkled marrow pea of the very best quality and very productive; stalks average 15 to 20 pods each; 4 feet. Per 15 lbs. $2.50; lb. 25c.

DWARF TELEPHONE or CARTER'S DAISY—Bears long handsome pods like Telephone, but is of dwarf growth. Frequently pods measure 5 inches, and are remarkably well filled. Per 15 lbs. $3.50; lb. 30c.

YORKSHIRE HERO—Large and fine quality; 3 feet. Per 15 lbs. $1.65; lb. 20c.

CHAMPION OF ENGLAND—Green wrinkled, of delicious quality; profuse bearer; 4 feet. Per 15 lbs. $1.50; lb. 18c.

BLESS' EVERBEARING—A continuous bearer. Pods 3 to 4 inches long, containing 6 to 8 peas of a delicious flavor; 3 feet; lb. 20c.

DUKE OF ALBANY—Splendid wrinkled variety. Peas large and sweet. We strongly recommend it. Per 15 lbs. $2.50; lb. 25c.

HEROINE—Green wrinkled. Long, slightly curved pods, containing from 9 to 10 peas, of finest quality; 2 feet. Per 15 lbs. $2.25; lb. 25c.

SUGAR—Tall, 5 feet, lb. 50c. Dwarf, 2 feet, lb. 50c. The young pods are very tender, and when cooked whole make a delicious dish.

LATE VARIETIES

BLUE IMPERIAL—Hardy and productive; 4 feet. lb. 10c.

BLACK EYE MARROWFAT, WHITE MARROWFAT—Two very prolific sorts; pods ripen all at the same time, so successive sowings should be made; 4 feet. Bush, $1.50; peck, 50c.; lb. 10c.

RHUBARB—FR. RHUBARB

Sow seed in May, and in the succeeding spring transplant into deeply trenched and well-manured soil, leaving three feet between plants. In fall the beds should receive a heavy dressing of manure.

ST. MARTIN — — — (Roots, 20c. each; 2 per doz.

VICTORIA — — — (Seed, oz. 20c.; pkt. 5c.

SEA KALE

Sow in May in richly manured soil, and when plants are sufficiently strong transplant into rows three feet apart, with two feet between plants. In fall cover with two feet of leaves, allowing these to remain until the succeeding June, when the plants will be thoroughly blanched. Per oz. 25c.; pkt. 5c.

SCORZONERA

Cultivate same manner as Salsify. oz. 20c.; pkt. 5c.

SALSIFY OR OYSTER PLANT—FR. SALSIFIS

Culture same as Paranip.

MAMMOTH SANDWICH ISLAND—Produces roots much larger than the White French and equally well flavored. lb. $2.00; ½ lb. 60c.; oz. 20c.; pkt. 5c.

WHITE FRENCH—lb. $1.75; ½ lb. 50c.; oz. 15c.; pkt. 5c.

Radish—FR. RADIS

CULTURE—Make first sowing the moment frost is out of the ground, in rich soil, in rows 6 or 9 inches apart, and to have a succession sow a little seed every 8 days, up to September. Cover the seeds about 1 inch, and commence using when small, else the bulbs will grow too large and stringy, so that watering must be regularly attended to during dry weather. One ounce will sow 100 feet of drill.

CRIMSON GIANT FORCING TURNIP—An entirely new type of Radish, the roots growing twice the size of any other forcing variety, without getting pithy or hollow—develops roots often 6 to 7 inches in circumference, and weighing an ounce. Flesh is pure white, firm and crisp. It varies a little in form, some roots being round, others inclining to oval, but all of a deep crimson color. ½ lb. 40c.; oz. 15c.; pkt. 5c.
RADISH—Contd.

Varieties of Radish

“SALVATOR SUMMER”—Early white forcing. A new round variety introduced by a famous German grower. Produces fine spherical bulbs 2 to 2½ inches in diameter, and weighing 4 to 6 ounces when full grown. The radishes are solid and juicy, and under glass are ready for use within six weeks of sowing. Is exceptionally valuable in the open ground. Pkt. 10c.

LONG WHITE ICICLE—Radishes are transparent white; tops are small, allowing close planting. Very crisp and brittle. Remains in good condition while growing, for a long time. ¼ lb. 30c.; oz. 10c.; pkt. 5c.

NON PLUS ULTRA—Scarlet, turnip shaped. Is fit for use from 3 to 4 weeks from sowing. We recommend it either for forcing or open air culture. lb. $1; ¼ lb. 40c.; oz. 15c.; pkt. 5c.

EXTRA EARLY WHITE TURNIP—An early forcing variety, maturing about same time as preceding. lb. 75c.; ¼ lb. 25c.; oz. 10c.; pkt. 5c.

EXTRA EARLY WHITE OLIVE SHAPED—A fine forcing sort, and the earliest olive shaped variety. lb. 75c.; ¼ lb. 25c.; oz. 10c.; pkt. 5c.

EARLIEST DEEP SCARLET WHITE TIPPED FORCING—It is a superior round forcing variety; tender, and has a fine appearance on the table. lb. $1; ¼ lb. 40c.; oz. 15c.; pkt. 5c.

EARLY SCARLET WHITE TIPPED—A fine round variety and very popular. lb. 75c.; ¼ lb. 30c.; oz. 10c.; pkt. 5c.

EARLY SCARLET TURNIP—Tender and juicy. lb. 75c.; ¼ lb. 25c.; oz. 10c.; pkt. 5c.

NEW GOLDEN TURNIP—Looks remarkably pretty on the table among the scarlet and white sorts. lb. $1; ¼ lb. 30c.; oz. 15c.; pkt. 5c.

FRENCH BREAKFAST—Very early and tender; oval shaped. lb. 80c.; ¼ lb. 30c.; oz. 10c.; pkt. 5c.

EARLY FRAME—An early half long scarlet variety. lb. 75c.; ¼ lb. 25c.; oz. 10c.; pkt. 5c.

LONG SCARLET—Long smooth root. lb. 75c.; ¼ lb. 25c.; oz. 10c.; pkt. 5c.

SCARLET, OLIVE-SHAPED—Deep scarlet, grows quickly. lb. 75c.; ¼ lb. 26c.; oz. 10c.; pkt. 5c.

CHARTIER—Pale scarlet. Very early, long smooth root, and of mild flavor. lb. 75c.; ¼ lb. 26c.; oz. 10c.; pkt. 5c.

BLACK SPANISH ROUND—(Winter variety) Grows to fair size and considered excellent for winter use. Round in shape. lb. 80c.; ¼ lb. 30c.; oz. 10c.; pkt. 5c.

BLACK SPANISH LONG—(Winter variety) Is long in shape and of good flavor. Used by those who prefer a long sort. lb. 80c.; ¼ lb. 30c.; oz. 10c.; pkt. 5c.

MAMMOTH WHITE RUSSIAN or CALIFORNIAN—(Winter variety). Grows from 10 to 12 inches long, very solid and of good quality.

WHITE STRASBURG—(Summer variety). Pure white oblong roots of mild flavor. lb. 75c.; ¼ lb. 25c.; oz. 10c.; pkt. 5c.

ROSE or SCARLET CHINA WINTER—(Winter variety). One of the best fall and winter varieties. A splendid keeper. lb. 80c.; ¼ lb. 30c.; oz. 10c.; pkt. 5c.

SPINAGE—F. R. EPINARD

One ounce will sow one hundred feet of drills, 10 or 12 lbs. for an acre in drills.

VICTORIA—A grand sort. Remains in prime condition from 2 to 3 weeks after other sorts have run to seed. Dark green, heavily crimped, thick fleshy leaves, of remarkably fine texture. lb. 30c.; oz. 10c.; pkt. 5c.

VIROFLAY—One of the best varieties, producing thick crumpled leaves; stands a long time without running to seed. lb. 30c.; oz. 10c.; pkt. 5c.

LETTUCE LEAVED—Dark green succulent leaves. lb. 30c.; oz. 10c.; pkt. 5c.

LONG STANDING—Valuable for spring sowing; does not run to seed quickly. lb. 30c.; oz. 10c.; pkt. 5c.

PRICKLY—Hardy; for autumn sowing. lb. 30c.; oz. 10c.; pkt. 5c.

BLOOMSDALE—A fine early variety producing thick curled leaves. lb. 30c.; oz. 10c.; pkt. 5c.
SQUASH—FR. COURGE
CULTURE—Squash should be planted in a warm, light, rich soil, after the weather has become settled and warm. Plant in hills in same manner as Melons or Cucumbers.

LIVINGSTON'S NEW PIE—Flesh sweet, and finely grained, unexcelled for pies or stewing. oz. 15c.; pkt. 5c.

FORD HOOK—Yellow rind and straw colored flesh and of delicious flavor. Ripens early and keeps well. lb. $1.50; $1 lb. 50c.; oz. 20c.; pkt. 5c.

PAXON—Flesh is orange, with a very small seed cavity. The shell almost disappears when cooked; flavor is excellent. Is a splendid keeper. oz. 15c.; pkt. 5c.

"THE DELICIOUS"—For table use this squash surpasses every other variety in its remarkable combination of fineness and compactness of grain, dryness and richness of flavor. Size about the same as Hubbard but far superior in every way. lb. $1.20; 1 lb. 40c.; oz. 15c.; pkt. 5c.

EARLY PROLIFIC MARROW—There is no better keeping variety, and it is early and productive. lb. $1.25c.; 1 lb. 40c.; oz. 15c.; pkt. 5c.

MAMMOTH—Very large. Selected seed. 1 lb. 75c.; oz. 25c.; pkt. 10c.

ESSEX HYBRID—A grand winter variety of delicious flavor and a splendid keeper. lb. $1.20; 1 lb. 40c.; oz. 15c.; pkt. 5c.

IMPROVED HUBBARD—A select strain of this popular winter variety, the squashes growing to a great size. lb. $1.20; 1 lb. 40c.; oz. 15c.; pkt. 5c.

WHITE BUSH SCALLOP—Both are productive and early. YELLOW " " 1 lb. 30c.; oz. 15c.; pkt. 5c.

VEGETABLE MARROW—A favorite early variety; fruit long, white flesh and rich flavor. Plant in hills, 8 feet apart. lb. $1.75; 1 lb. 60c.; oz. 20c.; pkt. 5c.

BOSTON MARROW—A late variety. A good keeper and of fine flavor. lb. $1.00; 1 lb. 30c.; oz. 15c.; pkt. 5c.

SUMMER CROOKNECK, Both are bush varieties, the WINTER " Summer being the best early squash. 1 lb. 30c.; oz. 15c.; pkt. 5c.

TOMATO
FR. TOMATE
One ounce will produce about 1,300 plants.

CULTURE—For early plants sow in hotbeds early in March, in drills 5 inches apart and 1 inch deep. When plants are about 2 inches high transplant into another hot-bed 4 inches apart each way. Plant out in the open ground early in May, or as soon as danger from frost is over, 4 feet apart each way in hills, which should have a good covering of well rotted manure mixed with the soil; water freely at time of transplanting.

Spark's Earliana Tomato

LIVINGSTON'S NEW GLOBE—Beautiful globe shape, which permits of a greater number of slices being taken than from flat fruited sorts. Among the very first to ripen, although of large size; very smooth, firm fleshed, few seeds, ripens evenly; color a beautiful glossy rose, tinged purple. Flavor very delicate and agreeable; splendid slicing variety. A good general cropper, and one of the very best for greenhouse growing or first early crop on stakes or trellis. oz. 60c.; pkt. 10c.

LONG WHITE BUSH MARROW—Is an improvement on the Trailing Vegetable Marrow. Fruit is large and handsome, and the plants are of bush form, so can be planted from 3 to 4 feet apart. lb. $1.75; 1 lb. 60c.; oz. 20c.; pkt. 5c.

SPARK'S EARLIANA—A wonderfully early and exceedingly prolific tomato, producing immense clusters of good sized fruits. Solid flesh of bright red color and excellent flavor. 1 lb. $1.00; oz. 30c.; pkt. 5c.
JUNE PINK—Has the same character of growth and fruiting as Spark's Earliana, and is fully as early and pro-
lific. The fruit is of medium size, uniform, smooth and attractively shaped, without cracks or any green core. In
color, it is a bright pleasing pink, and will continue to bear and ripen fruit until the frost.

CHALK'S EARLY JEWEL—A large, smooth, fine flavored extra early tomato. Ready about ten days after the
famous Spark's Earliana. A splendid cropper; color brightest scarlet. ½ lb. $1.00; oz. 35c.; pkt. 5c.

MAGNUS—One of the finest for growing on stakes. A hand-
some main crop variety, unsurpassed in quality and in the
production of fine large fruits. ½ lb. $1.00; oz. 30c.; pkt. 5c.

Ewing's Freedom—A good sort in every way. Some
varieties may produce a few fruits earlier, but none will
produce as much fruit during the earlier part of the season,
and it will keep on producing till frost stops it. Grows in
clusters, is round and of a bright red color, oz. 40c.; pkt. 5c.

Atlantic Prize—A fine variety producing medium-sized,
smooth, solid and finely colored fruit. Is one of the earliest
sorts and particularly suitable for early marketing. ½ lb.
80c.; oz. 25c.; pkt. 5c.

New Stone—Probably the greatest canning tomato in the
world. In color bright red, very smooth; its solidity and
carrying qualities are remarkable. ½ lb. 70c.; oz. 20c.;
pkt. 5c.

Early Acme—Medium-sized fruit, round and very smooth.
Color a glossy red with purplish tinge. A popular sort,
and fine for early market use. ½ lb. 70c.; oz. 20c.; pkt. 5c.

Crimson Cushion—Large, and like Ponderosa produces
but little fruit, but is far handsomer than that sort. Is a
second early and an enormous cropper. Bright red, with
out the slightest tinge of purple, and for flavor and solidity
is unexcelled. ½ lb. $1.00; oz. 30c.; pkt. 5c.

Dwarf Champion—Comparatively free from rot; erect
habit and fine form. Dull red. Is a great favorite,
especially in small gardens. ½ lb. $1.00; oz. 30c.; pkt. 5c.

Livingston's Honor Bright—Smooth, bright red fruit,
solid that, if picked in the earlier stages of ripening,
it can be shipped in barrels, like apples. Will keep for weeks
in a cool place. Extra fine flavor. ½ lb. 80c.; oz. 25c.;
pkt. 5c.

Livingston's Royal Red—Canners pronounce this a
perfect tomato in every way. Deep red without any purple
tinge, and is large and solid. ½ lb. 80c.; oz. 25c.; pkt. 5c.

Livingston's Beauty—This splendid tomato is without
doubt the most widely known and popular of all the purple
fruited varieties. A hardy strong grower, productive,
large, smooth and of perfect shape and excellent quality.
Color very glossy crimson with tinge of purple. ½ lb. 70c.;
oz. 20c.; pkt. 5c.

Livingston's Favorite—One of the best and largest
perfect shaped red tomatoes in cultivation. Ripens evenly
and early; very prolific; flesh solid and of excellent flavor.
Fine sort for the home garden. ½ lb. 70c.; oz. 20c.; pkt. 5c.

Livingston's Perfection—Produces large fruits until
close of season. Smooth and of handsome blood-red
color. A splendid sort for the home garden. ½ lb. 70c.;
oz. 20c.; pkt. 5c.

MATCHLESS—Color very rich cardinal-red. Tomatoes
large, solid and meaty, containing but few seeds. The best
large red tomato, and excellent for either market or home
use. ½ lb. $1.00; oz. 30c.; pkt. 5c.

Ponderosa or Monstrous—The largest-fruited Tomato
in cultivation, and of fine quality. ½ lb. $1.50; oz. 40c.;
pkt. 5c.

Trophy—Grows to an immense size; is solid and of fine
flavor. ½ lb. 70c.; oz. 20c.; pkt. 5c.

Golden Queen—Large yellow. For preserving. oz. 20c.;
pkt. 5c.

Pear Shaped—Grows in clusters, producing small fruit
of delicious flavor. oz. 50c.; pkt. 5c.

Yellow Plum—For preserves. oz. 50c.; pkt. 5c.

Strawberry or Ground Cherry—Strawberry flavored;
is used for preserving. oz. 50c.; pkt. 5c.

Peach Tomato—Fruit is produced in clusters. Used for
preserving. oz. 50c.; pkt. 5c.
Ewing’s Famous Agricultural Seeds

While strongly advocating the growing of Corn and the Silo system, it is a fact that many sections of the Dominion are better adapted for growing roots than Corn, and even where Corn can be successfully grown we advise the sowing of roots as well. Both are best. The sowing of the BEST QUALITY of seeds is of the utmost importance, but the Farmer has to do his part also, and success with root crops need not be expected unless the land be thoroughly and deeply cultivated, and from twenty to thirty loads of stable manure applied the previous fall (or its equivalent in artificial manure) per acre.

CARROT—FR. CAROTTE Field Varieties

When ordered by mail add 5c, per lb. and 2c. on ½ lbs. (1)

Carrot seed, if sown when the soil is cold, germinates slowly, so that it is best to allow the warm spring weather to have set in before sowing. When sowing be careful to roll the drills, or in some way to firm the soil round the seed. Four pounds of seed will sow an acre.

EWING’S SELECT STRAIN CHAMPION INTERMEDIATE WHITE—No better field carrot can be found, either for crop feeding quality or ease in harvesting. It is smooth, handsome in shape, seldom exceeds 15 inches in length, with a broad heavy shoulder, gradually tapering to a point. lb. 50c.; ½ lb. 15c.

SHORT WHITE VOSGES—It differs from preceding variety in being rather shorter, but is broader at the top and retains its thickness more to the point. lb. 45c.; ½ lb. 15c.

GIANT GREEN TOP WHITE—An improved White Belgian, the roots being much heavier than the ordinary White Belgian, though hardly so long, and are of finer texture. lb. 50c.; ½ lb. 15c.

WHITE BELGIAN—A long white variety, the root growing well out of the ground. Succeeds well on light deep soils. lb. 35c.; ½ lb. 15c.

YELLO W BELGIAN—Solid, but not large. lb. 50c.; ½ lb. 15c.

GREEN TOP ORTHE—Medium in size, between Vosges and White Belgian. lb. 50c.; ½ lb. 15c.

(Continued over)
WILLIAM EWING & CO.'S SEED CATALOGUE

CARROT—Contd.

HALF LONG DANVERS IMPROVED—Heaviest cropping red variety. lb. 70c.; ½ lb. 25c.; oz. 10c.

LONG ORANGE—lb. 55c.; ½ lb. 20c.

NEW YELLOW INTERMEDIATE—An excellent field variety, yielding a heavy crop; roots are a rich yellow color, and very nutritious. lb. 75c.; ½ lb. 25c.

MANGEL WURZEL—FR. BETTERAVE A VACHE

5 lbs. will sow an acre

Nothing will maintain the general health of Dairy stock and improve the quality and increase the Milk more than a daily feed of Mangel along with proper proportions of Hay, Ensilage, Ground Grain, etc.

When ordered by mail add 5c. per lb. and 2c. per ½ lb. for postage.

EWING'S SELECT STRAIN LONG RED MAMMOTH—The most popular variety for general use. The heaviest cropping and largest of all Mangels. Our Select Strain is grown from selected roots of finest form. We can specially recommend this variety as the very best of its type. Roots are massive, regular in size, straight, of highest feeding quality and keep well.

Sold in 1 lb. packages. lb. 25c.; 4 lbs. 90c.

SELECTED GIANT YELLOW INTERMEDIATE—A peerless strain. The admirable tankard shape, combined with the small top, allows of the crop being left much closer in the rows than the Globe varieties. An enormous weight can therefore be grown per acre of clean, solid, nutritious roots, beautifully colored, and rich in feeding quality. A splendid keeper.

Sold in 1 lb. packages. lb. 25c.; 4 lbs. 90c.

SUGAR BEET—FR. BETTERAVE A SUCRE

Since the introduction of the Danish varieties the use of Sugar Beet for Dairy Cattle has been yearly on the increase. The Danish Beet is much larger than the old Sugar varieties, and not being so "rooty" can be as easily harvested as Mangel, and containing a larger amount of saccharine matter, are thus more nutritious. Cultivate the same as Mangel.

When ordered by mail, add 5c. per lb. and 2c. per ½ lb. for postage.

EWING'S GIANT QUEEN OF THE DANES—This "Royal" variety is without doubt the best of all the Red Danish Sugar Beets, both in size and nutritive value, and will grow nearly as heavy a crop as Mangel. In shape it is something like Giant Intermediate Mangel, with a very heavy shoulder, tapering gradually to a point, and is of a rosy color above ground. lb. 25c.; ½ lb. 10c.; 4 lbs. 90c.

GREEN TOP WHITE SUGAR BEET—A large variety extensively grown for feeding stock. lb. 20c.; ½ lb. 10c.; 4 lbs. 70c.

RED TOP SUGAR BEET—Somewhat similar to preceding, but of richer quality. lb. 20c.; ½ lb. 10c.; 4 lbs. 70c.

RAPE—FR. NAVETTE

BROAD LEAVED ESSEX—Rape is of easy culture, and can either be sown at the rate of 2 lbs. per acre, in drills, and cultivated in the same way as Turnips, or may be sown broadcast (but only when the land is clean), at the rate of 5 lbs. of seed to the acre. In order to get a full paying result in either case, the land should be well manured. It can be sown any time in June or early in July, so that its advantages as a "catch" crop are apparent. The best way is to feed it off the fields, with sheep or hogs, and there is nothing that will fatten lambs in the fall so well and so cheaply as Rape will. lb. 10c.; in lots of 10 lbs. 90c.

By mail, add 5 cents per lb. for Canadian postage.
Giant Intermediate Sugar Beet

(A new and quite distinct variety, being a cross between the Mangel Wurzel and the Sugar Beet.)

Taking into account its extra heavy crop production, in comparison with Danish Sugar Beet, and to which it is very similar, we think farmers will find it to be the most profitable of the two.

Giant Sugar Beet is intermediate in form, not so long as the Long Red Mangel but of much greater diameter of shoulder, which is of rosy color, while below ground the root is nearly white. Its pre-eminent qualities are Heavy production; Solidity, thus rendering it a grand keeper; Great feeding value on account of its extra percentage of saccharine matter, occasioned by its origin being the hybridizing of the Long Red Mangel with the richest sugar-producing varieties of Sugar Beets; Ease in harvesting, as it has but one tap root. To sum up its advantages, it is a much better cropper than any variety of Sugar Beet, more nutritious than any Mangel, and on account of its sweet sugary flavor is greedily eaten by all classes of stock, and produces the richest and best flavored Milk and Butter, while for Beef production it is particularly profitable.

EWING'S SELECT GIANT ROSE—½ lb. 10c.; lb. 25c.; 4 lbs. 90c. GIANT WHITE—½ lb. 10c.; lb. 25c.; 4 lbs. 90c.

Turnip—FR. NAVET

2 to 4 pounds will sow an acre.

YELLOW & WHITE FIELD VARIETIES

The following varieties do not keep so well as Swedes, but can be sown later, and are heavy yielders.

PURPLE TOP YELLOW ABERDEEN—Large globe-shaped variety, with yellow flesh of fine quality. ½ lb. 10c.; lb. 25c.; 4 lbs. 95c.

GREEN TOP YELLOW ABERDEEN—Different from preceding in color only. ½ lb. 10c.; lb. 25c.; 4 lbs. 95c.

IMPROVED PURPLE TOP MAMMOTH—The heaviest cropping White Turnip, flesh very solid and nutritious. A reliable cropper and valuable for early feeding. ½ lb. 10c.; lb. 25c.; 4 lbs. 95c.

SELECT WHITE GLOBE—A quick growing variety of great value for late sowing. ½ lb. 10c.; lb. 25c.; 4 lbs. 95c.

GREYSTONE—An immense cropper; good large sort for late sowing. ½ lb. 10c.; lb. 25c.; 4 lbs. 95c.

WHITE FLAT NORFOLK—A standard variety for stock feeding; grows to large size. ½ lb. 10c.; lb. 25c.; 4 lbs. 95c.

Ewing’s Select Swede Turnips

FR. CHOU DE SIAM

Sow 2 to 4 pounds per acre.

If ordered by mail, add 5c. per lb. and 2c. on ½ lb. for Canadian postage, or 10c. per lb. to Newfoundland and U.S.A.

EWING’S SELECT STRAIN MAMMOTH CLYDE PURPLE TOP—A grand variety. Produces an enormous weight of roots per acre, of wonderful smoothness and size; the flesh is remarkably solid, fine of texture and nutritious. This splendid Swede is one of the most profitable sorts grown. ½ lb. 10c.; lb. 25c.; 4 lbs. 95c.

EWING’S SELECT STRAIN ELEPHANT PURPLE TOP—A splendid tankard-shaped sort of distinct form, large size, and a heavy cropper. It ranks high in feeding qualities, flesh being finely grained, of rich yellow color, and finest quality. ½ lb. 10c.; lb. 25c.; 4 lbs. 95c.

EWING’S SELECT STRAIN KANGAROO BRONZE TOP—A splendid bronze top variety with a grand constitution, possessing the same cropping features as Elephant, and is similar in size and growth to the preceding. In the Maritime Provinces of Canada this variety is the popular favorite, on account of its great hardiness and excellent keeping qualities. ½ lb. 10c.; 1 lb. 30c.; 4 lbs. $1.00.

MAGNUM BONUM—A grand globe-shaped variety, producing roots of immense size, clean, ideal in form. Is of hardy constitution and splendid quality. ½ lb. 10c.; 1 lb. 30c.; 4 lbs. 95c.

BROWN’S UNIVERSAL—A purple top globe variety. Roots are large, and is a splendid cropper; resists blight in hot weather. ½ lb. 25c.; 4 lbs. 95c.

HALL’S WESTBURY—A round purple top variety. Heavy cropper and keeps well. ½ lb. 10c.; lb. 25c.; 4 lbs. 90c.

HASZARDS BRONZE TOP—Particularly valuable on account

Ewing’s Select Strain Mammoth Clyde Purple Top Swede of its heavy yield and splendid long-keeping qualities. A very popular sort. ½ lb. 10c.; lb. 25c.; 4 lbs. 90c.

DRUMMOND’S SELECTED PURPLE TOP—Our stock of this variety we have imported from the “original introducer.” We recommend it as being one of the best varieties, owing to its size, superior quality and fine texture of flesh. Per lb. 25c.; ½ lb. 10c.; 4 lbs. 90c.

CARTER’S IMPERIAL PURPLE TOP—Very productive. Per lb. 20c.; ½ lb. 10c.; 4 lbs. 70c.

(Continued over)
SWEDEN TURNIPS—Continued.

SUTTON'S CHAMPION PURPLE TOP—Recommended for general crop; handsome shape and good keeper. Per lb. 20c.; ½ lb. 10c.; 4 lbs. 75c.

BANGHOLM PURPLE TOP—A fine even cropper. Per lb. 20c.; ½ lb. 10c.; 4 lbs. 75c.

GREEN TOP SWEDE—Handsome shape and good for table use. A splendid keeper. Per lb. 25c.; ½ lb. 10c.; 4 lbs. 90c.

LAING'S IMPROVED PURPLE TOP—A distinct variety of medium size and small top. Best table Swede, and in very dry seasons produces as heavy a crop as larger sorts. Per lb. 30c.; ½ lb. 15c.; pkt. 5c.

SWEET GERMAN—Medium size, fine flavor and solid flesh, for the garden. Per lb. 50c.; ½ lb. 20c.; pkt. 5c.

Agricultural Grasses

KENTUCKY BLUE GRASS—(Poa pratensis).—A fine pasture grass, which thrives best on dry, gravelly soil. Yields a large quantity of herbage very early in the season; its extreme coldness and the close sod it forms makes it very valuable in permanent pastures or lawns. Imported. Per lb. 35c.; 10 lbs. at 30c.

CANADA BLUE GRASS—(Poa compressa).—Resembles the preceding, excepting that the stem hardly grows so strong. One of the best varieties for lawns; makes an excellent pasture; most suitable for high dry land. Per lb. 17c.; 10 lbs. at 12c.

RED TOP—(Agrostis vulgaris)—For permanent pasture; forms a close sod and succeeds best on moist soil. Should be kept eaten close, so as to prevent its running to seed, the seed stalks being unpalatable to stock. Choice. Per lb. 12c.; 10 lbs. at 9c. Faney, lb. 25c.; 10 lbs. at 23c.

CREeping BENT—(Agrostis Stolonifera)—When mixed with other varieties it makes an excellent pasture grass, and alone is much used on Golf Links. Per lb. 35c.; 10 lbs. at 30c.

RHODE ISLAND BENT—(Agrostis Canina).—Good for lawns. Of dwarf creeping habit, admirably adapted for Golf Links, forms a close, fine sod. Per lb. 35c.; 10 lbs. at 30c.

CRESTED DOGSTAIL—(Cynosurus cristatus).—Useful for pasture, and thrives well on almost any sort of soil. The flower stalks are not eaten by cattle, but all animals are fond of the root leaves. Per lb. 50c.; 10 lbs. at 48c.

SHEEP FESCUE—( Festuca ovina).—Best adapted for gravelly or sandy soils. Grows in tufts, and a small portion of it is of great advantage in permanent pasture, especially where sheep are kept. Very useful for dry uplands or rocky pasture. Per lb. 20c.; 10 lbs. at 19c.

HARD FESCUE—(Festuca duriuscula).—Is a fine pasture grass, and does well in most kinds of soil, but especially on such as are light and dry. Is of dwarf growth, with fine foliage, and forms a close sod. Per lb. 20c.; 10 lbs. at 19c.

ORNAMENTAL BENT—(Devetis glomerata).—Valuable for hay or pasture, on account of its large yield and ripening at same time as clover. It is best to sow it alone for hay, and a special advantage it has is that it is ready for cutting a fortnight or three weeks earlier than Timothy. It is not suitable for thin dry soils, but grows well on any other, and under the shade of trees. For hay it should be cut on the green side. No other grass, after being mown or eaten off, grows so quickly again. Per lb. 25c.; 10 lbs. at 23c.

ENGLISH PERENNIAL RYE GRASS—(Lolium perenne).—Is the staple grass used for hay in Britain, as Timothy is in this country. A portion may be used in Pasture Mixtures, on account of its early and strong growth. Per lb. 15c; 10 lbs. at 14c.

MEADOW FOXTAIL—(Alopecurus pratensis).—A strong growing permanent grass, the flower stalks resembling Timothy. Is remarkable for the great quantity of leafy herbage it produces, in proportion to the quantity of stalk. Succeeds well on almost any kind of soil. Per lb. 45c.; 10 lbs. at 42c.

MEADOW FESCUE—(Festuca pratensis).—Thought of strong growth the herbage is always tender and succulent, and it makes a fine quality of hay as well as pasture. Succeeds well on heavy loams or clay. A particularly valuable grass which we strongly recommend. Per lb. 20c.; 10 lbs. at 17c.

TALL FESCUE—(Festuca Elatior).—Is a tall, coarse growing grass, succeeding well on damp soils. Per lb. 42c.; 10 lbs. at 40c.

WOOD MEADOW GRASS—(Poa nemoralis).—Is suited to almost any variety of soil, is very early, and succeeds better under trees than any other grass. Per lb. 60c.; 10 lbs. at 55c.

TALL MEADOW OAT GRASS—(Avena Elatior).—A strong growing grass, doing well on all sorts of soils. Per lb. 35c.; 10 lbs. at 32c.

AWNLESS BROME GRASS—(Bromus Inermis).—Valuable for light dry soils. In Manitoba, it has given the best of satisfaction, and on dry soils anywhere will succeed well. Is adapted either for hay or permanent pasture. Its roots being difficult to kill, it is advisable to use it only for permanent hay or pasture. Per lb. 18c.; 10 lbs. at 16c.

Grass and Clover Seeds

The term "Choice" as applied to Clover and Timothy does not only mean seed entirely free from weeds—this it may be, just as it comes from the thrashing mill, and still 25 p. c. of the weight be immature, light grains, sand, etc., that will not vegetate and are thus worthless. Choice seed should not only be free from weeds but be bright, of a high percentage of growth, and every grain large, plump and uniform in size.

We assure our patrons that the cost per acre of truly choice seed over inferior is but little more than common stuff. In order to send out clean seed, the Seed Merchant must have machinery capable of effecting this, and for years we have given this matter our closest attention. With our improved machinery for cleaning and grading, we are in a position to offer samples of the very finest quality.

Farmers to whom it is inconvenient to deal direct with us, should ask their store-keepers for Ewing's Select re-cleaned Lower Canada Timothy (Sun and Moon Brands), and be sure that they get it.

Our "Select Unhulled Lower Canada Timothy" is acknowledged to be superior to seed grown in any other section on account of its size and plumpness and the strong growth of plants produced by it.

Note.—All Clovers and Timothy of the various brands and qualities we offer for sale are sold as being strictly Government Standard and in accordance with the Seed Control Act of Parliament.
CHOICE CLOVERS

CRIMSON—(Trifolium incarnatum)—Grows rapidly in the beginning of the season. If sown on pasture or hay land, just as the snow is going, will produce in ordinary years a paying crop of pasture. Is not hardy here. Per lb. 15c.; 100 lbs. $14.00.

WHITE DUTCH—(Trifolium repens)—Valuable in all pasture mixtures, forming in conjunction with pasture grasses, a fine close sod. Per lb. 25c. Extra choice for lawns. Per lb. 30c.

YELLOW—Trefoli or Hop Clover. Well adapted as a mixture with other clovers and grasses for pasture, especially for sheep. Per lb. 25c.

BOKHARA—(Melilotus albus)—Sweet scented, valuable for bees. Per lb. 25c.

LUCERNE or ALFALFA—(Medicago sativa)—Yields enormously, and is a sweet and highly nutritious fodder. Should be sown in well-drained soil, with a naturally free and dry subsoil, at the rate of 20 to 25 lbs. per acre, and mown frequently during the season. Per lb. 25c.; 10 lbs. $2.40.

Prices for large quantities on application.
Add 5c. per lb. to above prices for Canadian postage, if ordered to be sent by mail.

PASTURE GRASSES

EWING'S STANDARD PASTURE MIXTURE—Our special mixture of grasses and clovers of the best and purest qualities, for Permanent Pasture. Per lb. 18c.

NO. 2 PASTURE MIXTURE—This Mixture will give a crop of hay the first season, and will afterwards make permanent pasture. Per lb. 16c.

(In using the above mixture 25 to 30 lbs. are required to sow an acre, when sown with grain.)

NOTE—When mixed grasses to sow 5 acres or more are required, we give special quotations on application.

(PHOSPHATE POWDER)

"SCOTIA" BASIC SLAG

THE MOST SOLUBLE BRAND IN THE MARKET

(Supplies Phosphoric Acid and Lime cheaply and effectively)

Experience has shown that "Scotia" Basic Slag works an absolute transformation on poor grass lands, doubling, and even trebling their value according to quantity applied; and on grain and root crops is largely used with most profitable results.

A PRACTICAL FARMER SAYS—"After applying "Scotia" Basic Slag my fields carried double their former stock and grazed them much better."

WHAT SCIENTISTS SAY—"Professor Wright, of the West of Scotland Agricultural College, in his bulletin No. 35 on experiments having for their object the improvement of old pastures, makes the startling observation that the application of Phosphates proved to be the only profitable manurial treatment. "Scotia" Basic Slag, alike on the ground of smaller original outlay and greater effectiveness, showing decidedly the best return."

QUANTITY TO APPLY—"Scotia" Basic Slag should be applied at the rate of 8 to 10 cwt., per acre. In cases where the land is very much impoverished, the larger dressing will be found to give the best paying results. Where Basic Slag is applied in larger quantities than required by the first crop, the excess does not go to waste, but is merely stored in the ground for future use.

(See also FERTILIZER Page.)

Ton............ $22.50
100 lbs........... $2.00
Ewing’s “Mount Royal Standard” Lawn Grass

About 80 to 100 lbs. is required to sow an acre.

When ordered by mail add 5c. per lb. for postage in Canada.

The large and ever increasing demand for Our Lawn Grass Mixture is the best guarantee we can offer of its value. We use only those varieties of Grasses that are suitable for our Canadian climate, and only the finest qualities of these.

In making a New Lawn it is of the utmost importance that the ground should be free from weeds, and to attain this end a thorough summer following is the best method. Before sowing, the ground should be carefully raked, and then sown evenly, and lightly ridged over, after which it should be well rolled or “tamped” down with the back of a spade. New manure should never be used, on account of the numerous weeds which it is sure to produce. 1b. 30c. (Special prices for large quantities on application.)

Ewing’s “SPECIAL” LAWN GRASS—per lb. 20c.

Ewing’s “GOLF PUTTING GREEN” Mixture—Composed only of those grasses that form a close, even sward. per lb. 25c.

Ewing’s “SHADY NOOK” LAWN GRASS—A combination of fine dwarf-growing evergreen varieties, which in their natural state grow in the woods or other sheltered spots, and which will quickly produce an even and abundant growth of beautiful green grass under trees and in shady places. per lb. 35c.

Selected Ensilage Seed Corn

INDIAN CORN is better adapted for Ensilage than any other Forage plant, because it produces, per acre, more succulent food and at less cost.

It is evident that the variety has much to do with the profit resulting from the Siling of Corn. We mean by that, that the weight of crop per acre regulates the cost per ton of the Ensilage, so that the varieties that will produce the most tons per acre, and at the same time are sure to be ripe enough for the Sile before frost comes, are the most profitable. Location and time of sowing has to be taken into account. If not sown till well on in June, sow an early Flint Corn, in most sections of the Dominion. If sown in the middle of May, a taller and later sort would be most profitable. There are many varieties of Flint Corn that, even in the Province of Quebec, are certain to come to the right stage of maturity for Siling, and that will produce from a quarter to a third more than the Flint varieties.

One very important point to be observed in Sowing Corn is this, that the distance apart in rows or hills should be regulated by the height of the variety naturally grows, and if 3 feet or 3½ feet apart is the proper distance for a tall growing sort like Red Cob, a ½ foot less would be equally right for, say Sanford, Compton, Longfellow, or most of the Sugar varieties.

We would also recommend buyers if they receive their Corn early in spring to spread it out and thus keep it in perfect condition till sowing time.

We still continue to recommend Sugar Corn for Ensilage. There is no doubt but that it is more nutritious than either Dent or Flint varieties can possibly be. It certainly is much better than either for feeding green, as cattle will not eat up clean the butts of any but Sweet Corn.

DENT VARIETIES

Note.—In comparing ours with Western prices, please note that the difference in freight, in favor of Montreal, to points in Eastern Ontario Quebec and all the Lower Provinces, amounts to 10c. per bushel on the average.

EARLY BUTLER—Ripens early and produces a good crop of shelled corn or Forage. 8 to 9 feet. Bush. $1.30.

EXTRA EARLY HURON—Is as early in maturing as the Flint varieties, and thus suitable for late sowing. We highly recommend it. 8 to 9 feet. Bush. $1.30.

CHAMPION WHITE PEARL—Medium early, white, of branching habit and profuse foliage, with numerous large-sized ears. We strongly recommend it. 11 feet. Bush. $1.30.

NEW WHITE CAP YELLOW—Is early; grows heavy, leafy stalks, while the ears are as large as the average Dent Corn, more numerous, and much fuller at the points. In a dry year, or on poor soil none will yield better. 10 feet. Bush. $1.25.

IMPROVED YELLOW LEAMING—Large ears with long bright yellow kernels on a small cob. Matures early, and has a strong, leafy stalk. 10 ft. to 11 ft. Bush. $1.25. Ordinary Leaming, per bush. $1.15.

PRIDE OF THE NORTH—(Golden Yellow Dent) Matures early, and is a heavy cropper. 10 feet. Bush. $1.25.

CUBAN GIANT—Ten days earlier than Red Cob, and possesses the same rank luxuriance. We offer either yellow or white in this variety. 11 feet. Bush. $1.30.
CORN—Contd.

MASTODON—The largest eared Dent Corn. Is much in demand in the United States, and we recommend it for trial in Canada. Bush. $1.30.

RED COB—Grows rapidly and yields heavily, and if sown early and the season is favorable will produce fully developed ears, when sown thin enough. 11 to 12 feet. Bush. $1.10.

YELLOW HORSE TOOTH—101/2 ft. Bush. $1.00.

GIANT SOUTHERN WHITE—Strong grower, but late. 11 to 12 feet. Yields a very heavy crop. Bush. $1.10.

SUGAR OR SWEET VARIETIES

MAMMOTH BLACK MEXICAN—Makes a fine quality of Ensilage. Is early and of leafy habit, producing ears of great profusion. lb. 10c.; per 100 lb. $9.

PERRY'S HYBRID—Medium in height and earliness. lb. 10c.; per 100 lbs. $9.

SUGAR FODDER or EVERGREEN SUGAR—Is a heavy cropper, and makes splendid Ensilage. Is fine for Fall feeding. 9½ ft. per lb. 6c.; per 100 lbs. $5.00.

MAMMOTH—Similar to preceding, but hardly so tall. No variety of Corn exceeds it in the number of ears it produces. We recommend it strongly. per lb. 6c.; 100 lbs. $5.50.

CORN FLINT VARIETIES

SANFORD—White Flint. Strong growth, and "sure" to ripen its ears sufficiently to make the best sweet tasted Ensilage. 8 feet. Bush. $1.50; per peck, 45c.

EARLY LONGFELLOW—An early yellow Flint Corn; one of the very best either for Ensilage or ripe corn. 8 feet. Bush. $1.50; per peck, 45c.

SUGAR MAMMOTH—Makes a large enourmous yield, and when well manured, will ripen larger ears than the Mammoth White. 9½ ft. Bush. $2.50.

E.R. WINTHROP—A new variety, with its ears of considerable size, and giving a heavy yield. A good early variety. 10½ ft. Bush. $1.50.

MISCELLANEOUS FORAGE PLANTS

BEANS, EARLY SOJA—Used for cutting green for stock feeding. Commence to cut when blossoming, but for Ensilage the pods should be well filled. Sow at the rate of 30 lbs. per acre, in rows 2 feet apart, and leave 8 plants to the running foot. Can be used as a soil enricher, same as Clover. 10c. per lb.; $8.00 per 100 lbs.

HORSE BEANS. Bush. $2.50. (Imported Scotch.) The beans are either boiled and fed to horses or ground into meal for cattle, and no grain will produce more beef or milk, while the straw is as good as Timothy hay for horses. Sow in drills—30 inches apart—1 bushel per acre, in well manured clay land or heavy loam, if possible.

SUNFLOWER—(Mammoth Russian)—Sow in drills at the rate of 7 lbs. per acre. Per lb. 10c.; 3 lbs. 25c.
MISCELLANEOUS FORAGE PLANTS—Contd.

KAFFIR CORN, RED—Grows 4 to 5 feet high, and should be sown in drills 24 feet apart. It is very leafy and makes fine feed either green or dry. Sow 5 lbs. to the acre in drills and 25 lbs. broadcast. 8c. per lb.; 10 lbs. at 6c.; 100 lbs. at $4.00.

LUCERNE or ALFALFA—See Clovers.

MILLET, Common—Makes rapid growth. Leafy and abundant foliage. (Market price.)

  "German—At $1.25 bush. 48 lbs.
  "Japanese—Strong leafy growth, with spreading head. Produces the heaviest crop of Forage of any variety of Millet. Per lb. 10c.; 10 lbs. 85c.; per 100 lbs. $7.00.

HUNGARIAN GRASS—Stands drought well and will produce a paying crop on poor soil. At $1.25 per bush. 48 lbs.

RAPE—See Agricultural Root Seeds.

SAINFOIN—A popular forage plant in Europe. Succeeds fairly well here, producing very early forage, lb. 15c.

SOUTHERN COW PEA—Sow in May, 90 lbs. per acre, broadcast; when full grown it can either be plowed in to enrich the soil with nitrogen, or cut for green feed. lb. 8c.

TARES or VETCHES—Very valuable as a green fodder for horses or milch cows, and can be sown as soon as the snow goes, and is the earliest fit for use of any spring sown forage plant. Bush. $1.50. For large quantities, write for quotations.

SAND or HAIRY VETCH—15c. per lb.; $2.00 per peck; $6.50 bush.

Ewing's Selected Seed Grain

Seed Grain, being scarce this season, these prices are given subject to advance.

BARLEY—Contd.

MENSURY—This six-rowed variety is an enormous yielder. The straw is strong and stands up well; is the heaviest yielding variety we know of. Bush. $1.15.

BLACK HULLESS—Has no beards and yields well. Per bush. 60 lbs. $1.60.

WHITE HULLESS—Has no beards and yields well. Per bush. 60 lbs. $1.75.

Buckwheat (Bush. 48 lbs.)

SILVER HULL—Per bush. $1.15.

BEANS

WHITE MARROWFAT—Per bush. $3.00.

WHITE PEA—Per bush. $2.50.

HORSE BEANS—See Miscellaneous Forage Plants.

RYE (Bush. 56 lbs.)

GOVERNMENT STANDARD

SPRING—Per bush. $1.60.

FALL—Per bush. $1.50.

Special prices for large quantities of Seed Grain.

SPELTZ

Is being grown in Canada to a limited extent, and though not bearing out the extravagant claims for productiveness made for it, trials of last year have proved that it can be grown profitably, to be used ground for stock feeding. lb. 10c.; 5 lbs. 40c.; bush. $1.40 (40 lbs.). 5c. for postage per lb.
Oats (Bush. 34 lbs.)

We shall be pleased to furnish samples and quotations for quantities of Seed Oats.

IRISH WHITE—A branching headed cluster oat, of wonderful productivity. Particularly strong straw, and does not lodge. Per bush, $1.00.

STORM KING—One of the latest introductions and a grand new sort. Heavy plump grain, stiff straw, and in competition with many other sorts has proved as good as the best. Bush, $1.00; 10 bush, lots, 90c.

TWENTIETH CENTURY—An extra heavy cropper. Grain is heavy with thin hull and straw is strong. Bush, $1.00; 10 bush, lots, 90c.

WAVERLEY—Very thin skin, while the kernels are large and well flavored, making it a favorite sort for milling purposes. Strong straw. Bush, $1.00; 10 bush, lots, 90c.

WHITE DANISH—A heavy cropper. Grain is large and plump, while the straw is stiff and not subject to lodge. Bush, $1.00; 10 bush, lots, 90c.

LIGOWA—Has done remarkably well in Canada. Strong straw and very early. Bush, $1.00; 10 bush, lots, 90c.

LINCOLN—Early, and has so far proved itself rust proof. Thin hull and plump kernel. Bush, $1.00; 10 bush, lots, 90c.

NEW MARKET—Recommended as being one of the best all round varieties in cultivation. Strong straw and heavy grain. Per bush, $1.00; 10 bush, lots, 90c.

Sensation—Very early. Stiff straw with long open head, pyramidal in form, a great cropper. Per bush, 95c; 10 bush, lots, 90c.

SIBERIAN—Its great productivity has caused it to become one of the most popular sorts. Per bush, 95c; 10 bush, lots, 90c.

AMERICAN BANNER—One of the heaviest cropping white varieties in cultivation; has given the best of satisfaction to everyone growing it. Medium early. Bush, 95c; 10 bush, lots, 90c.

CANADA WHITE—Market price.

BLACK TARTARIAN—The best variety for peaty or mucky soil, but succeeds well on all sorts of land. Bush, $1.00; 10 bush, lots, 90c.

NEW BLACK GOANETTE—Grain weighs as much per bushel as the heaviest of the white sorts. Bush, $1.00; 10 bush, lots, 90c.

Any of the foregoing varieties of Oats postpaid by mail, 5 lbs. for 60c.

Peas (Bush. 60 lbs.)

We do our best to procure seed peas free from weevil—but this is getting more difficult from year to year.

CANADA WHITE—Per bushel, $1.30.

BLACK EYE AND WHITE EYE MARROWFAT—Per bushel, $1.60.

GOLDEN VINE—A good yielder. Per bush, $1.35.

PRINCE ALBERT—Early and productive. Per bush, $1.35.

BLUE PRUSSIAN—The most profitable to raise to sell for cooking purposes. Per bush, $1.60.

CANADIAN BEAUTY—A fine large pea and very productive. Per bush, $1.50.

GRASS PEA—The pea weevil does not affect this sort, and it produces very good crops, but can only be used for feeding stock. Market price.

Wheat (Bush. 60 lbs.)

**GRAIN**

**SPRING VARIETIES**

PRESTON—This new wheat is the result of crossing the Red Fife on the Ladoga. It is red bearded with strong straw; grain is of average size, but “plump and hard,” and ripens with White Russian. No variety will produce more, and few so much. Per bush, $1.50; per peck 50c.

WHITE RUSSIAN and LOST NATION—Well known bald varieties. Per bush, $1.50; per peck, 50c.

RED FIFE AND WHITE FIFE—Standard bald varieties. Manitoba grown. Per bush, $1.50; per peck, 50c.

BLUE STEM FIFE—Grain of a dark amber color, bald, and claimed to be equal to the Fife in quality, but a heavier cropper. Bush, $1.50; per peck, 50c.

WILD GOOSE—A very productive and hardy white bearded variety. Grain hard and flinty; best sort to raise for feeding stock. Per bush, $1.50; per peck, 50c.

COLORADO RED BEARDED—Early, and a grand yielder. Bush, $1.50; per peck, 50c.

**Fall Wheat** (Bush. 60 lbs.)

CLAWSON, GARFIELD and other fall varieties. Market price.

SEAMLESS COTTON BAGS at 22c.

*A Field of Early Preston Wheat.*
Annual, Biennial and Greenhouse Flower Seeds

For "PERENNIALS" See page under heading "Perennial Flower Seeds."
For "NOVELTIES AND SPECIALTIES" See beginning of Catalogue.

Abbreviations used: h. a., means hardy annual; h. h. a., half hardy annual (such may be started in a box in the house, or in a hot 'bed); h. b., hardy biennial; h. h. b., half hardy biennial; G., Greenhouse Plant.

Please note that the Flower Seed List is divided into two parts. In the first is enumerated Annuals and Biennials, including Greenhouse Flowers which are raised from seed. Then succeeding this is a complete list of Hardy Perennial or Herbaceous Plants that are grown from seeds, all alphabetically arranged. It will be noted that the latter is a very extensive and complete list, more so than any American or Canadian one we know of and we trust our customers will look carefully through it when making up their orders and will find the arrangement will aid them.

HINTS HOW TO RAISE FLOWERS FROM SEED

SOIL—A medium rich porous soil produces the best blooms.

SOWING—Never sow seed in the open ground till the soil is warm, nor when it is very wet. Bake the patches perfectly smooth where seeds are to be sown, and after sowing cover with sand or finely sifted light soil. Small seeds require the least possible covering and larger ones more, in proportion to size—2 or 3 times the diameter of seeds being sufficient. If sown in a bed, afterwards to be transplanted where intended to bloom, make rows 6 inches apart and not more than 1 foot long, so as to admit of weeding and thinning, without trampling the ground. Press the soil down after sowing, with a smooth board, shade till plants grow and keep fairly moist.

THINNING, TRANSPLANTING and STAKING—Keep thinning out as plants grow, transplanting these thinnings according to number of plants required of the different varieties. Distance between plants in beds should not be less than half the height of the variety and the heights are given in Catalogue. All slender growth, but tall plants, should be tied up to neat stakes.

Transplant when weather is cloudy, and shade if sun comes too strong, for a few days. Biennials should, as a rule, be treated as Annuals, but should be sown in the house or hot-bed and transplanted in May to where intended to bloom.

SOWING IN BOXES—Tender Annuals and Biennials had better be sown indoors. Fill a shallow box to within an inch of the top, with equal parts sand and light loam, thoroughly mixed and carefully sifted. Cover the seed thinly in rows, press seeds gently into the earth, then cover lightly with finely sifted soil. Cover box with a pane of glass, shade with paper and place in the window. Keep moist till plants are up.
ALTHEA

No. 10a. HYBRIDA SEMPERFLORENS FLORE PLENO—

New. This double annual ever-blooming Hollyhock if sown in March can be planted out in May, and will flower about a week later than the ordinary Hollyhock, and the blooms are just as double and of all the well-known colors. 20

ALYSSUM

Fine for borders or edgings. Flowers in the greatest profusion, making a perfect carpet of pure white.

11. SWEET WHITE—H. a., 1 foot 5

12. COMPACTUM (or LITTLE GEM)—H. a., 6 inch, an excellent variety 10

ALONSOA

13. WARSCEWICZI—Brilliant scarlet, h. a., ½ foot 5

AMMOBIUM

14. ALATUM GRANDIFLORUM—White Everlasting, h. a., 2 feet 5

ANAGALLIS

15. CHOICE MIXED VARIETIES—Trailing plant, looks handsome in pots or vases, h. a. 5

AMARANTHUS

(Ornamental Foliage Plant)

16. AMABILIS TRICOLOR—Long pointed leaves, forming tufts of fiery-red, yellow and rose, h. a., 2 feet 5

17. TRICOLOR MAGNIFICUS—Drooping leaves of carmine, tipped with maroon, h. a., 3 feet 5

18. HENDERI—Dark bronze drooping leaves, h. a., 3 feet 5

19. BICOLOR—Leaves crimson and green, h. a., 18 in. 5

20. MELANCHOLICUS RUBER—Blood red foliage, h. a., 2 feet 5

21. BICOLOR RUBER—Carnation scarlet, splendid, h. a., 2 feet 5

22. TRICOLOR GIGANTEUS—Green, red and yellow, h. a., 2 feet 5

23. MIXED VARIETIES 5

ANTIRRHINUM

The Antirrhinum or Snapdragon, if sown under glass, flowers the first year. It is very showy in beds or mixed border, but is not used to the extent it deserves, and any one who tries a good large bed of it we are sure will be delighted. It is also suitable for pot culture, for which we recommend the “Tom Thumb.”

24. MAJUS—Fine mixed, h. a., 1½ feet 5

25. LARGE FLOWERING EXTRA CHOICE—Mixed, h. b., 1½ feet 10

26. TOM THUMB—Choice mixed, h. b., ½ foot 10

27. TOM THUMB “SUNLIGHT”—New yellow leaved, 25

ARDISIA CRENULATA

28. A compact and neat shrub with drooping clusters of small coral red fruits. Sweet scented 20

ARCHITOS GRANDIS

29. Two feet, blooms are of daisy-like form, 2½ inches across, and color white shaded lilac, zoned with yellow at throat 15

ARGEMONE

30. PLATYCLERAS GRANDIFLORA—H. a., 2½ feet. Showy and of easy culture, with large white flowers and handsome foliage. A most striking plant 10

ARNEBIA

30a. CORNUTA—A beautiful half-hardy annual. Sow under glass in March, plant out in May, yellow flowers beautifully spotted with brown 20

ASPENULA

31. AZUREA SETOSA—H. h. a., blue, 1 foot 10

ASPARAGUS

A beautiful house plant. The Sprengeri is much admired in hanging pots 25

PLUMOSUS NANG—G 25

SPPRENGERI NANG—G 25

BALSAM

Balsams are showy and easily grown annuals, forming bushy plants profusely covered with large double flowers of brilliant colors. Bloom all summer and autumn; height 1½ to 2 feet.

DOUBLE CAMELLIA-FLOWERED

Collection of 6 colors, separate 50
Collection of 8 colors, separate 75

34. DOUBLE MIXED. 5

35. EWING’S PRIZE MIXTURE—A superb strain saved from the finest flowers 10

36. CAMELLIA-FLOWERED—Extra double, very large flowers, choicest mixed 10

37. WHITE CAMELLIA-FLOWERED—Alba Perfection, extra fine double white 10

38. PRINCE BISMARCK, CAMELLIA-FLOWERED—New brilliant salmon rose, the best double Balsam 10

39. ROSE-FLOWERED—Very double flowers, in form resembling a rose. The best Balsam for florists 10

40. NEW CARNATION-STRIPEP—Semidouble, choicest mixed 10

BEGONIA

Begonia Single Tuberous Rooted. No. 101

BARTONIA

Leaves resemble those of the thistle, while the blooms are large and bright.

41. AUREA—Yellow, h. a., 2 feet 5

BIDENS

Has wavy flower stems, 12 inches in length each bearing one dahlia-like bloom about 1½ inches in diameter, and of a black purple color.

42. ATROSANGUINEA SUPERBA—H. h. a. 15

BRIDAL ROSE (Feverfew)

Double pure white flowers, H. h. b. 10

MATRICARIA—Capensis f. pl. 10

BEGONIA

Begonias are magnificent flowering plants for pot culture, and are also deservedly popular for planting in beds, flowering in the greatest profusion. For Begonia Bulbs, see Summer Flowering Bulbs.

44. EWING’S PRIZE SINGLE TUBEROUS ROOTED VARIETIES—An unrivalled strain, saved from best selected blooms of the finest large-flowered hybrids 25

45. EWING’S PRIZE DOUBLE TUBEROUS ROOTED VARIETIES—Saved exclusively from a superb collection 50

46. SEMPERFLORENS ATROPURPUREA “VERNON”—Handsome dark bronze leaves and deep scarlet flowers. Grand for either planting out, or for greenhouse culture 25
47. **HERCULES WHITE**—New class of imposing aspect, producing enormously large long-petalled pure white flowers, borne on very sturdy stalks. The plants average a height of 10 to 18 inches, and with good culture the blooms will attain a diameter of as much as 6 to 7 inches, presenting the appearance of a giant Japanese Chrysanthemum.

48. **LAVENDER GEM**—The blooms of this new variety are borne in profusion on long wiry stems and are always double. When first opened flowers are of delicate Lavender deepening with age.

49. **VIOLET KING**—A new and distinct variety, of American origin, similar in habit to the Late Branching type, with long, strong stems, and perfectly double flowers of good size, of a pleasing, soft shade of violet. A valuable addition to the list of first-class Asters.

**TRUFFAUT’S SUPERB PAEONY-FLOWEURED PERFECTION ASTER**

Collection of 6 separate colors ........................ $0.50

12 " 6 pure white varieties .......................... 1.00

50. **TRUEFAUTS PERFECTION**—A splendid strong growing variety. Produces immense double flowers.

**CHOICE MIXED** ..................................... 10

51. **CHINA**—Mixed colors ........................... 5

---

**EWING’S MOUNT ROYAL PARK COLLECTION**

**MOUNT ROYAL PARK—TALL, SEMI-DWARF AND DWARF VARIETIES**, separately. A choice mixture of all the very best standard and newly introduced varieties, and which we offer in three different heights, separately. We do not think it possible that a better assortment can be offered, and we strongly recommend it.

52. **SUPERB MIXTURE** of Tall varieties ............. 10

53. **SUPERB MIXTURE** Semi Dwarf varieties ...... 10

54. **SUPERB MIXTURE** Dwarf varieties .............. 10

55. **BALL or JEWEL**—Mixed. Flowers are of a perfect ball shape. Very beautiful .......................... 10

**EWING’S SUPERB BRANCHING ASTER**

A magnificent new American strain. The flowers are of extraordinary size, with long graceful stems 15 to 20 inches in length—late flowering. Grand sort for cutting. Extra large plants of very strong growth.

56. **WHITE** .................................. 10

57. **ROSE** .................................. 10

58. **PINK** .................................. 10

59. **SCARLET** .................................. 10

60. **CHRISTMAS TREE**—Grows 1½ feet high, and branches out from base of plant. Entirely different in habit from any other Aster. Mixed colors ........................................ 15

---

**EWING’S SELECTED COMET ASTER**

The Comet sorts produce large blooms resembling Japanese Chrysanthemums. The Giant Comet blooms are still larger with long wavy petals. Grand for exhibition purposes. A superb class and should be included in every collection.

56. **SUPERB MIXTURE** of Giant varieties ........... 10

57. **EMpress FREDERICK,” Dwarf Comet—**

This superb Aster bears very large flowers, 4 to 5 inches across, of perfect Comet shape and of the purest white. Strong, thick-set habit and unsurpassed for pot culture ........................................ 20

59. **“KING HUMBERT,” Dwarf Comet—New**

Blooms sometimes 5 inches in diameter, pure white and the petals most beautifully twisted and curled 20

**EWING’S GIANT COMET ASTER**

70. **PURE WHITE**—.......................... 10

71. **ROSE** .................................. 10

72. **CRIMSON** .................................. 10

73. **MAUVE** .................................. 10

74. **SILVER GREY** .................................. 10

80. COUNT WALDERSEE—Plant forms a compact round bush of 10 in. in height completely covered with blooms (sometimes 200 on one plant) an inch in diameter, of delicate rose edged with white.

81. CROWN or COCARDEAU—Mixed. Flowers have white centres, bordered with carmine, blue and crimson.

82. DAYBREAK—Chaste globe-shaped flowers, very large, on long stems. Plant flowers early and is a continuous bloomer. A beautiful Aster and a gem that has come to stay. Color lovely sea-shell pink, 18 to 24 inches in height.

83. DWARF BOUQUET—Mixed. Plants form complete bouquets, 8 inches in height.

84. DWARF EARLY QUEEN—Mixed colors. Beautiful early class for pots, beds or borders.

[Hohenzollern Aster]

Excellent, robust new class with enormous flowers, superb for cutting and exhibiting.

85. WHITE—Extra large blooms borne on flower stalks 20 inches long.

86. DWARF WHITE—Very free blooming.

87. SPLENDID MIXTURE.

88. JAPANESE—Blooms are very large, and the long, curiously curled petals give them a striking resemblance to the Japanese Chrysanthemum. Colors are flesh and rose.

Daybreak Aster, No. 82

89. LADY—White, 10; Rose.

90. LADY—Mixed. Long stems. Dark green foliage. The finest flowerer of all.

91. LILIPUT—Mixed. Flowers small and numerous.

92. MIGNON—Mixed, a fine variety, somewhat resembling the Victoria, but still more floriferous. Flowers somewhat smaller, excellent for florists.

93. NEW RAY—White, 10; Rose, 10; Mixed.

94. OSTRICH FEATHER—Light Blue, 10; Rose, 10; White, 10; Mixed.

Ewing's Selected Victoria Aster, No. 100.

95. QUEEN OF THE MARKET—Is an entirely distinct variety and three weeks earlier than other Asters. Valuable for cutting.

96. QUILLED, German—Mixed colors.

97. ROSE FLOWERED—Mixed. Large double flowers, branching habit.

98. SINGLE FLOWERING—Mixed. Fine for cutting. Blooms abundantly, and the single, broad-petalled flowers are borne on long, stout stems.

99. TRIUMPH—Scarlet. This is the finest of all dwarf Asters and makes a grand edging.

100. Ewing's SELECTED VICTORIA ASTER—One of the most showy and effective Asters for decorative purposes; large flowers of perfect form, the petals are beautifully recurved and as an exhibition Aster it is unsurpassed.

101. MISS ROOSEVELT (Victoria)—New. Primrose passing to flesh colour.

VICTORIA PRIZE ASTERS

Collection of 6 colors separate.

102. VICTORIA NEEDLE—Mixed. The largest and finest of all quilled varieties.

103. WASHINGTON—Mixed. Beautiful blooms of delicate pink and pure white.
No. 104. BRACHYCOME IBERIDIFOLIA (Swan River Daisy)  
Choice mixed ........................................... 5

BROWALLIA  
Elegant half-hardy annual, with glossy green foliage and deep blue and white flowers.

No. 112. CALAMVIPER ........................................................................................................... 5

CALCEOLARIA  
Calceolarias are amongst the most useful plants for greenhouse decoration. They are not difficult to raise and make a splendid display.

No. 113. Ewing’s Prize Strain—A giant flowered unexcelled strain producing a great diversity of brilliant colors .......... 50

No. 114. CALCEOLARIA RUGOSA—A splendid bedding plant. ........................................... 50

CALANDRINA  
H. a., ½ foot, creeping plant.

No. 115. MIXED VARIETIES ............................................. 5

CALLIRHOE  
H. h. a., ½ foot, red-purple, varying to lilac.

No. 116. SCABRA .................................................................................................................. 10

CANARY BIRD CREEPER  
A most charming annual climber. 
H. a. Both the pure yellow flowers and the leaves are beautiful. 
See Tropaeolum Canariense ......................... 5

CANDYTUFT, (Iberis)  
These hardy annuals are now considered indispensable. Brilliant in color and of compact habit they are universally grown in pot or border, and for cutting are invaluable.

No. 117. CRIMSON ........................................ 5 121. WHITE—oz. 25c. 5

No. 119. PURPLE ........................................ 5 122. MIXED COLORS—

No. 120. CARMINE ........................................ 10 123. DOBBIE’S WHITE SPIRAL—Flower spikes are fully 6 inches long and 2 inches in diameter, closely set with pure white flowers ........................................... 10

No. 124. NEW DWARF MIXED HYBRIDS—oz. 60c .... 10

No. 125. EMPRESS GIANT HYACINTH FL’D.—H. a. Pure white, producing spikes often measuring 7 inches in length, and nearly the same in circumference. A most effective plant ........................................... 10

No. 126. LITTLE PRINCE—H. a. New. 4 inches .......... 10

A charming dwarf sort, growing from 4 to 6 inches high, producing upright branching spikes, from the main stem, of snow-white blooms, in candelabra fashion. Either in masses, groups or edgings it produces a charming effect.

CANDNA  
The large handsome foliage and flowers of the Cannas render them highly ornamental. They are of easy growth and very popular, and justly so, as for either outdoor or indoor decoration, few plants surpass them.

No. 127. CROZY’S LARGE FLOWERED FRENCH HYBRIDS—Saved from Crozy’s finest and newest sorts, extra fine .................. 15

(Continued over)
Canna.—Contd.

128. FINE MIXED—A splendid mixture of all sorts. 10
   FOR CANNA PLANTS—See Plant Department.

CARNATION

General favorites, and always in fashion. Invaluable both for greenhouse culture in winter and for the garden in summer.

129. FINE MIXED—H. h. p. 10

130. CHOICE MIXED BORDER 25

The last named is an extra choice strain producing a large percentage of the most exquisite double flowers. H. h. p.

131. MARGUERITE—Mixed colors. 15

Splendid early flowering Carnation. Seed sown in February will bloom profusely from July to end of season. It makes a pretty bed. H. h. p.

132. VIENNA—A fine early sort well adapted for bedding out 10

133. PERPETUAL FLOWERING OR TREE—Choice mixed, G. Contains all the best French varieties in cultivation 50

CASTOR OIL PLANT—See Ricinus.

CELOSIA (See "Coxcomb" for other Varieties)

(Feathered Coxcomb)

No. Particularly fine plants for groups or large beds.

134. (PLUMOSA) PYRAMIDALIS—Ornamental foliage and graceful plumes. Splendid mixed. Pkt. 5c.

135. SPICATA (Argentea Linearis) —The main stem (2½ feet high) bears 20 to 30 side shoots each crowned by a flower spike 3 inches long, of bright rose changing later to silvery white. Pkt. 15c.

136. THOMPSONI MAGNIFICA —The finest feathered cockcomb yet introduced. Flowers are of all colors from yellow to the deepest blood red. A splendid decorative plant either in pots or open ground. Pkt. 20c.

137. CANDIDISSIMA (Dusty Miller)—Silvery white leaves broadly cut. 1 foot, h. h. p. 15

138. GYMNOCARPA (Dusty Miller)—Finely cut silvery foliage. 1½ feet, h. h. p. 10

CENTAUREA

(Cornflower, Blue-bottle or Ragged Sailor)

139. SPLENDID MIXED VARIETIES 10

140. CENTAUREA CYANUS (Corn-flower) —Mixed Varieties 5

CENTRANTHUS

141. MIXED—H. a., 1 foot. Good for mixed borders, useful for bouquets 5
WILLIAM EWING & CO.'S SEED CATALOGUE

No. CENTROSEMA Pkt. cts.
142. GRANDIFLORA—T. p. (Butter-fly pea.) A climber of great beauty. Large pea-shaped flowers ranging in color from rosy-violet to purple, with white markings. 10

CHRYSANTHEMUM

Annual sorts are showy and effective, and extensively grown for cut flowers.

143. "GOLDEN WHEEL"—New. Flowers assume a peculiar form, the quill-shaped ray florets standing out all round like the spokes of a wheel. Color, a rich golden yellow with purple centre. A profuse bloomer and valuable for cutting. 25
144. FRUSTESCENS or PARIS DAISY—Single perennial variety, with pure white flowers, 1 foot, G. 10
145. INODORUM PLENISIMUM—Pure white. If seed is started early will flower all summer. Fine for cutting. H. h. p., 1 foot 10

Cineraria, Ewing’s Prize Strain, No. 147 Pkt. cts.

148. GRANDIFLORA HYBRIDA—Blooms are of great substance and brilliancy of coloring. 50
149. GRANDIFLORA STELLATA (Star Cineraria)—Plants are of graceful habit, bearing small flowers in loose panicles. A most valuable plant for greenhouse decoration, 2 to 3 feet. 35

Our strains of Cineraria are very superior, and we confidently recommend them to all who are desirous of having really good specimens of this fine showy greenhouse plant.

Cineraria Hybrida Grandiflora Stellata, No. 149

No. No. 145a. INODORUM (Bridal Robe)—Of very compact and upright habit and not exceeding 10 inches in height, the sturdy plants throw out their finely feathered foliage from the base and deck themselves with a mantle of extra double pure white flowers. With their short closely-set petals the latter recall the finest forms of very large-flowering double Daisies, and appear in such number that a large bed in full bloom may well be compared to a drift of snow. Chrysanthemum Bridal Robe, coming almost true from seed, will certainly prove a bedding plant of the very first rank, while also useful for pot culture. 30
146. ANNUAL—Mixture of double and single sorts, h. a. 5

CINERARIA

These beautiful flowers should be in the greenhouse of every lover of flowers. They come into bloom during spring and early summer. Our Prize Strain is superb, and is grown by one of the greatest specialists of the time.

147. EWING’S PRIZE STRAIN—Beautifully formed flowers of large size and of exquisite and varied colors 50

150. CINERARIA MARITIMA—Silvery foliage. Much used as a border plant. H. h. p., 1½ feet 5

CLARKIA

151. MIXED—Single and double 5

Of easy culture, and, if thinned out, is very handsome. 1 to 2 feet high.

CLINTONIA

152. ELEGANS—H. a., ½ foot. Blue. Somewhat resembles the Lobelia; suited for edging or rock work.
No. CIANTHUS Pkt. cts.
153. DAMPIER—Mixed, h. h. p. Greenhouse climber. Fine foliage and bright scarlet flowers 25

COBREA
154. SCANDENS—H. h. p. Beautiful greenhouse climber, grows quickly and has fine foliage. It also does well out of doors. ................................ 10

COXCOMB (Celosia Cristata) Curious looking but ornamental flowers. Very attractive when mixed with other plants or for pot culture. H. h. a.
155. EMPRESS—Extremely large beautifully formed combs of bright velvety crimson. ............................................ 15
156. GLASGOW PRIZE—Crimson. Combs are of great size and well suited for competition. ................. 15
157. TOM THUMB—Fine dwarf crimson. ........................................ 10
158. MIXED VARIETIES. .................................................. 5

COLEUS Effective foliage plant. Grown from seed, plant grows far larger and healthier than from cuttings.
159. SPLENDID MIXED EXHIBITION—Saved from new varieties with large and superbly variegated foliage. ............... 30

COLLINSIA An attractive hardy annual either in beds or borders. Free flowerer.
160. BICOLOR—H. a. Lilac and white ................. 5
161. MIXED—H. a., 1 foot ........................................ 5

CONVOLVULUS (or Morning Glory)
162. CONVOLVULUS MAJOR (Morning Glory)—H. a. Mixed colors. Tall ........................................ 5
163. MINOR or DWARF—H. a., 1 foot, mixed colors ........................................ 5
164. MAURITANICUS—A charming trailing plant suitable for hanging baskets. Light blue flowers. 10
(For JAPANESE MORNING GLORIES—See IPOMOEA.)

COREOPSIS (or Calliopsis) The Coreopsis shows to best advantage in large masses. Pick off seed pods as they show; this will cause the plants to keep longer in bloom.
165. LARGE FLOWERING MIXED VARIETIES—H. a., 2 feet. Pkt. 5c.

COSMEA Pkt. cts.
No. A pretty feathery foliaged annual, useful for cutting. Grows about 3 feet.
167. ATROPURPUREA—Crimson ........................................ 5

COSMOS Cosmos has a striking effect amongst tall growing plants. Its beautiful large blooms are carried on long stems and the foliage is feathery and graceful. Should be sown early and potted off, previous to planting in open ground.
168. GIANT PERFECTION—Mixed colors, h. h. a., 5 to 6 feet. .................................................. 10
Bloms are very large—often 4 inches across. The colors are the latest development in this handsome autumn flowering annual.
169. NEW EARLY BLOOMING—H. h. a., mixed .......... 10
Forms compact bushes literally covered with flowers, not so large as the Giant varieties, but more numerous. Commences blooming in July and continues till frost comes.
170. GOLDEN DAWN—H. h. a., 4 feet. The fernlike foliage is covered with a solid sheet of golden yellow flowers. Very early. ........................................ 10

CUPHEA (or Cigar Plant) Very floriferous, excellent for pots and borders.
171. T. p., ½ foot .................................................. 10

CYCLAMEN The Cyclamen is among the most beautiful of winter and spring blooming greenhouse or parlor plants. Not only are the bright colored flowers exceedingly handsome, but the foliage splendid.
172. PERSICUM GIGANTEUM—Choicest mixed, rich strain, mammoth flowers, extra fine. ........................................ 50
173. PERSICUM WIGGINS PRIZE STRAIN—Extra choice mixed. .................................................. 25
174. PERSICUM PAPILIO or BUTTERFLY. A new variety of Cyclamen, very showy and colors are varied and striking and the flowers large and beautifully fringed and crimped at the edges. ........................................ 50
175. EWING'S PRIZE STRAIN This strain has been established by years of continued selection of the very finest varieties. Produces blooms in extraordinary abundance, of great size, and most striking colors. A single plant has produced 300 blooms.
176. PERSICUM GIGANTEUM—Charming Bride—Pure white. ........................................ 50
177. CRIMSON KING .................................................. 50
178. SALMON QUEEN—The most exquisite variety ever raised. ........................................ 50
179. EXCELSIOR—Rich red. ........................................ 50
180. LILACINA—Lovely rose lilac. ........................................ 50
181. ALBUM—White self. ........................................ 50
CYCLANTHERA

Hardy and quick growing fine foliage climbing annual, producing pretty oval-shaped fruit which explodes when ripe.

182. EXPLODENS—
Pkt. 10c.

CYPERUS

183. ALTERNIFOLIUS—(Umbrella Plant).
Highly ornamental greenhouse perennial.
Pkt. 25c.

DAHLIA

Dahlias grow easily from seed, and bloom profusely. Their bright flowers of the most varied hues are splendid for vases in table decoration.

No. Pkt. cts.
184. TOM THUMB—
DOUBLE—Finest mixed, h.b.p., 1 1/2 ft. 15

185. DOUBLE PRIZE MIXTURE—A splendid giant flowering strain, superb colors 15

186. SINGLE VARIETIES—Finest mixture 15

187. NEW SINGLE COLLARETTE—Has a row of short petals around the disc like a frill or collar 15

188. CACTUS VARIETIES IN SPLENDID MIXTURE—The petals of the Cactus variety instead of being rounded and curved, as in ordinary Dahlias, are long, twisted and beautifully recurved. Must be sown early.

For DAHLIA ROOTS—See Plant Department.

DATURA

The flowers of the Datura are large and trumpet shaped.

189. DOUBLE—Mixed, h., h.a., 3 feet 5

190. SINGLE—Mixed, h., h.a., 3 feet 5

DIANTHUS h. b.
(INDIAN AND JAPANESE PINKS)

These are amongst the most decorative of border annuals, and their brilliant colors render them indispensable for summer bedding and to cut for bouquets and vases.

SINGLE VARIETIES

No. Pkt. cts.
191. THE BRIDE or LITTLE GEM—White with purple centre; plants grow from 6 to 8 inches high, and are completely covered with bloom 10

192. CRIMSON BELLE—1 foot, brilliant dark red 10

193. EASTERN QUEEN—1 foot, marbled rose. A beauty 10

194. SNOWFLAKE—1 foot. Large pure white flowers, beautifully fringed 10

195. HEDDEWIGI—Mixed Single Varieties 10

(Continued over.)
Dianthus—Contd.

Double Varieties

196. Salmon Queen — A beautiful distinct new shade of brilliant salmon. Fringed and splendidly double. Plants are of good habit and free bloomers. 10

197. Mourning Pink — 1 foot. Double flowers of rich dark purple-maroon, and edged with pure white. 10

198. Hedewigi — Japan Pink Double, mixed colors. 10

198a. Hedewigi Diadematus — Large flowers of various colors, edged and marbled in unique fashion, 1 foot. 10

Dianthus Hedewigi Diadematus, No. 198a.

New Double Annual Pink “Snowdrift” — This is one of the best of the many varieties of Dianthus now grown. The robust and freely-branching plants grow about a foot high, and most of them throw up a multitude of strikingly large flowers, 3 to 4 inches across, very double and with finely laciniated petals of the purest white, the effect in clumps and masses being very striking. 30

200. Lacinatus Striatus — Double fringed, 1 foot, mixed. 10

201. Choice Mixed — Single and double varieties. 10

A superb mixture of the best varieties, in great diversity of colors. Dianthus, generally, will stand the winter, but it is better to treat it as an annual.

202. Imperialis Albus fl. pl. — Double pure white. 10

See Pinks.

Dolichos Lablab (or Hyacinth Bean)

203. Mixed — T. a. 5

Will grow 20 feet high, and in addition to the pretty flowers the seed pods are attractive.

Dracaena (Cordyline)

204. Australis, G. 25

205. Indivisa, G. 10

Diascia

206. Barberae — New. Vivid rose, charming annual, profuse bloomer, fine for cutting. 25

207. Mixed Varieties. 25

Broad bronzy leaves and tall flower spikes. Invaluable for sub-tropical gardening.

Erysimum

208. Perofskianum — H. a., 1 foot. Orange. Erect growth and sweet scented. 10

Erythrina

209. Crista-Galli — T. p. (Coral Plant.) Beautiful spikes of pea-shaped blooms. 10

Eschscholtzia

California Poppy. This is California’s chosen State Flower. The large flowers, 2 inches or more in diameter, are brilliantly colored and produced in great profusion all summer. Bushy plants about 1 foot high.

210. Mandarin — A splendid deep orange — crimson large flower. Pkt. 5c.

211. Golden West — Flowers are large and numerous. Bright yellow with large rayed blotch of deep orange at base of petals. Pkt. 10c.

212. Mixed Colors — All varieties. Pkt. 5c.

Euphorbia

Eutoea

214. Mixed Varieties — H. a., 1 foot. 5

Gaillardia

Showy garden annuals, large flowers and splendid for cutting.

215. Lorenziana, Double — Mixed, H. a., 1 foot. Excellent for bedding and cutting. Pkt. 5c.

216. Picta — Single mixed varieties. Pkt. 5c.

Gazania

(Treasure Flower)

217. Splendens — H. a., 1 foot. One of the finest bedding plants. Orange. Pkt. 10c.

Geranium

218. (Pelargonium) Zonale — Finest mixed. Pkt. 25c.

Gilia

219. Mixed Colors — Profuse flowering garden annual. H. a., 1 foot, neat growth. 5

Glauceum

220. Flavum Tricolor — New. Large orange flowers. Spotted black and yellow, fine. 15

**Double Dwarf CanaLabra Flowered**

- Finest mixed

**Tall Double, Mixed Colors**

- For perennial varieties of Larkspur see Delphinium in perennial seed list.

**Lavatera h. a.**

- (Annual Mallow) Handsome profuse-flowering plants for beds and borders, remaining long in beauty. One of the most striking annuals grown.

**Rosea Splendens**—Magnificent flowers of a beautiful rosy pink

**Alba Splendens**—Flowers large, glossy, pearly white

**Leptosiphon**

- Adapted either for beds or edgings; succeeds well in the shade. Very pretty.

**Choice Mixed Hybrids**—H. a., 4 inches

**Linum**

- Finely cut foliage, with an abundance of flower stems ending in golden yellow blossoms 1½ inches in diameter. Blooms in five to six weeks from sowing.

**Stillmani**—H. h. a., New. 1 foot

**Linaria (Toad-Flax)**

- Charming free-flowering hardy annuals, beautiful in beds and borders. Flowers prized for cutting.

**Cymbalaria**—Violet, G, trailing plant

**Reticulata Aurea Purpurea**—H. h. a., 1 foot. Flowers golden yellow and purple, charming.

**Loasa**

**Aurantiaca**—T. a. Orange climbing annual for trellis or wire work

**Lophospermum**

**Scandens**—A charming evergreen climber, bearing handsome rosy purple flowers

**Love Lies Bleeding**

- (Amaranthus Caudatus) Ornamental plant with hanging plumes suitable for mixed borders.

**Crimson**—H. a., 2½ feet

**Lobelia**

- The Lobelia is universally grown for edgings, rockeries, etc., or as a pot plant for indoor decoration. Neat habit. Very profuse flowering.

**Gracilis**—H. h. a., 9 inches. Blue and white. Pkt. 10c.

**Paxtoniana**—H. a., 6 inches. Blue and white. Pkt. 10c.

**Erinus Pumila (White Gem)**—Beautiful pure white. Pkt. 10c.

**Speciosa Compacta (Crystal Palace Gem)**—Large intense blue flowers and bronzy foliage of fine close habit, ½ foot. Pkt. 10c.
LUPINS

267. MIXED SORTS—H. a., 2 feet 5
MAIZE

Leaves small and neat habit of growth, and can be used for small groups or for ribbon borders.

MARTYNIA

273.—H. h. a., ½ feet.

Sweet-scented crimson-purple flowers, followed by curiously born shaped fruit, used for pickling 5 Marvel of Peru, No. 270

MAURANDYA

274. BARCLAYANA—H. h. p, blue climber. Its slender growth adapts it for indoor decoration. If not planted out too early, blooms profusely outside 10

MESEMBRYANTHEMUM

(See also Ice Plant)

275. CORDIFOLIUM, VARIEGATUM—T. p., ½ foot.
Rose. A valuable dwarf plant for vases, beds or edgings. Leaves are cream colored, tinted with green 10

276. POMERIDIANUM—H. h. a., 6 inches.
Golden yellow. Well suited for rustic baskets, vases, etc. Pkt. 10c.

MUSA ENSETE (Abyssinian Banana)

277. T. P. Greenhouse or Lawn Plant—A grand large foliage plant for tubs in warm greenhouses or for sub-tropical bedding outdoors in summer 25

MARIGOLD (AFRICAN) (Tagetes)

Magnificent border plants of fine bold aspect and large handsome blossoms.

278. ELDORADO—H. a., 1½ feet. Immense flowers of from 5 to 8 inches in circumference, very double, yellow 10
279. ORANGE—Large flowered double 5
280. LEMON—Large flowered Double 5
281. DOBBIE’S PRIZE STRAIN—A superb variety 15
282. FINEST MIXED—Large flowering 5

MARIGOLD (French)

283. EXTRA DWARF SCOTCH PRIZE STRAIN—H. a., ½ foot.
Lovely shades of color. Being dwarf and erect in habit, is suitable for bedding.

284. LEGION OF HONOUR—New, single. Compact and free flowering. A most striking variety. Flowers bright yellow, with clear, distinct dark velvety crimson blotches 10
285. DWARF FINE MIXED DOUBLE—½ foot. Of neat growth 5
286. ELECTRIC LIGHT—Dwarf double. Sulphur brown, striped and spotted 5
287. FINEST MIXED VARIETIES 5

MATTICARIA (Feverfew)—See Bridal Rose

MIGNONETTE h. a.

For Mignonette soil should not be over rich and plants well thinned out. The first variety is the hardy sort, the others are suitable either for open air or pot culture.

288. LARGE FLOWERING—The popular fragrant garden variety. 1 foot, ½ lb., 30c.; oz., 15c. 5
289. DEFIANCE—Graceful extra long spikes and very fragrant; stands long after being cut. A splendid variety for florists 10
290. DOBBIE’S GIANT—A robust growing variety, spikes measuring from 14 to 18 inches in length 20
291. BISMARCK—Forms dense bushes covered with thick flower heads of remarkable size and deliciously scented 15
292. GIANT PYRAMIDAL—A splendid large flowered variety 5

</table>
NEMOPHILA
Neat compact growth and striking shades of color, suitable for beds or edgings, grow well in shade.

327. INSIGNIS—H. a., 1 foot. Clear light blue, large flowers, the favorite variety for beds and borders. Pkt. 5c.

328. MIXED—H. a., choice varieties. Pkt. 5c.

Nemophila Insignis, No. 327

NEMESIA h. h. a.
One of the most beautiful annuals ever introduced.

329. SUTTON IMPROVED MIXED.—Flowers large, of brilliant varieties ........................................... 10

NICOTIANA h. a. (Tobacco Plant)

330. AFFINIS—Large pure white tubular-shaped flowers, deliciously scented morning and evening, 3 feet

331. COLOSSEA—H. h. a., 5 feet ........................................... 15
Stately plant, with immense leaves, at first rose and violet, afterwards changing to deep green, with red nerves.

332. SYLVESTRIS—5 feet, with large dark green leaves. Long tubular-shaped pure white flowers droop in circles from strong stems that rise well above the foliage. Sweet scented. A superb plant ............ 15

333. SANDERA—This is one of the very best things introduced in years. Mixed colors ............ 10

334. SANDERA—Dark carmine ........................................... 10

335. SANDERA HYBRIDS—Nicotiana. Sanderae is quite eclipsed by these new hybrids, and the commonest annual is not more easily grown. In the conservatory they produce a glow of colors—pink, violet, salmon, purple, crimson, rose and white—in huge masses all through the spring months. As a cut flower they are charming, lasting well and opening their blossoms in water. They form bushy specimens about 3 feet high, the whole plant laden with flowers from the base to its summit. Collections containing a packet each of the 8 colors, viz., pink, white, purple, dark red, light red, crimson, violet and salmon ............ 40

NEREMBERGIA h. h. p.
(Cup-Flower)
Charming plants for baskets and vases.

336. GRACILIS—Light blue, 1 foot ........................................... 10

337. FRUTESCENS—Flowers white to blush shaded lavender with yellow centre ........................................... 10

NIGELLA h. a.
(Love-in-a-Mist)
Very graceful border plants, the flowers being partially hidden by the curious fine feathery green bracts.

338. MIXED VARIETIES ........................................... 5

NOLANA
A handsome trailing plant. Flowers resemble Convolvulus.

339. MIXED COLORS ........................................... 5

ENOHERA (Evening Primrose)

340. A magnificent large flowering class, white and yellow flowers, 1 to 2 feet, h. a. Mixed varieties... 5

OXALIS h. h. p.

341. ROSEA—H. h. p., 1 foot. Bright rose-colored blossoms and pretty foliage. Good for hanging baskets 10

PASSION-FLOWER
(Passiflora Cenilea Grandiflora)

342. Greenhouse perennial vine, beautiful large violet and blue flowers ........................................... 10

PENTSTEMON
Is a perennial, but won't survive our severe winters, so has to be treated as an annual, and sown early in spring, or by lifting plants in the fall. Cuttings can be taken and planted out in May. Grows from 2 to 3 feet high, with erect and graceful long spikes of tubular-shaped flowers of varied and brilliant colors, and most beautifully mottled and spotted.

343. MIXED COLORS ........................................... 5

344. SPLENDID ENGLISH HYBRIDS ........................................... 10

PETUNIA
The Petunia is one of the most popular and showy of all flowering plants, either in the house or in the open ground. Its exquisite and varied shades of color are equally attractive in large beds, in the mixed border, or in vases. Should be sown early so as to have it flower from May till frost comes.

345. FINE MIXED—Very good quality ................................. 5

346. CHOICE MIXED—Fine strain, very rich mixture .......... 10

347. HYBRIDA GRANDIFLORA—A superb mixture of the choicest single named show sorts. Large flowers of the most brilliant colors ........................................... 25

(Continued over)

POPPY h. a.
Probably the most popular with amateurs of all annual flowers, and deservedly so, as no other plant in our gardens produces a more imposing display of brilliant coloring during the blooming period. They are most effective in masses or borders, and are of the easiest culture.

371. SINGLE PEONY FLOWERED—"MISS SHERWOOD"—Large single blooms of shining satiny white with upper part of corolla chamois rose. Beautiful foliage. Pkt. 10c.
372. CHOICE MIXED—Splendid mixture of single and double varieties. Pkt. 5c.

Primula, Ewing's Superb Prize Strain, No. 386
No. POPPY—Contd. Pkt. cts.
373. NEW JAPANESE POMPONE—1 foot. Flowers are small and double; are produced in great profusion and in beautiful colors. .......................... 10
374. THE SHIRLEY—1½ foot. A single variety of exquisitely shaded colors, ranging from blush white, pink, and carmine to brilliant crimson. A beautiful strain of free growth and exceedingly floriferous. Most graceful of all poppies. .......................... 10
375. CARNATION FLOWERED—A Hardy upright variety, 2 feet high. Large double flowers with fringed petals, mixed. .......................... 5
376. CARDINAL—1½ feet. Double. Dark green foliage. Colors principally glowing scarlet on white ground. .......................... 5
377. WHITE SWAN—2 feet. Forms a bush over which, on strong stems, are produced immense double blooms of pure white. .......................... 10
378. MIKADO—1½ feet. Pure double white, edged and fringed with purple. .......................... 5
379. DANEBROG—3 feet. Brilliant scarlet, blotched with silver white. .......................... 5
380. MURSELLI, DOUBLE (American Flag)—White and orange-scarlet. Fine. .......................... 5
381. TULIP—H. a., 1½ feet. Vivid scarlet, with black spots at base of each petal, resembling a Tulip. .......................... 10
382. LAEVIGATUM COMPACTUM—16 inches. Forms compact bush. The glowing dark scarlet blooms, with central black spots, are carried on slender stems, well above the foliage. .......................... 15
383. PEONY FLOWERED—Produces a profusion of immense double flowers 3 to 4 inches across. A strong grower, 2 feet high. .......................... 5

PORTULACCA h. h. a.
Beautifil little annuals of extremely brilliant colors; make a pretty bed in any sunny situation.

384. GRANDIFLORA, SPLendid DOUBLE MIXED—
½ foot .......................... 10
385. SINGLE FINE MIXED—½ foot .......................... 5

PRIMULA SINENSIS (Chinese Primrose)
For winter decoration Primula Sinensis is one of the most valuable of greenhouse plants.

The following varieties have been saved from the largest and most beautifully fringed flowers only. (Continued over.)
No. | PRIMULA—Contd. | Pkt. cts.
--- | --- | ---
386. | EWING'S SUPERB PRIZE STRAIN—This strain has been saved from the largest flowered and strongest growing plants of the very best named sorts, and showing the finest fringed blooms, as well as the most striking colors | 50
387. | EWING'S SUPERB GIANT BLUE—Fringed | 50
388. | EWING'S SUPERB GIANT WHITE—Fringed | 50
389. | EWING'S SUPERB GIANT SALMON PINK—Fringed | 50
390. | EWING'S SUPERB GIANT SCARLET—Fringed | 50
391. | ALBA MAGNIFICA—Dwarf habit; blooms are beautifully fringed, of great substance and pure white with citron-yellow eye | 50
392. | FERN-LEAVED VARIETIES—Mixed | 30
393. | SUPERB DOUBLE MIXED—Of many beautiful shades, saved from finest double flowers | 50
394. | CHINENSIS STELLATA HYBRIDA—Remarkably beautiful strain of Primulas, and a great acquisition to our decorative greenhouse plants. The plants have a fine and graceful habit, bearing loose pyramids of starry smooth-petaled flowers of beautiful soft shades. Mixed varieties | 50
395. | CHINENSIS (Chinese Primrose)—Fine mixed | 25

OBCONICA (Japanese Primrose)

396. | OBCONICA GRANDIFLORA HYBRIDA—Splendid mixed, ranging from rose to lilac, violet and white, extremely free flowering | 25
397. | OBCONICA GRANDIFLORA GIGANTEA—New Giant—A distinct and very beautiful variety | 50
398. | JAPONICA, or JAPANESE PRIMROSE | 25

RHODANTHE

402. | FINE MIXED—H. h. a., 1 foot. If gathered early the flowers fully expand, is, perhaps, the prettiest of all the "Everlastings." | 25

RICINUS OR CASTOR OIL PLANT h. h. a.

These are remarkable for their large picturesque elegant foliage.

403. | ZANZIBARIENSIS—6 to 8 feet. Large wrinkled leaves of great size and strongly ribbed | 10c
404. | CAMBODGENSIS—5 feet. Large bronze maroon-colored leaves with red veins, the main-stem jet black. An exceedingly attractive plant | 10c
405. | PURPUREUS MAJOR—Purple, 6 ft. | 10c
406. | PANORMITANUS—A cross between Ricinus Cambodgensis and Zanzibariensis gave birth to this splendid hybrid, which inherits its color from the former, and from the latter its gigantic dimensions. This Ricinus when fully developed forms a huge symmetrical bush of wonderfully ornamental aspect. | 30c

407. | BORBONIENSIS—Large handsome dark green foliage, 6 feet. | 10c
408. | NEW SPECIES FROM PHILIPPINE ISLANDS—8 feet. | 10c
409. | SANGUINEUS—6 feet. | 5c

ROSA POLYANTHA NANA (Miniature Fairy Roses)

410. | Forming little bushes covered with dainty little single and semi-double flowers ranging from rose to white, valuable for bedding | 14 1/2

SAINTPAULIA

411. | IONANTHA—Deep blue | 50
412. | RUBRA—Lilac | 50

SALVIA (Flowering Sage)

All very decorative plants.

413. | ARGENTEA—H. h. a., 3 feet. Silver-leafed plant of easy growth. Makes an appropriate edging for beds of Canna or Ricinus. | 5
414. | ROEMERIANA—T. p., 2 feet. Beautiful scarlet | 10
415. | SPLENDENS—T. p., 2 feet. Scarlet, fine | 10

416. | SPLENDENS COMPACTA NANA—A new and very dwarf variety with dazzling scarlet flowers. | 10

417. | GLORY OF STUTTGART—A new brilliant scarlet variety producing large bouquets of bloom | 10
418. | BONFIRE—A splendid compact growing variety about 2 feet high and 2 feet in diameter. Large erect spikes of brilliant scarlet flowers | 15
419. | PATENS—T. p., Handsome erect habit of growth with bright blue flowers | 20

SALPINIOGLOSSIS

A highly ornamental h. a. annual, producing an abundance of funnel-shaped flowers, beautifully veined and marbled, of all shades of color. Highly prized for cutting and is very showy in beds or borders.

420. | FINE MIXED—H. h. a., 2 feet. | 5
421. | VARIABILIS SUPERBISSIMA—H. h. a., 2 feet. A new form, producing one strong stem, which is closely studded with richly veined blossoms, thus giving each plant the appearance of a compact bouquet | 15

SANVITALIA

424. PROCUMBENS—H. a., ¼ foot. Double crimson edged yellow. A pretty creeping plant, suited for edgings of small beds or rockeries 10

SAPONARIA

425. CALABRICA—H. a., 3 inches. Pink 5
426. ALBA—H. a., ½ foot. White 5

SAXIFRAGA

427. CYMBALARIA—Mostly used in hanging baskets or rockwork, its long drooping tendrils suiting admirably for either purpose. Yellow 10
428. SCARLET RUNNERS—½ bush. 20c.

(See Vegetable List—Beans)

SCABIOSA h. b.

(Morning Bride or Sweet Scabious)

429. TALL MIXED—2 feet. Large flowering sorts 5
430. DWARF FINEST MIXED—1 foot. Large flowering sorts 5
431. SNOW WHITE—H. b., 2 feet. The flowers measure about 2 inches in diameter, of the purest white, and very double, with strong stems and luxuriant foliage. 10
432. POMPADOUR—H. b., 2 feet. Produces enormous spherical blooms. The petals are large, black-purple in the centre, and pure white from the centre to the edge 10

SCHIZANTHUS

A dainty plant of easy culture. Interesting and beautiful flowers, useful for pot culture or the border.

433. WISETONOPSIS—H. a. A new Schizanthus of rare beauty. Suitable for pot culture or growing in the open border. May be sown in February and planted out in May. The color of the flowers varies considerably—from almost white with a yellow eye to a full rose with bronze-brown centre, the foliage being most graceful 30
434. GRANDIFLORUS, GARAWAY'S HYBRID—Invaluable for cutting and for conservatories. The plants are absolutely covered with beautiful large flowers of fine form and great range and combination of colors, with many pretty novel shades 75
435. FINE MIXED VARIETIES 5

SEDUM (Stonecrop)

436. COERULEUM—Pale azure blue 10
437. SENSITIVE PLANT (Mimosa Pudica) 5
438. H. h. a., g. 1 foot. Pretty foliage; the leaves close upon the slightest touch 10

SILENE

439. PENDULA DOUBLE DWARF—H. a., ½ foot. Flesh color with an abundance of perfectly double flowers. Forms dense close tufts 10

SINNINGIA REGINA HYBRIDA

440. New. A grand acquisition in greenhouse plants, belonging to the Gesneria family. Blooms larger than those of the Gesneria and not so drooping, and vary in color from light rose to pale and deep lilac, and the wealth of bloom far exceeds and is of much longer duration than the Gloxinia. Blooms borne on long flower stalks, and one of its many merits is that, even before blooming, it is a remarkably fine foliage plant, many of the leaves attaining a size of 5 by 6 inches. Treat same as Gloxinia or Gesneria 50

SMILAX (Medoea Asparagusides)

441. G. P. A much admired greenhouse climber. The glossy green leaves and its length of stem cause the Smilax to be greatly prized for decorative purposes and in the formation of wreaths and crosses 10

SNAPDRAGON—See Antirrhinum

Solanum

442. FINE MIXED—A valuable Everlasting flower, equally prized for summer blooming and winter bouquets 5
443. SINENSIS—New. White with canary yellow. Fine 10

STOKESIA CYANEA

(Blue Cornflower Aster)

444. Invaluable for cutting. Lavender blue blooms 4 to 5 inches across 10

SUNFLOWER (or Helianthus)

A very showy hardy annual of robust habit. The large sorts are splendid for back ground while the small flowered varieties are valuable for cutting.

445. TALL DOUBLE CALIFORNIAN—H. a., 6 feet. Very large double orange flower of perfect form 5
446. GLOBOSUS FISTULOFUS PL. PL. (Golden Globe) —H. a., 6 feet. Enormous very double flowers. A grand sort 5
447. DOUBLE DWARF—H. a., 3 feet. A splendid dwarf strain with large orange flowers 5
448. MINIATURE—H. a., 3 feet. Small single bright orange flowers with black centres produced in great profusion. Branching habit 5
449. MAMMOTH RUSSIAN—A very large flowered sort 5
450. CUCUMERIFOLIUS “ORION”—H. a., 4 feet. Of branching habit and covered with single yellow flowers, dark centres, petals are crisped. A very useful variety for cutting 5

SWAINSONIA

451. GRANDIFLORA ALBA—A popular house plant. Graceful foliage. Pure white flowers resembling Sweet Peas are produced in clusters of 12 to 20. Climbs readily. 1 to 4 feet 10

SWEET SULTAN—See Centaurea.

Ewing's Selected Sweet Peas

The Sweet Pea has been a favorite for a long time, and justly so, as no plant excels it for garden decoration, cut flowers for bouquets, vases, etc., or for its delicious fragrance. Besides all these superlative qualities, it is so easy of cultivation that the amateur can grow it just as successfully as the best professional gardener.

The varieties which we offer separately, comprise all the best sorts in cultivation and about all that are truly distinct, either in color or form. It is well worth the trouble of all who have space enough, to sow Sweet Peas in separate varieties or colors, as, either when growing or when cut, they have much more pleasing and striking effect than when mixed.

THE FINEST LARGE FLOWERED VARIETIES IN CULTIVATION

452. AGNES JOHNSON—Buff-pink. Large flower of perfect form 5
453. AMERICA—Blood-red stripes on white ground 5
454. APPLE BLOSSOM—Bluish white, tinged with pink 5
455. AURORA—Silvery white ground, flaked with salmon 5
No.  SWEET PEAS—Contd.  Pkt. cts.
456.  BLANCHE FERRY—Pink, shaded with white  5
457.  " " EXTRA EARLY—Same color, but ten days earlier.  5
458.  BLANCHE BURPEE—Pure white.  5
459.  BLACK KNIGHT—Deep maroon, self colored  5
460.  BLUSHING BEAUTY—Flesh pink. Fine.  5
461.  BOREATTON—Dark wine color.  5
462.  CAPTAIN OF THE BLUES—Standard light maroon, wings light purple.  5
463.  COUNTESS OF CADOGAN—Delicate lavender.  5
464.  " " CADOGAN—Standard bright shining violet overlaid with sky-blue, wings pure sky-blue.  5
465.  COUNTESS OF LATHOM—Pale pink  5
466.  CROWN JEWEL—Primrose ground, veined with violet  5
467.  DOROTHY TENNANT—Beautiful rosy mauve.  5
468.  DUKE OF CLARENCE—Rosy-claret color.  5
469.  DUKE OF SUTHERLAND—Deep claret and indigo blue.  5

CUPID OR DWARF VARIETIES

Form dwarf bushes 6 to 8 inches in circumference and about the same in height.

509. | WHITE | 5
510. | PINK | 5
511. | ALICE ECKFORD—Standard creamy white, blended with a shading of soft pink; the wings are silvery white with a faint flush in the centre. | 5
512. | PRIMROSE—Rich cream color. | 5
513. | CUPID—Mixed varieties | 5

Please note that the Cupids flower better if started in pots in the house or hot-bed. After being planted out, never neglect watering in dry weather.

SUNDARY SPECIAL VARIETIES

514. | DOUBLE—Mixed colors. About 30 p. c. will come true from seed. | 5
515. | BURPEE'S NEW BUSH—Mixed varieties. A distinct race, of perfect bush form. The flowers are all borne on top of the plant. If planted in rows no supports will be necessary. 1/4 feet | 5

THE "COUNTESS SPENCER" TYPE

Superb New Race of Giant "Orchid Flowered" Sweet Peas

516. | COUNTESS SPENCER—Bright clear pink, showing a little deeper at the edges. The form is open and the margins of the petals are wavy. The blossoms frequently measure two inches across. The stems are long. oz. 30c. | 10
517. | GLADYS UNWIN—Clear, bright light pink, almost self-colored, but a little deeper at the edges. Very large size, open form with wavy edges. It possesses many of the features of Countess Spencer, and belongs in the same class, oz. 25c. | 10
518. | NORA UNWIN—Pure white, and best described as a white Gladys Unwin. One of the finest white varieties yet introduced, oz. 25c. | 10

STOCKS

(Large Flowering)

The Ten Week Stock produces its flowers in spikes of the greatest diversity of color. In large beds, in clumps of two or three plants, in mixed beds, or in rows, it looks splendid. Half-hardy annual.

GIANT PERFECTION STOCK.

(Best variety for open ground.)

Collection 12 separate colors. 1 90
519. | WINTER STOCK BEAUTY OF NICE—New, Under good cultivation plants of this lovely Stock attain a height of 2 to 2 1/2 feet with flower spikes about 1 foot long. All round the central stem are sent out numerous side shoots loosely covered with fragrant flowers nearly 2 inches across. Color is a fashionable delicate shade of fleshly-pink. A grand pot plant and of equal value in the open ground. | 30

No. | LARGE FLOWERING DWARF TEN WEEK STOCK
--- | ---
520. | WINTER STOCK, QUEEN ALEXANDRA—New. This splendid new variety produces flowers of a delicate rosy-like tint of incomparable beauty most useful for cutting. Throws up a centre spike about one foot in length surrounded by numerous side shoots, all covered with beautiful large blossoms. The percentage of doubles is very high, and seedlings come quickly into bloom. For greenhouse decoration is equally valuable as a summer or winter flowering stock. | 30

532. | FINE MIXED COLORS | 5
533. | LARGE FLOWERING PYRAMIDAL—A beautiful variety of pyramidal habit. Produces large spikes of extra large blooms, mixed colors | 10
534. | GIANT PERFECTION—A continuous bloomer, producing extra long spikes of large flowers. Splendid for cutting, mixed colors | 10
535. | VICTORIA BOUQUET—Mixed colors. Forms a natural bouquet of pyramidal shape, the lateral branches being symmetrically arranged round the main stem | 10
536. | GIANT WHITE PERPETUAL—A beautiful variety producing one enormous spike, 2 1/2 feet high, of pure white flowers | 10
537. | EAST LOTHIAN INTERMEDIATE—Of strong compact bushy habit, produces splendid spikes of bloom which remain perfect for a lengthened period. H. h. b. for greenhouse culture | 10
538. | SNOWFLAKE or EARLY WHITE—Is the earliest white of all, and is admirably adapted for forcing | 10

(Continued over.)
STOCKS—Contd.

539. PRINCESS ALICE (Dresden Perpetual)—"Cut-and-come-again." Beautiful large pure white spikes, is early and a profuse bloomer. Valuable both for forcing and open air culture. 10

Princess Alice (Dresden Perpetual), No. 539

THUNBERGIA

540. FINE MIXED—H. h. a., climber. Is admirably suited for trellis work or hanging baskets. 10

TORENIA

541. FOURNIER—T. a., A fine plant, either for hanging baskets or pot culture. Flowers are large, sky-blue in color, spotted with indigo blue. Will keep in flower from June to September. 15

TROPAEOLUM

One of the best annual climbers, and a freer flowerer than the Tall Nasturtium.

542. CANARIENSE or CANARY BIRD FLOWER—Beautifully cut leaves and yellow flowers. Hardy climber. 5

543. LOBBIANUM—Mixed Hybrids. 5

VERBENA

The Verbena is deservedly a great favorite, and no plant excels it in beds or borders. sow in a hot-bed or in boxes in the house, and prick out plants into small pots when two or three inches high, and afterwards plant out where intended to bloom.

544. A CHOICE MIXTURE OF BEST COLORS. 5

545. CHOICE LARGE FLOWERING HYBRIDS—Mixed. Sired from best varieties. A splendid strain. 10

546. DEFIANCE—The popular dwarf scarlet bedding variety. 10

547. HYBRIDA COMPACTA—Mixed colors. 15

Compact plants of five inches in height, completely covered with beautiful blooms.

MAMMOTH STRAIN is a splendid sort, producing immense flowers in great profusion.

548. CHOICE MIXED. 15 549. WHITE. 15

550. PURPLE SHADES. 15

551. DARK SCARLET SHADES. 15

552. VENOSA—12 inches. A bedder of erect habit. Flowers are bluish purple with a metallic tinge that glistens in the sun. Continues in bloom all summer. 5

No. 553. SWEET SCENTED VERBENA (Aloysia citriodora)—A woody plant for house culture. 10

VENUS' LOOKING GLASS

Remarkably pretty free-flowering annuals, for small beds, baskets, vases, rockwork and borders.

554. MIXED COLORS—H. a., ½ foot. 5

VINCA

(Madagascar Periwinkle)

A beautiful plant for conservatory.

555. ROSEA—Mixed, t. p., 2 feet. 10

VIRGINIAN STOCK

556. MIXED COLORS—H. a., 9 inches. A pretty little sweet-scented annual; the flowers completely hide the foliage; nice for beds or edgings. It blooms very early. 5

VISCARIA

557. MIXED COLORS—H. a., 1 foot. 5

An extremely pretty bedding annual, of compact growth. Both foliage and flowers are beautiful.

WALLFLOWER

A very old friend in English gardens, and should be grown more extensively than it is. The flowers are borne in spikes and are very fragrant.

558. SINGLE—Mixed colors. 5

559. DOUBLE—Splendid mixture of all sorts. 10

560. PARIS EARLIEST—H. a. This variety if sown in spring will bloom throughout the summer and fall. 5

Choice Large Flowering Verbena

Flowers the second year.

CHOICE HARDY PERENNIAL FLOWER SEEDS
HARDY PERENNIALS ARE BECOMING MORE POPULAR FROM
great variety of form, both in flowers, foliage and height, their loveliness
cutting. There are varieties of the most stately growth and striking
found in any class of flowering plant, while those, like the Pansy or the
found in any of the aggressively showy plants used generally in bedding,
different varieties come into bloom.
In the open ground, Perennials should be sown either in May or
transplant into the permanent borders in September and will bloom
bed 4 feet in width, or 8 feet with a path in the middle, in a sunny situation,
or, at all events, not in the shade of trees, and if the soil is heavy, lighten it with sand and leaf mould, and rake perfectly smooth. Sow
seeds according to the accompanying table, and thin to admit of weeding or thinning out the rows. After seeds are sown
given after sowing, and will also prevent heavy rains from washing out
in making selections.

Note that on page— we offer an extensive assortment of HARDY

583. ACHILLEA, Patrma Flore Pleno—"The Pearl."
2 feet. July-September. Double pure white
flowers; very numerous and fine for cutting .... 10
584. ACONITUM, Napellus (Monk’s Hood)—Bluc, 3½ ft.
July-August ............................................. 10
585. ADENOPHORA, Potanini—Bears lovely pale blue
bell-shaped flowers. A valuable border plant ... 25

YEAR TO YEAR, but this is not to be wondered at when we consider their
of bloom and wonderful effectiveness alike in borders or beds, and for
foliage and flowers, others are of the most chaste and beautiful hue to be
Daisy, have a modest beauty that is all their own, and which is not to be
in a perennial border every day brings to view something new as the
June. Some may flower the same year, but all will be strong enough to
the succeeding season. To raise perennials from seed prepare a
bed in shallow drifts, six inches apart, and four feet is long enough
cover with a thin layer of straw or grass, which will retain the moisture
the seeds. We give the approximate time of flowering, which will help

PERENNIAL PLANTS FOR SPRING PLANTING.
586. ADONIS, Vernalis—Bright star-shaped yellow
flowers, 2 inches in diameter. 1 foot. May-June. 5
587. ADLUMIA, Cirrhosa (The Allegheny Vine)—A
perennial climber of very graceful habit, with
flesh-colored flowers ................................ 5

Digitalis (Fox Glove)

682. ALBA—3 feet. Large flowered, white 5
683. PURPUREA—3 feet. Large flowered, ranging from bright rose to purple-rose 5
684. CANARIENSIS—3 feet. Beautiful yellow 10
685. GLOXINIAEFLORA—3 feet. Spotted large flowered sorts of many shades 5
686. IVERYS—A superbly spotted strain, containing all the best shades of color 10
687. MONSTROSA—A magnificent giant strain, each spike is surmounted by a large, flat saucer-shaped bloom 10
688. FINE MIXED—Of many shades 5

689. DODECATHEON, Meadia (American Cowslip)—1 foot. Long spikes of Cyclamen-like flowers. Pale purple to pinkish. June 10
690. DORONICUM, Caucasian—1½ feet. Large yellow flowers. June 15
691. DRACOCEPHALUM, Rupprecht—1 foot. Blue. July 10

The Delphinium is one of the most imposing of hardy perennials, producing long spikes of flower, and the most gorgeous shades of color, blue of various shades predominating. It is of easy culture, but its real beauty can only be seen when special attention is paid to the cultivation and manuring of the soil.

Makes particularly striking groups on the lawn or in mixed borders. June-July.

The Digitalis or Fox Glove produces a mass of broad, dark green root-leaves from which the handsome flower spikes spring. These 3 feet long stems are closely studded with drooping bell-shaped flowers, producing a fine bold effect in almost any position. July-August.
WILLIAM EWING & CO.'S SEED CATALOGUE

No. 592. DRACOCEPHALUM, Ruyschianum Japonicum—2 feet. Produces pretty spikes of small fragrant dark blue flowers. July...

No. 593. ECHINACEA, Purpurea—(Rudbeckia) 2 feet. Reddish-purple flowers, with black cone-like centre, 4 feet. August.

No. 594. ECHINOPS, Ritro—4 feet. Large round pale-blue flower heads; a grand plant for borders and shrubberies. September...

No. 595. EREMURUS Himalicus—6 feet. Creamy white blooms with golden anthers on spikes often 2 feet long. Requires protection in winter...

No. 596. EREMURUS, Robustus—Of the same habit of growth as preceding, but with flesh-colored flowers...

No. 597. ERIGERON, Hybrdis Roseus—1 foot. All summer. Charming rose-colored daisy-like blooms with yellow centre...

No. 600. ERYNGIUM, Amethystinum—1 1/2 feet. Blue. Pkt. 10c.

No. 601. ERSYUM, Pulchellum—1 1/2 feet. Yellow. May. Pkt. 5c.

No. 605. FERULA, Gigantea (Giant Fennel)—Pale yellow. A giant ornamental species. 6 feet. August...

No. 607. FUNKIA—A beautiful border plant, various sorts in mixture, ½ foot. July—August.

GAILLARDIA

The Gaillardia is unrivalled for its beauty and continuous flowering. Is of great value for bouquets, and is very hardy.

No. 608. GRANDIFLORA—Very large handsome yellow flowers with crimson ring. 24 inches...

No. 609. COMPACTA—Large deep scarlet flowers edged with golden yellow. 1 foot...

No. 610. GRANDIFLORA FOLIIS AUREO VARIEGATA—This new variety differs only from the well-known large flowered perennial Gaillardia in its beautiful golden variegated foliage...

No. 611. GRANDIFLORA SEMI-PLENA—New. Grows about 2 feet high, with long wiry flower stalks, crowned with giant blooms measuring nearly 4 inches across. The ray florets are often placed in two or three rows above each other, hence its name of semi-double. Colors range from light to golden yellow, in many cases tinged with claret color, with which the maroon red of the disc florets forms a brilliant contrast.

Incarvillea Delavayi, No. 750
**HOLLYHOCK**

The stately growth and magnificent flower spikes of the Hollyhock render it a most striking and effective plant either in groups or in the back rows of herbaceous borders. July-August.

**CHATER’S SUPERB PRIZE STRAIN**

Finest double prize varieties.

730. **WHITE AND CARMINE.** Pkt. 15c.

731. **WHITE AND PURPLE.** Pkt. 15c.

732. **PURE WHITE.** Pkt. 15c.

742. **FINE DOUBLE MIXED VARIETIES.** Pkt. 10c.

743. **HOP—** Well known hardy climber. Pkt. 5c.

744. **HOP—** Japanese. Pkt. 10c.

745. **HYACINTHUS, Cannicans—** 2 feet. Pure white, drooping funnel-shaped flowers; very fragrant, August. Pkt. 5c.

---

Inula Grandiflora Glandulosa, No. 751

---

747. IBERIS (Perennial Candytuft) Sempervirens—1 foot. Snowy white, very fine. 5

748. IBERIS (Perennial Candytuft) Gibraltarica—1 ft. Large flowers, varying from pale lilac to blush, fine. These Perennial Candytufts flower profusely; are useful for cutting; and satisfactory whether grown in beds or borders. May-June.

749. INCARVILLEA, Variabilis—3 feet. A new and rare shrubby perennial forming fine branching bushes, bearing an abundance of charming rose flowers. 15

750. INCARVILLEA, Grandiflora—1 to 2 feet. A grand hardy perennial with large Gloxinia-like blooms ranging from rose to carmine with golden yellow throat and graceful foliage. Equally valuable for the greenhouse or outdoor culture. 2 feet. 25

751. INULA, Grandiflora Glandulosa—2 feet. Pkt. 25c.

752. LEONTOPODIUM, Alpinum (Gna—philium Leontopodium)—This is the “Edelweiss” of the Alps. The flowers are star-shaped, silvery white, woolly, and are “everlasting.” Much prized for cutting. Pkt. 25c.

753. LEUCANTHEMUM—See Chrysanthemum.

754. LIATRIS Spirota (Blazing Star) —2 feet. Pkt. 10c.

755. LINUM (Flax) Flavum—1 foot. Yellow. 5

756. LINUM (Flax) Perenne—2 feet. Intense blue August. 5

757. LIGULARIA, Macrophylla—3 feet. Yellow spikes 15

758. LINARIA, Alpina—4 inches. Purple and orange. 15

759. LINDELOFIA, Spectabilis—1½ feet. Showy border plant. Bears clusters of rich purple flowers. August. 5

760. LOBELIA, Cardinalis Nanseniana—25

A new hardy perennial. Is of strong though dwarf growth, with a profusion of brilliant crimson-purple flowers, contrasting well with the dark foliage.

761. LOBELIA, Cardinalis—2 feet. Crimson-scarlet. July-September. 25

762. LUPINUS, Polyphyllus—4 feet. Mixed. June-July 15

763. LUPINUS, Arboreus (Yellow Tree Lupin)—Yellow, 3 feet. June-July. 10

Lupins are of easy culture and the seed should be sown where intended to bloom, as they are troublesome to transplant. Are amongst the showiest of summer flowering plants, and their long spikes of richly colored blossoms are specially adapted for mixed borders.
WILLIAM EWING & CO.'S SEED CATALOGUE

LYCHNIS

Lychnis should be included in all perennial collections. The large glowing flowers of the Chalcedonica varieties are striking. "Haageana" is remarkably showy and stands long after being cut.

764. CHALCEDONICA—Brilliant scarlet, 3 feet. June-August. 5
765. CHALCEDONICA, Alba.—White. 3 feet. June-August. 5
766. CHALCEDONICA—Mixed colors. 5
767. HAAGEANA HYBRIDA—2 feet. Mixed scarlet and white. June-August. 10

768. LYTHRUM, Roseum Superbum—3 feet. Long spikes; rose. August-September. 5
769. MALVA, Moschata (Musk Mallow)—2 feet. Rose and white. July-September. 10
770. MATRICARIA, Exima Nana, "Golden Ball"—1 foot. Yellow. June-July. 15
771. MERTENSIA, Siberica—15 ins. Purple. June. 15
772. MICHAUXTIA, Campanulata—4 feet. White, tinged purple. Summer. 10
773. MONARDA, Didyma—3 feet. Scarlet. June-Aug. 25
774. MONARDA, Hybrida—Mixed colors. 10
775. MONTBRETTA—Mix-d, 2 feet. Different shades of orange. July-September. 10

MYOSOTIS—FORGET-ME-NOT

Myosotis Alpestris and Dissitiflora are all large flowering Forget-me-nots, and also of erect, stiff growth.

777. ALPESTRIS TRIUMPH—A very large flowering variety. blooms 8 to 10 weeks after sowing. Bright blue flowers. 1 foot. 25
778. ALPESTRIS, Strepta Rose—Straight pillar-like habit, striking and fine pink. 10
779. DISSITIFLORA—Large deep clear blue flowers. 6 inches. May-June. 15
780. DISSITIFLORA, Alba—Very beautiful pure white. 6 inches. May-June. 15
781. FINEST MIXED VARIETIES (Forget-me-not)—May-June. 5

No.  Pkt. cts.
826. PRIMULA, Cortusoides—9 inches. Deep rose. May-June. ..................................... 10
827. PRIMULA, Hybrida—Large flowering hardy variety .................................................. 25
828. PRIMROSE—4 inches. Yellow. May-June .............................................................. 10
829. PRIMROSE, Irish—In many colors. 4 inches. May-June ........................................ 25
830. PRIMROSE, New Hybrids—Blue. June ................................................................. 25

The blooms of the latter (carried well above the foliage) are of many beautiful shades of blue, from pale lavender to deep violet.

831. PRUNELLA, Grandiflora—6 inches. Violet. Summer ............................................... 5
832. PYRETHRUM, Single Mixed Hybrids—2 feet .......................................................... 10
833. PYRETHRUM, Double Mixed Hybrids—2 feet. June-August .................................. 25

834. PYRETHRUM, Roseum Hybridaum Grandiflorum—
A grand strain of this fine hardy perennial, producing blooms 3 inches in diameter, and includes all the beautiful colors, ranging from richest carmine to delicate light rose ........................................ 30

Pyrethrums are quite hardy, and few herbaceous plants surpass them for effect in the mixed border or for cut flowers.

835. ROCKET, Sweet—2 feet. Sweet-scented. All summer. Mixed colors ....................... 5
836. ROMNEYA, Coulteri—The Giant White Californian Poppy. Produces in summer large snowy white crinkled flowers, 4 to 5 inches in diameter with golden yellow stamens, of delicate perfume; glistening deeply cut foliage. 3 feet .................................................. 15
837. RUDBECKIA, Neumanni—3 feet. Golden yellow with black centre. August-September ........................................ 20
838. RUDBECKIA, Californica—5 feet. Yellow with brown centre. September ................ 10
839. RUDBECKIA, Bicolor Superba Semi-Plena—
A splendid semi-double variety with neat yellow flowers spotted with brown ................ 25
840. BICOLOR SUPERBA—H. h. s., 2 feet. Branching habit, producing an abundance of blooms on long stems, with brown discs, while the ray florets are yellow, with velvety spots at the base ........................................ 15

841. RUDBECKIA, Fulgida Variabilis—New. A new hardy perennial of remarkable beauty. Plants grow 3 feet in height, are of bushy habit with long flower stems, and are literally covered with flowers of the most varied and unique markings. Blooms vary in size from 2 to 3½ inches in diameter. Ground color is yellow or bronze, some being striped with purplish-brown, while in others the petals are brown half way, then yellow, finally again merging into brown. Keeps in flower all summer. 30

842. SAPONARIA, Ocyoides Splendens—Valuable early summer plant for rockwork, producing sheets of vivid crimson flowers, 2½ feet. May-August .................................................. 5
843. SAXIFRAGA, Umbrosa—1 foot. Rose. June-July ..................................................... 25
844. SAXIFRAGA, Mixed Varieties—15 inches. May-June .............................................. 10

S. Umbrosa under the name of "London Pride," or "None-so-pretty," is an old country favorite, hardy border perennial. Very graceful.

Scabiosa Caucasia

845. SCABIOSA, Caucasia—1 foot. Large flowers of soft lilac-blue. A lovely hardy perennial. July-September .................................................. 10
846. SCABIOSA, Caucasia Perfecta—A fine showy, hardy perennial, the handsome flowers bearing 3 to 4 rows of finely fringed ray florets, the colors being various shades of lilac ........................................ 30
847. SCABIOSA JAPONICA—New. A hardy perennial from Japan, forming bushy plants 2½ to 3 feet in height, bearing on long, wiry stems beautiful lavender-blue flowers 2 to 2½ inches across, and blooming from the end of June until late in autumn. Fine for cutting .................................................. 30
848. SCUTELLARIA, Alpina—1 foot. Purple, lower lip yellow. August .......................... 5
849. SEDUM, Aizoon—4 inches. Yellow. June ............................................................... 10
850. Sidalcea, Candida—3 feet. Large pure white flowers. July-August ......................... 10
851. Sidalcea, Listeri—Tall graceful spikes of delicate pink flowers, beautifully fringed. 3 feet .................................................. 30

SWEET WILLIAM.

Sweet William is an old favorite: hardly any plant presents a gayer appearance, either in beds or in clumps. It has large heads of bloom, is quite hardy and flowers early. It should be much oftener seen than it is. We strongly recommend it, and have taken pains to procure a grand strain of seed.

BEDDING PLANTS

Good-sized carefully grown, well hardened off plants ready for planting out any time in May.

ALTERNANTHERA, ACHYRANTHUS, AGERATUM, COLEUS, LANTANA, LOBELIA, PYRETHRUM, PANSY, SINGLE PETUNIA, SINGLE GERANIUM, VERBENA, ETC.

Price $1.00 per dozen. 10c. each.

SALVIA, CANNA, VARIEGATED GERANIUM, FUCHSIA, HELIOTROPE, DOUBLE PETUNIA, DOUBLE AND SINGLE GERANIUMS, LANTANA, ETC.

Price $1.50 per dozen. 15c. each.

ALL LARGE PLANTS—For Seedling Plants see page 69.
Summer Flowering Bulbs

When each accompanies order, Bulbs are sent by Mail, post-payed, except where otherwise stated.

AMARYLLIS, FORMOSISSIMA—10c. each; $1 per doz. Rich blood crimson flowers. Adapted for pot culture, but will do well in a sunny border outside.

AMARYLLIS, JOHNSONI—Large crimson flowers, striped with white; 75c. each.

AMARYLLIS, BELLADONNA MAJOR—Silvery white turning to rose; 50c.

TUBEROUS-ROOTED BEGONIA

The Tuberous-Rooted Begonia, though valuable for pot culture and greenhouse decoration, is even more so for bedding out. The bulbs should be started either in the house or in a hot-bed, in pots, so as to be near the flowering stage by the end of May. This is time enough to plant them in the open ground, and in an ordinary season they will flower steadily from then till frost comes, and no plant makes a gayer or more attractive bed. The single flowers are large and numerous and of the most varied colors and delicate tints, and the same is true of the double varieties, which form perfect double rosettes. Soil should be rich but not damp or too heavy, and they succeed best in a position that is shaded from the mid-day sun. Watering must be closely attended to. Lift the bulbs before the frost sets in, and store in a cool cellar, and start in pots to be ready to plant out in spring again.

**SINGLE VARIETIES**, in separate colors, **Scarlet**, **White**, **Yellow** and **Rose**; 10c. each; 80c. per doz. **Mixed Varieties**, 10c. each; 70c. per doz.; $5 per 100.

**DOUBLE VARIETIES**, in separate colors, **Scarlet**, **Rose**, **Red**, **Yellow** and **White**, 20c. each; $1.60 per doz. **Mixed Varieties**, 15c. each; $1.50 per dozen.

**GLADIOLUS**

Prices of Gladioli are post-paid when each accompanies order, excepting by the hundred. The 100 rates do not include carriage or postage. Special prices to large buyers.

The Gladiolus is one of the most desirable of Summer Flowers. The blooms are of the greatest brilliancy and diversity of color, and costs less money for the display made from July to October (when making successive plantings), than any other Flowering Bulb. Plant 6 inches deep in rich soil, any time in May. Take the bulbs up in October and store over winter in a cool, dry cellar. A bed of a hundred or more is a grand sight. Our Mixed Gladioli are all first size bulbs, and will flower well the first season.

**CHOICE MIXED**—All colors. 25c.; $1.25

**PINK and ROSE**—Mixed... 35c.; $2.00

**YELLOW and ORANGE**—Mixed. ......... 50c.; 3.50

**SNOW WHITE**—Each 15c.; per doz. $1.75.

**BUTTERFLY, LEMAINE'S HYBRIDS**—Per 100 $2.25; per doz. 40c.; each, 5c. Large blotches on lower petals. Colors are striking, ranging from rich yellow to dark crimson.

**CHILDSI**—Finest mixed. Each, 10c.; $1.00 per dozen.

Of branching habit and grows from three to four feet. Flower spikes are sometimes 2 feet in length with extraordinary large flowers.

**GROFF'S NEW HYBRIDS**

Mr. Groff, after years of hybridizing the best varieties of the best classes of Gladioli and carefully discarding all flowers not reaching the highest standard of excellence, has succeeded in raising a new race of this gorgeous flower, altogether in advance of what has been, hitherto in size of spikes and brilliance and diversity of colorings. We are safe in saying these new hybrids are far superior to any Gladiolus ever offered in Europe or America, and many of the colors have never before been thought possible to be produced in Gladioli. Groff's exhibit of Gladioli was a leading floral feature of the great St. Louis Exhibition, as nothing had been previously seen at all comparing with it.

**GROFF'S WORLD'S FAIR COLLECTION**—This new collection is prepared by Mr. H. H. Groff, from high-class novelties of recent introduction and undoubtedly merit.

It contains only a few hundred varieties, specially selected from the cream of the best sorts, to meet the demand for a limited number of **Extra Choice Types**, rather than a collection of great range of variety, of every bloom will be the very best.

**GROFF'S SELECTED PAN AMERICAN EXPOSITION COLLECTION**—Is made up from the choice new varieties exhibited at Buffalo, in 1901. The combinations of colors are endless, embracing the best productions of the most brilliant and the same time delicate tints and striking contrasts of intense and vivid colors, practically unknown commercially. Flowers are of the largest size, spikes correct in form and plants of exceptional vigor. Per 100, $7.00; doz. $1.25; ea. 15c.

**GROFF'S SELECTED NEW DARK HYBRIDS**—Dozen, 75c. **GROFF'S SELECTED NEW BLUE HYBRIDS**—Dozen, $1.00.

**GROFF'S FLORISTS, WHITE AND LIGHT**—The best value in light mixture ever offered. Per 100, $3.00; per dozen, 50c.
SUNDRY BULBS

CALADIUM ESCULENTUM—Extra size. 25c. each; $2.50 per doz.; large size bulbs, 15c. each; $1.25 per doz. If ordered by mail, add 3c. each for postage. A most effective bright green foliage plant. Start in hot-house and transplant into rich soil and water freely. CANNA—(Also see Plants). Dry bulbs, each 10c.; dozen $1.00. Start in a hot-bed or in pots in the house.

CINNAMON VINE (Dioscorea Batsas)—Bulbs, 5c. each; 50c. doz. Hardy climbing bulbous rooted plant which dies to the ground every fall, starting in spring again and growing 8 to 10 feet high. Leaves are heart-shaped, with small, white flowers. Perfume resembles cinnamon. MADEIRA VINE—A sweet-scented climber useful for porches and arbors. Store roots before frost comes and plant out in spring. Per doz. 40c.; per 100 $2.25.

TUBEROSE, DOUBLE EXCELSIOR PEARL—Each 5c.; dozen, 50c. post paid; $2.00 per 100 by express or mail at purchaser's expense. Delightfully fragrant pure white flowers. Bulbs planted in open ground about the middle of May will bloom in September, but it is preferable to start them in the house or in a hot-bed.

GLOXINIA—A charming summer blooming pot plant, each 15c.; doz. $1.50.

IRIS—See Hardy Perennial Plants.

LILIES

LILIUM LONGIFLORUM—A variety bearing in clusters beautiful snow-white trumpet-shaped flowers of great fragrance, and like Lilium Harrisii in shape, but blooms later, extending the season of that beautiful variety. This is also a splendid variety for outdoor planting, being perfectly hardy. 7 to 9 inches in circumference at 90c. per doz., 10c. each; 9 to 10 inches in circumference, $1.50 per doz., 15c. each; 10 to 12 inches in circumference, $2.00 per doz., 20c. each.

LILIUM LONGIFLORUM—(Azores grown). 7 to 9 inches in circumference, $2.00 per doz., 20c. each; 9 to 11 inches in circumference, $4.00 per doz., 40c. each.

AURATUM—Large white flowers, the petals of which are delicately spotted with crimson and striped with pale gold color. 7 x 9, $1.00 a doz., 10c. each. 9 to 11 inches circumference, $1.50 per doz., 15c. each. 11 to 13 inches circumference, $2.50 per doz., 25c. each.

SPECIOSUM ALBUM—One of the most beautiful of all lilies of the Speciosum type, with flowers of the purest white, 3 feet. 8 x 9, $1.50 per doz., 15c. each. 9 x 11 at $2.00 per doz., 20c. each.

SPECIOSUM RUBRUM—Pure white ground, heavily spotted with crimson, 3 feet. 8 x 9, $1.00 per doz., 10c. each. 9 x 11, $1.50 doz., 15c. each.

SPECIOSUM MELPOMENE—Very large flowers, rich blood crimson, spotted. 9 x 11, $1.50 per doz., 15c. each.

BROWNII—One of the best hardy varieties, with large flowers, pure white inside and chocolate colored anthers, outside brownish-purple, height, 3 feet. Price, extra large size, $3.00 per doz., 30c. each.

CALLA LILY, WHITE (or Lily of the Nile)—$2.50 per doz. 35

CALLA LILY, SPOTTED (Richardia Alba)............. 35c.

A splendid pot plant. Attractive even when not in bloom. Leaves are rich green, beautifully spotted with white.

Garden and Greenhouse Plants

Prices quoted for plants do not include postage or express freight. Price each

ASPARAGUS PLUMOSUS.......................... 40c. to $1.00

ASPARAGUS SPRENGERI......................... 40c. to 1.00

Two of the finest decorative plants, and valuable not only for their elegant and graceful foliage, but for their durability when cut.

ARALCUCARIA EXCELSA—(Norfolk Island Pine). $1 to 2.00

Unrivaled for symmetry of form and grace and beauty of foliage.

BEGONIA—(Gloire de Lorraine) and all of the best varieties. 50c. to $2.00

CYPERUS ALTERNIFOLIUS—(Umbrella Plant). 25c. and 75c.

DRACAENA INDIVISA—(Fountain Plant). 25c., 50c. and 75c.

FERNS—(For house cultivation). 15c. to $1.50

We offer a selection of all the most suitable varieties. Healthy plants.

BOSTON FERNS.............................. 75c. to $2.50

FICUS ELASTICA—(Rubber Plant). 75c. and 2.00

A useful and highly ornamental plant that will flourish under adverse circumstances.

PRIMULA, Single and Double, and all other plants suitable for parlor decoration.

PALM, ARECA LUTESCENS—From........ $1.50 to 2.50

This majestic palm is without a rival for grace and elegance.

PALM, COCO S WEBBDEIANA........... 75c. to $1.50

Unexcelled for dinner table decoration. Exceedingly graceful.

PALM, KENTIA BELMOWREANA—
The Kentia class of Palms are among the very best for general cultivation, and are probably the most exempt from disease. Belmoreana is one of the best in its class. $1.00 to $3.50 each.

PALM, LATANIA BORONICA—
A palm possessing a strong constitution and other characteristics that make it a general favorite. $1.00 to 5.00 each.

CANNA, New Large Flowering French Varieties—Comprising the best and new sorts. 25c. each; $1.50 to $2.00 per doz. according to size and variety.

CARNATION—Collection comprising all the best named varieties; 15c. each; $1.50 per dozen.
The following list of Dahlias are offered dry bulbs. If started plants are required, add 25 p.c. to list prices.

PEONIA—Carmine.
PERLE DES BLANCHES—White.
PERSIAN YELLOW.
PIERRE NOTTING—Violet red.
PRINCE CAMILLE DE ROHAN—Fiery red.
ULRICH BRUNNER—Red cerise.
WHITE MOSS, etc. Province (or Cabbage Rose)—White or red.

THE BABY RAMBLER

Or Crimson Rambler in Bush Form.

"Everblooming from June until late frosts."

This is without doubt the most important addition to the list of bedding roses. Similar to the Crimson Rambler in every respect, but instead of climbing the plants form dwarf compact bushes, 24 to 30 inches high. Is perfectly hardy and never attacked by disease or insects. As a forcing rose it outclasses the Crimson Rambler, and indoors will flower the year round. Strong heavy 2-year-old plants, 60c. each; good young plants in 3 inch pots, each 30c.; doz. $3.

CLIMBING AND PILLAR ROSES

Most of these climbing roses can also be grown in bush form. Each

PERSIAN YELLOW........ 40 RUGOSA RED ........ 40
QUEEN OF THE PRAIRIES........ 40 RUGOSA WHITE ........ 40
BALTIMORE BELLE........ 30 RUGOSA PINK ........ 40
Rosa Rugosa "Nov Zamba"—We have pleasure in introducing the most beautiful new Rose. It is a grand acquisition, and without doubt will soon be in great demand.

It is of strong vigorous habit and perfectly hardy. The blooms are pure white, very fragrant and early.

Is a sport from the well-known Rugosa, Conrad Ferdinand de Meyer. $1.00

CRIMSON RAMBLER—3-year-old plants, 50c.; 1-year... 25

One of the best hardy climbing roses. The flowers come in immense trusses of a rich glowing crimson. Shoots grow 8 to 10 feet in a season, and can either be pegged down or trained in any shape desired.

YELLOW RAMBLER-AGLAIA—3-year-old plants, 50c.

Each; 1-year... 25

The yellow flowering only differs from Crimson Rambler in its color.

WHITE RAMBLER-THALIA

75

" " Smaller plants. 50

Produces great clusters of pure white. Blooms just as profusely as the Crimson Rambler, which it resembles in every respect excepting color.

Collection of the 4 "Leading Hardy Ramblers," Crimson, White, Pink, and Yellow, $1.75.

(Continued over)
ROSES—Contd.

NEW ROSE KARL LEUCKSTERN—A very rapid grower after the style of C. Rambler. The blooms are single, in clusters, but of the most delicate shade of apple blossom, from which it is hard to distinguish it at a distance. 3-year plants. ........................................ 60

EMPERESS OF CHINA—(Strong worked plants). ............... 40
A true ever-blooming hardy climbing rose that will make a growth of 10 to 12 feet in a season. Flowers are similar in color to apple blossoms.

MARECHAL NEIL .............................................. $1.50 to $2
We are importing a stock of specially prepared extra strong plants of this fine variety, suitable for walls and rafters of conservatories, etc. Shoots 8 to 10 feet in length.

TREE OR STANDARD ROSES

In varieties as stated in Hardy Perpetual List. Each 75c. and $1.00.

TEA OR MONTHLY ROSES

Each

MAMAN COCHET—Carmine colored and tinged with salmon-yellow. Strong plants. Per doz. $3.00 ........ 30
GLOIRE DE DIJON—Yellow, salmon shaded .......... 40
MARIE VAN HOUETTE—Lemon, tinged with rose. ....... 40
CLOTHILDE SOUPERT .......... Per doz. $2.50 25

Perfectly double, pearl-white, with rose-pink centre.

SWEET BRIARS

LORD PENZANCE—Fawn and cream .......................... 40
LADY PENZANCE—Soft copper tint .......................... 40
THE OLD ENGLISH VARIETY ............................... 40

AND ORNAMENTALS

Hardy Flowering Shrubs do not receive the attention that their importance merits, for, in the embellishment of Flower Gardens, Lawns and Pleasure Grounds, they play a most important part in producing a pleasing effect by their variety of form, the beauty of their flowers and the different seasons at which they bloom. In many cases they are simply planted to fill up some old corner, where nothing else will grow, whereas they deserve the most prominent positions and careful culture, and that they will repay a thousand fold. Prices are according to the size of the Plants.

ABIES PUNGENS GLAUCA—One of the most beautiful and hardiest of all the Spruces. The foliage is rich blue or sage color, and of very dense growth. Suitable for lawns or tubs. Average 3 feet, $3 each. 5 feet, $5.00.

ABIES PUNGENS GLAUCA—“Lunenmanni,” 3 feet. $3 each.

AMORPHA FRUTICOSA—Grows 6 to 7 feet in a season. Large cone-shaped purple blooms, resembling those of Hydrangea Paniculata in form. 50c. and 75c. each.

BERBERIS COMMUNIS (Barberry)—25c. and 50c. each.
Red berries.

BERBERIS COMMUNIS PURPUREA—25c. and 50c. each.
Dark purple leaves.

BERBERIS THUNBERGII—30c. and 50c. each. Berries bright red. Leaves become scarlet in fall.

BOXWOOD (Standard or Tree-shaped Box)—According to size, per pair $4, $6, $8.
An unexcelled variety for lawn decoration.

CALYCANthus FLORIDus, or American Alspice—30c. and 50c. each. Sweet-scented.

CLETHRA ALNIFOLIA, or Sweet Pepper Bush—25c. and 50c. each. July to September.

CORNUS (Dogwood), in variety—25c. and 50c. each.

CYDONIA JAPONICA (Japan Quince)—30c. and 50c. each. Deep scarlet. Flowers in May. 3 feet.

DESMODIUM PENDULIFLORUM—50c. and 75c. each.
A profuse bloomer, with pretty rose colored flowers covering the bushes from August till frost comes.

DEUTZIA GRACILIS—White. 25c. and 50c. each.

DEUTZIA HYBRIDA EMOINEII—New. 30c. each.
Its pure white flowers are borne on stout branches of upright growth. It is a particularly free flowerer, far surpassing the older varieties in this respect.

JUNIPERUS (Juniper) Hybrina Erecta—Of compact bushy growth. An admirable ornamental plant for tubs on the lawn. 2 feet, 75c. each; 3 feet, $1.00 each.

LILAC—White and many other colors assorted. 25c. and 50c. each.

LILAC, CHARLES THE 10TH—New. Purple. 60c. each.

LILAC, MARIE LE GREY—New. White. 60c. each.
These latter two are the best Lilies in cultivation for forcing; we can furnish strong dormant plants, well set with buds and ready for immediate use.

LILAC, DOUBLE “MARIE LE MOINE”—White. 75c. each.

LILAC, DOUBLE “MADAME CASSIMIR PERRIER”—Purple. 75c. each.

(And many other varieties.)

HYDRANGEA PANICULATA GRANDIFLOR—50c., 75c., $1 each.
The best of all late flowering shrubs. White, shaded pink. August to September. We also offer in standard form, with 3 feet stems and strong heads at $1 each.

MOCK ORANGE (Philadelphus)—25c. and 50c. each. White flowers.

(Continued over.)
FLOWERING SHRUBS—Contd.

PRUNUS PISSARDII—50c. and 75c. each; standard trees, 8 to 9 feet, $2 each. Purple-leaved Persian Plum. Leaves, when young are histrionic crimson, changing to dark purple, retaining this beautiful tint till they drop.

PRUNUS TRILoba—White. Standard form, 3 feet stems, each 75c.

SPIREA VAN HOUTEI—25c. and 50c. each. White.

SPIREA ANTHONY WATERER—25c. and 50c. each.

SPIREA CALLOS A ALBA—25c. and 50c. each.

See Hardy Perennial Plants for other varieties.

STAPHYLEA COLCHICA (Bladder-nut)—50c. each.

Fragrant white flowers, which hang from nodding panicles or racemes. Is hardy, but forces well when specially prepared for the purpose. Its peculiar fruit is the source of the common name, Bladder-nut.

VIBURNUM OPUlus (Snowball)—25c. and 50c. each.

White. Blooms in May.

VIBURNUM PLICATUM (Japan Snowball)—30c. and 60c. White.

WEIGELIA, 10 VARIETIES—25c. and 50c. each.

WEIGELIA HYBRIDA EVA RATHKA—New. 50c. and 75c. each. The blooms of this new variety are brilliant crimson. Special quotations to large buyers.

THUYOPSIS DOLABRATA—3 feet, each $1.75; 4 feet, each $2.50.

(Will be pleased to make estimate on quantity needed for stated space with special quotations.)

Hedges and Screens

We receive so many inquiries concerning suitable shrubs for planting as permanent hedges or screens, that we are induced to make special mention of a few of the most useful and ornamental sorts, in sizes practicable to such purposes.

By using medium-sized plants, a hedge can be made as cheaply as at a good board fence, and then, with a little care, it becomes every year more and more a thing of beauty. Such hedges continue as a principal attraction in our best kept places. Order early as plants should not be planted when in leaf.

**BERBERIS THUNBERGIANA**—Should be planted 12 to 15 inches apart.

**HONEY LOCUST**—Makes a very strong and long-lived hedge, and one of the best for turning stock. Plants 8 to 10 inches apart. 1 year old plants... $6.00 per 100; 2 years, $8.00 per 100.

**SHEBAEAN V. HOUTTEI**—One of the most beautiful of all hedge plants. One mass of white when in bloom, and still beautiful in form and foliage until frost removes the leaves. 24 to 36 inch plants... $20.00 per 100.

**BUCKTHORN** (Rhamnus)—One of the hardiest hedge plants...

**LARGE FLOWERING CLEMATIS**

**MADAME BARON VEILLARD**—Light rose, shaded lilac. 50c. each.

**BANGHOLM BELLE**—Robust habit. Pure white. 50c. each.

**BOSKOOPEEDLING**—Extra large lavender. 50c. each.

**M. KOSTER**—Bright rosy carmine. 50c. each.

**DUCHESS OF EDINBURGH DOUBLE**—Pure white. 50c. each.

**JACKMANNI**—According to size, 50c., 75c., $1.00 each.

**PANICULATA**—25c. and 50c. each.

**NEW RED CLEMATIS**, Ville de Lyon—Large flowering Red Clematis have been offered at various times, but all have lacked not only color, but size and constitution. This variety is a bright carmine, flowers of large size, and a plant which is as free-flowering and as strong a grower as the well-known and popular purple Jackmanni. 60c. each.

**HONYESUCKLE, Haleiana**—White. 50c. each.

**HONYESUCKLE, Semperflorens**—Pink. 50c. each.

**POLYGONUM BALDSCHUANICUM**—We consider this one of the most interesting and showy hardy climbers. Its white flowers are borne in great feathery sprays at the extremities of the branches throughout the summer and fall. Strong plants. 60c. each.

**WISTERIA SINENSIS**—Of rapid growth, and produces in great profusion large bunches of light blue pea-shaped blossoms. 50c. each.

**HARDY CLIMBING PLANTS**

Climbers should be more used than they are. They are capable not only of transforming many an unsightly structure into a thing of beauty, by covering it with a mass of beautiful foliage and flowers, but such varieties as Ameloplos, Clematis, etc., beautify the finest mansions and villas. We strongly recommend them all.

**AMELOPSIS, Veitchii (or Boston Ivy)**—25c., 50c., 75c. each; $2.50, $5.00, $8.00 per doz., according to size. Special prices per 100 to large buyers. One of the most ornamental climbers, clinging to the smoothest wall.

**AMELOPSIS, Quinquenfolia (Virginia Creeper)**—25c. each; $2.50 per dozen.

**AMELOPSIS, Engiambanni**—Very hardy and resembling the Virginia Creeper. Clings like the Boston Ivy. Best of all Ameloplosis, each 50c. and $1.00.

**ACTINIDIA, Polygama**—Strong plants, each 75c.

A climber of rare beauty. Flowers, which appear about the end of June, are creamy white, with the perfume of the Lily of the Valley. Beautiful foliage and berries. Remarkably free from insects. Is a rapid grower.

**ARISTOLOCHIA, Sipo** (or Dutchman’s Pipe)—25c., 50c., 75c. each; $2.50, $5.00, $8.00 per doz., according to size of plants.

**BIGNONIA, Grandiflora** (Trumpet Creeper)—Quick grower. 50c. each.
Hardy Perennial Plants for Spring Planting

The following list of Perennials will be found on examination to comprise all the bestknown varieties. In cases where intending purchasers are unacquainted with varieties, some information will be given. We have in stock many varieties besides those enumerated below, so that intending purchasers may order almost any of the old favorites, and most of the new sorts, and have their orders executed. Most of these Perennials may be raised from seed and will flower generally the same year.

We make the following offer for large orders.

1 Doz. plants, our selection. $1.25
100 plants in 50 Varieties, purchaser's selection from our list. 12.50
100 plants in 50 Varieties, our own selection from our list. 10.00

Please note that the above special prices do not include Nos. 13, 14, 15, 51, 52, 53, 54, 55, 56, 57, 58, 64, 66, 77, 87, 91, 100, 102, 103, 128 (1 to 12), 129, 130 (all varieties). 156.

ST. ANTOINE DE PADOU—The strawberry of the future. The True Perpetual Strawberry. Blooms and fruits all the year. Berries are large and of delicious flavor. $5.00 per 100.
Fertilizers

PHOSPHATE POWDER or "SCOTIA" BASIC SLAG—The using of this manure is simply investing money, which comes back in 8 to 12 months doubled or trebled, and even these are future dividends to draw. Basic Slag only supplies Phosphoric Acid and Lime, and on some lands an application of Potash in the form of 200 lb. Kainit per acre in conjunction with it will be found beneficial.

APPLICATION—This article is a most valuable manure for Old Pastures, Young Timothy and Clover, Oats, Barley and Wheat, Root Crops of every description. It is specially recommended for use on Old Pastures, on which, it is no exaggeration to say, the effect is marvellous. The application stimulates into life the dormant roots of Clover, and encourages the growth of the better Grasses. The whole character of the herbage is altered and improved, and the land rendered capable of carrying a greatly increased quantity of stock. Winter or early spring application is recommended.

GUARANTEE OF FINENESS—80 to 90 per cent. is guaranteed to pass a sieve, by Amadas Kahl, No. 100 E., i.e., a sieve having 10,000 holes to the square inch.

This is what a leading Scotch farmer writes, and one whose word is law in Agricultural matters:

"After applying 'Scotia' Basic Slag my fields carried double their former stock and grazed them much better. The cattle and sheep improved rapidly, and at the close of my year in 1906, in the valuation made for Exehausted Fertilizers, one of the items was an indemnification by the landlord for 'Exehausted Manural Value' of the Slag previously applied."

Write for pamphlet giving full particulars of the benefits to be derived from using this wonderful manure.

Price: $2.50 per ton of 2,000 lbs.—Write for special quotations for large quantities. 100 lbs. $2.50; 50 c.

FREEMAN'S SURE GROWTH MANURE—Per 100 lbs. $2; per ton $35.

For grass, grain and vegetables. An excellent general fertilizer. Ammonia, 3½ to 5 per cent.; Phosphoric Acid, 8 to 10 per cent.; Potash (actual), 3 to 4 per cent.

FREEMAN'S POTATOE MANURE—Per 100 lbs. $2.50; per ton, $38.

Ammonia, 3 to 4 per cent.; Phosphoric Acid, 8 to 10 per cent.; Potash (actual), 5 to 7 per cent.

FREEMAN'S BONE AND POTASH MANURE—Per 100 lbs. $2.50; per ton $35. Special Tyrehard Manure.

Ammonia, 2 to 3 per cent.; Phosphoric Acid, 9 to 10 per cent.; Potash (actual), 6 to 8 per cent.

FREEMAN'S CELERY AND EARLY VEGETABLE MANURE—Per 100 lbs. $3; per ton $47.50.

Ammonia, 6 to 8 per cent.; Phosphoric Acid, 9 to 10 per cent.; Potash (actual), 6 to 8 per cent.

FREEMAN'S TOBACCO MANURE—Per 100 lbs. $3; per ton $48.50.

Ammonia, 6 to 8 per cent.; Phosphoric Acid, 7 to 9 per cent.; Potash (actual), 7 to 9 per cent.

FREEMAN'S TANKAGE MANURE—Per 100 lbs. $2; per ton $35.

Ammonia, 5 to 7 per cent.; Phosphoric Acid, 12 to 15 per cent.

SULPHATE OF AMMONIA—10c. per lb.

Splendid plant fertilizer.

NITRATE OF SODA—4c. per lb.; $3.50 per 100 lbs.

Price per ton on application.

KAINIT—3c. per lb.; $1.75 per 100 lbs.

Price per ton on application.

MURIATE OF POTASH—5c. per lb.; $3.50 per 100 lbs.

LAND PLASTER—Per bag of 100 lbs., 50c.

CRUSHED BONES—(See Porky Supplies.)

BONE FLOUR—100 lbs. $3.50; 10 lbs. 50c.; 5 lbs. 30c.

The pure flour of ground green bones. It is a valuable fertilizer and stimulant for Roses, Chrysanthemums, and all pot plants.

BONE MEAL—100 lbs. $3.25; 10 lbs. 40c.; 5 lbs. 25c.

Special quotations for large quantities.

"BONORA"—Nature's own plant food. The greatest discovery of modern times. Contains more Nitrogen than any plant food in existence. "Bonora" also contains an abundance of Phosphoric Acid and Potash. It is a complete fertilizer. Use it on your house plants, vegetables, lawns, fruit and shade trees. "Bonora" is so powerful that a very small quantity will give your plants a vigorous, healthy and lasting growth. Full directions are on each package. "Bonora" is put up as follows:—

25c. package, making 50 pints
50c. making 25 gallons.
$2.50 " 140 "

FERTILIZERS—Contd.

ALBERT'S CONCENTRATED HORTICULTURAL MANURE—1 lb. tins, 25c.; 10 lbs. $1.50; 25 lbs. $3.00.

It is the only Horticultural Fertilizer guaranteed free from Sulphuric Acid, Chlorine, Gypsum, or other deleterious Acids, and that is soluble in water. Much used by Florists and Gardeners, and we have certificates from many prominent Horticulturists in its favor.

CLAY'S SPECIAL HORTICULTURAL MANURE—lb. 15c.; 25 lbs. $2.75. This highly concentrated Manure or plant food is composed of the richest ingredients, and contains all elements which enter into the composition of plants in such proportions as are necessary for luxurious vegetation, and is equally valuable for Window, Conservatory or Garden Culture. Use for potting 1 part to 80 of mould, for top dressing a teaspoonful to a 5 inch pot, for vegetables 2 oz. to the square yard. It applied as a liquid, use about an ounce to the gallon.

STANDEK'S HORTICULTURAL MANURE—particularly popular with English Florists. Apply same as Clay's, to which many think it is superior. We confidently recommend it. lb. 15c.; 25 lbs. $3.00.

JADOO FIBRE—Per 100 lbs. $4; per lb. 5c. Used as a substitute for peat moss or mixed with it in equal quantities. For pot plants, flowers in the open ground or vegetables, it is used most successfully.

Insecticides

NICOTICIDE—The best Insecticide for Greenhouses yet invented. It kills everything, but the plant. Can either be used as a spray or fumigator. Fumigating Lamps 75c. each. As a spray it costs but one cent per gallon when mixed with water. Prices in tins, $1.00, $1.75 and $3.25; latter is 1 pound tin. Write for Nicoticide List, which gives all particulars as to application and what it will do, and a long list of recommendations from the best Florists on the Continent.

NIKOTEEN PUNK—Box containing 12 rolls, 75c.

Is pulp thoroughly saturated with Nikoteen and put up in rolls, which when ignited burns slowly. Recommended for small Greenhouses and private use.

COW-EASE IN THE STABLE

No Use Crying

Over Spilt Milk

If you will use

Cow - Ease

on your stock their flow of milk will increase and the cows will stand still while milking.

COPPER SULPHATE—1 lb., 12c.; 100 lbs., market price.

GISHURST COMPOUND—Box, 50c.; large box, $1.25.

Destroys Red Spider, Scale, Meal, Bug, Green Fly, etc.

FIR-TREE OIL—1 pint, 25c.; ½ pint, 50c.; 1 pint, 75c.; quart, 1.40. One of the most efficient Insecticides.

(Continued over.)
INSECTICIDES—Contd.

GARDENERS’ INSECTICIDE—Bottles 50c. and $1.25.

An old standard English insecticide.

FOSFITE—1 lb., 15c.; 5 lbs., 60c.; 10 lbs., $1.00.

HELLEBORE POWDER—Per lb., 25c. Best remedy for
caterpillars.

SLUG SHOT—3 lbs., 25c.; 5 lbs., 35c.; 10 lbs., 60c.

WHALE OIL SOAP—Per lb., 25c. Dissolve ½ lb. to a gallon
of water, apply with a syringe or spraying pump.

PARIS GREEN—Per lb., 35c. Pure.

SULPHUR—Per lb., 10c.; 3 lbs., 25c.

LETHORION CONES—50c. each; $1.50 per dozen.

For the certain destruction of greenhouse pests, with-
out any offensive smell, or injury to the blooms.

KIL-WEED

For Golf and Cricket Grounds, Parks, Driveways of Pri-
vate Residences, Streets, etc. A Scientific Weed Destroyer.

KIL-WEED not only kills weeds, but destroys seed germs
and roots of plants. The best time to use KIL-WEED is
about 24 hours after a rain. Can be used with an ordi-

nary sprinkling can. One gallon KIL-WEED will make
50 gallons treating liquid.

PRICES: 1 quart can makes 12½ gallons ........ .50
½ gallon ... 25 a. .75
1 gallon ... 50 a. 1.25

KIL-WORM

Destroys Worms, Ants, etc., Infesting Golf, Cricket
Grounds, Parks and Private Lawns.

KIL-WORM does not injure grass but acts rather as a
fertilizer. KIL-WORM has been thoroughly tested and
found perfectly satisfactory. KIL-WORM kills Worms,
Ants, Snails, etc. Causes the insects to come to the surface
to die. One gallon Kil-Worm makes fifty gallons of liquid.

PRICES: 1 quart bottle ... $ .55
½ gallon bottle ... 1.00
1 gallon jug ... 2.55

FORMULA FOR BORDEAUX MIXTURE

Spray your Apple Trees, Plum Trees and Grape
Vines and Potatoes with the Bordeaux Mixture. It
will pay you to do it. It is compounded as follows:

Copper Sulphate ... 4 lbs. Paris Green ... 4 oz.
Lime ... 4 lbs. Water ... 50 gals.

BUG DEATH

Contains no Paris Green or Arsenic; is harmless to animal
life, and death to all Bugs and other insects. Prevents or re-
tards potato blight, thereby increasing yield. Is a most
successful spray for Fruit Trees. Death to all insects
infesting Cabbages, Squash, Currants, Gooseberries,
Tomatoes and Roses, etc.

Pat. March 16 and Nov. 9, 1897. Pat. in Canada, Nov.
2, 1897, and Jan. 25, 1900.

HOW TO APPLY—100 lbs. per acre during growing season,
either dry or with water, and sprayed or dusted on potato
vines. Diecky’s Bug Death Duster, 25c. each, a cheap
but efficient tool for small patches of potatoes and all small
fruits and vegetables; also “Perfection” shaker, 65c. each.
For fruit trees, spray 12½ lbs. mixed with 40 gallons of water.
Treat potatoes and fruit trees 3 to 5 times during season.

100 pound keg ... $7.00
1 1 2 pound box ... .50
5 pound package ... .35
1 “ “ “ 15c.

The result of the following experiment speaks for itself,
and shows conclusively the wasteful extravagance of using
Paris Green on potatoes when Bug Death can be obtained.

Professor Zavitz, Ontario Agricultural College, Guelph,
Ont., reports that potatoes treated with Bug Death
produces 98 bushels per acre more than those wholly
untreated, 58 bushels more than those treated with
Bug Finish (no connection with Bug Death), 46 bushels per
acre more than those treated with Paris Green and plaster
and 46 bushels more than those treated with Paris Green and
water.

WIMBLEDON—Per sack, $2.75.

PEAT, ORCHID—Cut in squares. Per sack, $3.50.

PRUNING SAW—Each, 75c.

PUTTY BULBS—Each, $1.25.

RAKES

RAKES, GARDEN, BEST CANADIAN—12-tooth, 60c.; 14-tooth, 70c.; 16-tooth, 75c.

ENGISH—Without handle, 6 inch, 15c.; 8 inch, 30c.; 10 inch, 35c.; 12 inch, 40c.

WOODEN HAY—Each, 15c. and 20c.

Hustler Lawn Rake

AUTOMATIC LAWN RAKE—Each $1.
To unload rake, simply push it forward without raising it.

THE KING—Each 50c.

HUSTLER—All steel, with stiff wire teeth. 24 teeth, 75c.

GIBB'S LAWN RAKE—75c.

ENGLISH DAISY LAWN RAKE—81.75.

REEL AND STAKE—Malleable iron. Each, 75c. and 90c.

RAFFIA—For tying. lb. 30c.; 5 lb. lots $1.

GREEN—lb. 50c.

TAPE—Is corrugated and expands with plant's growth; yet will not contract with wet. It is a nice subdued permanent green color. 250 yards on a reel, 90c. each.

ROLLERS, GARDEN—Strong, substantial and durable. No. 1, 24 inches wide, weight 235 lbs., each $13.50. No. 2, 36 inches wide, weight 349 lbs., each $18.00.

STAKES—See "Bamboo Stakes."

SECATEURS, BEST ENGLISH, WHEEL SPRING—6 in., $1.75; 8 in., $1.50; 9 in., $2.

SHEARS, GRASS EDGING—Short handles, $1.00 to $1.75 each, 8 to 10 inch blades. Long handles, $2 to $3 each. Long handle, flat blades, $2.50 to $3.

SHEARS, VERGE OR SHEEP—Trowel Shank and Crank patterns, $1.00 to $2.25.

SCISSORS, FLORISTS' WIRE—50c.

SCISSORS, GRAPE THINNING—6 in., 75c.; 7 in., $1; 8 in., $1.25.

SPADES—Best Canadian and English make, $1.25 to $2.00 each.

SHOVELS, BEST CANADIAN—Round and square, $1.25 each.

SAND, IMPORTED SILVER SAND—100 lbs., $2.00. 1 lb. bags for birds 5c.

SPUDS—40c. to 50c. each.

S P R A Y E R, FAULTLESS
—See page 86.

S Y R I N G E S, BRASS—Good tool, 18 x 18, $1.50 each.

SYRINGES

Four Oaks Undentable Syringe, 1\frac{1}{4} x 16......at $5.00
1\frac{1}{2} x 16......at 9.00

Heavy Brass Syringes from $2.25 to $3.25.

The Perfect Flower Pot Handle and Hanger is used for lifting plants out of Jardiniers, also for hanging up plants for decorations on walls, etc., and will sustain a weight of 100 lbs. 3 sizes, 45c., 60c., 70c. per dozen. By mall, 5c extra.

TRANSPLANTER, "TOMATO"—75c.

TROWELS, STANDARD ANGLE—40c.

" " MEDIUM—30c. each.

" " DAISY—20c. each.

" " BEST ENGLISH—Blued, 20c. and 25c. each.

" " ENGLISH MAKE—Polished blade and handle, 60c. each.

" " COMMON GARDEN—15c., 20c. and 25c. each.

TIN FOIL—20c. each.

PRUNERS, THE STANDARD TREE PRUNER—Handle 12 ft. long; $3.50 each; 10 ft. long, $3.25; 8 feet long, $3 each.

A most useful implement.

PRUNERS, AUBERT'S BRANCH PRUNER—Very powerful, $4 each.

(Continued over)
THE LITTLE GIANT AUTOMATIC TREE PRUNER—Every progressive fruit grower buys at sight. Price, $2.00.

TAR TWINE—For tying grape vines, raspberry bushes, etc. Heavy, lb. 20c. Imported, lb. 40c.

GRAFTING WAX—Tins at 30c., 40c., 75c.

WEEDERS, COMBINATION—(See cute), 35c. each.

WEEDERS, EXCELSIOR—15c. each.

WEEDERS, HAZELTINE—Best cast steel. A handy and useful tool. 30c. each.

If Weeder are ordered to be mailed, add 5c. each for postage.

WEEDING FORKS—Imported English; strong and useful tools. 40c. each.

WHEELBARROWS—Various patterns. From $3.25 to $5.00 each.

WATERING CANS—Various patterns. From 35c. to $3.50 each.

CHATILLON'S MILK AND CREAM SCALES

CHATILLON'S IMPROVED CIRCULAR SPRING BALANCE SCALE—No. 280 mo.

This scale is made with a loose pointer, which by means of a thumb screw on the centre of the pointer may be set anywhere on the Dial, thus taking the tare of a milk pail, etc. It is made with the pounds divided into ounces, or decimally to suit the trade. 30 lbs. by 1 oz. Price $5.00.

CHATILLON’S STRAIGHT SPRING BALANCE SCALE—No. 60. 40 lbs. by 1/2 lb. Price 1.50.

TOWNSEND HORSE LAWN MOWER
Is equipped with adjusting shaft to cut either high or low, or for raising knives when passing over stones, the shaft being operated from the seat, and is considered the best horse mower on the market where excellent work is absolutely necessary.

30 inch cut with shafts...........$92.00

THE "EASY LAWN MOWER"
Has a front brace or guard, so that you can now go right up to a fence, tree or plant without damage. It has an open steel roller the full width of the machine, giving continuous power, which permits its being used on uneven surfaces, narrow borders, terraces, mounds, over holes, etc., etc., places where a side wheel mower is useless.
The handle can be attached or detached instantly. Can be run along within an inch of a wall or fence, and cuts either wide or narrow borders. Is easily sharpened. Has protected journals and oil holes. Knives hardened and tempered.

Fully boxed for shipment.

THE HALLOCK FLAT TOOTH CULTIVATOR AND WEEDER
Will weed and cultivate as fast as a horse can trot! Will work two acres an hour 20 in a day.
Frame of Angle Iron. Solid steel teeth, bolted on separately, but removable at will, and thus is useful for every field crop that grows. Removing one tooth leaves a 1 inch space over row, and removing two leaves 6 inches. Corn can be worked 3 feet high, and potatoes fill meeting in the drill. The greatest time-saving implement.

The greatest labor-saving implement introduced in years for the destruction of weeds, without damaging growing crops, and the thorough tillage given. Deep cultivation damages the roots and retards the growth of growing crops, without killing the small weeds. The Hallock Weeder cultivates from one to two or three inches in depth, in the latter case a log put cross-ways on the Weeder is necessary. Remember that the

Sulky attachments to either of above sizes........each 13.00
Note what practical farmers say:

Dear Sirs—The undersigned take pleasure in certifying to the outstanding merits of The Hallock Cultivator and Weeder in cultivation and weeding, in a most thorough manner and quickly, almost all kinds of crops, leaving the soil as if a hand steel tooth rake had been used. We were afraid it might do damage to such crops as Onions, Carrots, Beets, etc., but on the contrary it made a perfect job, and the cost of working was so much reduced as to make the growing of such crops very profitable. On Potatoes and Corn, etc., its work is all that the most particular farmer can desire, and on account of the speed at which the ground is gone over working expenses are reduced to a minimum. On grain crops it will be at once apparent the gain in yields that must result when the Cultivator is used, and the soil never allowed to crust or cake after heavy rains, and the newly sprouted weeds, such as Mustard, etc., are killed at the same operation. It is impossible to cover Clover and Timothy seeds evenly and smoothly with any Harrow or Seeder attachment, but the Hallock does it to perfection. There is much to be learned in the using of any new implement, and in our opinion we will notice next year many methods that were unnoticed in our first year of using. For weeding and cultivating, we know of no implement that can compare with the Hallock in results, both in thoroughness and economy, and hand-hoeing and weeding is out of the question, and nearly unnecessary to any one who possesses a Hallock Weeder.

Sam. J. Nesbit, John Nesbit, Thomas Ramsay, Etienne David, Narcisse David, McAvoy Bros., of Petite Cote; M. Jarry, Z. Gagnon, C. Gagnon, John Scott, of Cote St. Michel; Penniston Bros., Lachine Rapids; John Johnston, Youville; Jas. Boden, Ste. Anne de Bellevue; Jas., Roy, Bordeaux, and all who have used the Hallock endorse these statements.

The above are amongst the largest Potato and other root growers in Canada, and all thoroughly practical men.

**Implements**

**"IRON AGE," NO. 1. COMBINED DOUBLE AND SINGLE WHEEL HOE—** Can be changed into a Single Wheel Hoe in a few minutes. It is strong, with high wheel and light, $8.50.

**"IRON AGE," NO. 2. DOUBLE AND SINGLE WHEEL HOE—** With side hoes only. $5.00.

**"IRON AGE," NO. 6. COMBINED DOUBLE AND SINGLE WHEEL HOE, HILL AND DRILL SEEDER—** Is first among our list of garden implements. Combined in this tool there are three distinct and thoroughly practical tools, a Hill and Drill Seeder, a Double Wheel Hoe and a Single Wheel Hoe. Will sow small seed, from lettuce to the size of corn. $13.00.

**"IRON AGE," NO. 7.** The same as No. 6, but is a Hill and Drill Seeder. Only $10.00.

**"IRON AGE," NO. 4. COMBINED DOUBLE AND SINGLE WHEEL HOE AND DRILL SEEDER—** Is somewhat similar to No. 6 Combined Double Wheel Hoe, Hill and Drill Seeder. It only differs in the seed sowing device and opening Plow. Both tools as Double and Single Wheel Hoes are identical, but No. 4 only sows in drills. $12.50.

**"IRON AGE," NO. 11.—one combined Hill and Drill Seeder, and Single Wheel Hoe. The seed sowing device sows the seed in a continuous row, or drops in hills at 4, 6, 8, 12 or 24 inches. It ploughs, rakes, opens, furrows, covers hills, hoes and cultivates. $12.00.

**"IRON AGE," NO. 16.**—Is the same as No. 15 as a Hill and Drill Seeder only. $9.50.

**"IRON AGE," NO. 17. COMBINED SINGLE WHEEL HOE AND DRILL SEEDER—** Does the same work as No. 15; but only sows in drills. $11.

The New Model will save you time and money. It is the best, the surest and easiest operated drill in use. Is perfect in all its parts. The Index or Indicator is convenient and reliable. The names of the principal seeds to be sown are plainly shown on the index. The Cut off to stop the flow of seed can be instantly operated from the handles. The Marker is easily adjusted and is held firmly. The Wheel is unusually wide, preventing it sinking in soft earth. The Covering Roller is attached by a swinging frame, enabling the operator to roll lightly or otherwise. The New Model Seed Drill.

Opening Plough is of steel, and adjustable in depth. The complete machine weighs only 35 lbs.

Price, Packed for Shipment, $8.50.

**"IRON AGE," NO. 21. COMBINED FERTILIZER DISTRIBUTOR, HILL AND DRILL SEEDER—** Sows fertilizers and seeds in one operation, the fertilizer being distributed in two narrow streams. The plows are adjustable in depth and width, giving the gardener the privilege of placing the fertilizer as near or as far from the seed as he desires. $19.50.

**"IRON AGE," NO. 8. HILL AND DRILL SEEDER—** Marketeers will find this machine one of the best hill and drill tools ever introduced for either bulky or small seeds. $11.50.

The Hopper is low, with a capacity of four quarts, holding a sufficient quantity of the most bulky seed for even the largest gardeners.

**"IRON AGE," NO. 12. SINGLE WHEEL PLOW AND CULTIVATOR—** Is not only useful in cultivating vegetables, but also flowers, and those who raise poultry, even in very limited
numbers, will find this tool of great value for stirring the soil in their poultry yards, especially when fitted with the plow. $3.75.

"IRON AGE," NO. 6. HORSE HOE AND CULTIVATOR—This tool is up to date. Its great adjustability adapts it for numberless uses and conditions. $9.00.

"IRON AGE," NO. 1. FIG. 57. CULTIVATOR WITH SEVEN TEETH—In the cultivation of crops, a cultivator having seven instead of five teeth is very desirable, and of this arrangement we can not speak too highly. $8.50.

"IRON AGE," NO. 22. CULTIVATOR—The teeth are diamond shape with a small cultivator tooth forged on one end; for very close work, every other tooth can be quickly removed. We furnish this tool, when ordered, in its plain form or with the addition of the lever expander, plain or lever wheel; cultivating width when equipped with lever expander 34 inches; with plain expander 38 inches. $6.75.

"PLANET JR.," NO. 1. COMBINED SEED DRILL AND CULTIVATOR, DOUBLE WHEEL—Is the best combination of implements on the market. THE SEEDER HOLDS ONE QUART OF SEED. For the care of the crop, it is supplied with a pair of rakes, a pair of hoes, three reversible cultivator teeth and a garden plough. Price, boxed $12; without Rakes, $11.50.

"PLANET JR.," NO. 3. HILL AND DRILL SEEDER—Will sow a great variety of seed, almost any depth or thickness, and will do it rapidly and perfectly; is simple, strong and easily adjusted, and does not get out of order. Price, $12.75.

"PLANET JR.," NO. 11. CULTIVATOR, RAKE AND PLOUGH COMBINED WITH IMPROVED FRAME.—It has one pair of 4 in. and one pair of 6 in. hoes, one pair of ploughs, two pairs of cultivator teeth, and two pairs of rakes, and is capable of performing every variety of gardener’s work with ease and despatch. Price, $11.00.

"PLANET JR.," NO. 12. DOUBLE WHEEL HOE—Has the following attachment: one pair of 6-inch hoes, two pairs of cultivator teeth, one pair of ploughs. Price, $8.50.

"PLANET JR.," NO. 13. DOUBLE WHEEL HOE—With 6 inch hoes only. Price, $5.75.

"PLANET JR.," NO. 16. SINGLE WHEEL HOE—Has one pair of hoes, one set of cultivator teeth, one plough and two rakes. Price, $7.00.

"PLANET JR.," NO. 17. SINGLE WHEEL HOE, CULTIVATOR AND PLOUGH—Has one pair of 6-inch hoes, three cultivator teeth and a large garden plough. Price, $6.00.
“PLANET JR.” No. 18. PLAIN SINGLE WHEEL HOE—A capital tool for onion cultivation or weeding any root crop in the early stages of growth. Two hoses only. Price, $4.50.

“PLANET JR.” TWELVE TEETH HARROW, CULTIVATOR AND PULVERIZER—Is the very best tool known for its purpose. Frame is high, blades are an inch wide, and of such shape as to work in the most thoroughly satisfactory manner, and to offer an unusual amount of wearing surface. The recurved throat of the tooth and the high rame prevent clogging. The reverse position is quickly given to the teeth by changing a single bolt in each. The frame is heavy and strong. Price, $10.50; without Pulverizer, $8.50.

“PLANET JR.” No. 25. COMBINED HILL AND DRILL SEEDER AND DOUBLE WHEEL HOE, CULTIVATOR AND PLOUGH—It practically combines in one tool the No. 4 Drill and No. 12 Double Wheel Hoe. Price, $16.00.

THE LITTLE GIANT HAND BROADCAST GEARED SEED SOWER

Price, $1.75 each.
(The greatest labor-saving invention of the age.)

Will save one-half the labor and one-third the seed over hand sowing, besides greatly increasing the crop by the more equal distribution of the seeds.

Is the cheapest Crank Seeder on the market, and equal to the best for quality of work it does and durability. Don’t pay $5 for a seeder when you can get its equal for less money. Man or boy can sow on hilly, stumpy, stony and rough, as well as on clean and smooth ground, perfectly even and any quantity (1 quart to 8 bushels) per acre of Clover, Timothy, Millet, Hungarian, Flax, Wheat, Rye, Barley, Oats, Corn, Peas, Orchard Grass, Blue Grass, Red Top, or other seed. Fertilizers and Ashes, with ease to the operator. Will sow at a round 30 to 50 feet. A man walking at the rate of three miles per hour will sow 90 acres of wheat or 65 acres of clover seed in a day of 10 hours. Many thousands are sold annually, and in every instance have received farmers’ highest commendations.

“Queen” Corn Planter and Fertilizer Distributor

QUEEN
Corn Planter and Fertilizer Distributor COMBINED.

For planting Corn, Beans, Peas, Beet or Mangel Seed in hills and drills. Price, without Fertilizer Distributor, $17.
This planter is easily adjusted to drop seed and fertilizer in hills or drills as follows: It will drop 6, 12, 24, or 36 inches, or drop 7, 15, 30, or 45 inches, and will distribute from 50 lbs. to 450 lbs. of fertilizer per acre. Price $25.

Spraying Appliances

A Spramotor has become a recognized necessity, and has so many uses that we will only name some of the principal ones affecting the farmer and fruit grower.
The spraying of fruit trees and crops for the prevention of fungi and insect pests will result in an improvement of over 80 per cent. Spraying potatoes with Paris Green dissolved in water and killing the Potato Bug costs less, can be done in a great deal less time, and much more effectively than by dusting with Paris Green and Plaster of Paris, and the like. We have not had the Green, but we have had the Bug killed and the crop saved.

Destroys Wild Mustard (Charlock or Herlick) in the growing grain without injury to the crop. Spraying with disinfectants prevents disease among cattle and other animals. It avoids the use of lead dust or other injurious dusts. It permits spraying in all weather, even the most severe.

When all these operations and many others can be performed, any one of which will repay the entire cost of the apparatus, certainly no person having such work to do can afford to be without a Spramotor.

The Spramotor has been proven both in actual contest under the Canadian Government, and at the Great Exhibitions of the Pan-American at Buffalo, the World’s Exhibition at Glasgow, and at all the great exhibitions in Canada, to be the most useful combination for the purposes above stated.

All the Spramotors are made with brass ball valves, with detachable caged and seats, brass automatic or self-adjusting plunger, patent screen or strainer, brass plunger tube, brass base castings and couplings, and if so ordered will be supplied with all parts in brass except the handles and plates.

An 80 page Treatise and Catalogue will be supplied with each order, or we will send it free by mail on application.

We strongly recommend this most excellent machine as the best all round sprayer of which we have any knowledge. We keep a full line in stock, which we shall be pleased to show intending purchasers.

THE SPRAMOTORS FOR BARRELS, CASES AND TANKS

No. 0. Spramotor only, $6; extra for all brass...... $2.00
No. 1. Spramotor only, $10; extra for all brass..... $3.00
No. 2. Spramotor only, $13; extra for all brass..... $3.00
SPRAMOTORS—Contd.

Spramotor Jr., No. 2 Figure 14

All are fitted with automatic self-packaging plunger, brass ball valves with independent detachable cages, automatic drip guard, renewable strainer. The No. 2 has a brass air chamber, seamless brass tubing, and all parts are interchangeable, strictly high grade, and guaranteed perfect. When so ordered, will be fitted all in brass with the exception of handles and plates. These machines are so perfectly fitted they can be worked in combination. Will apply oil and water in any proportion for the destruction of San Jose Scale and other insects.

OUTFIT NO. O-G—This outfit is complete in every respect, and with it any kind of work can be done that can be accomplished with one nozzle. When attached to our patent five gallon can, it is a most portable device, can be carried round by one hand, or by means of the handles provided. The can has a raised bottom, and heavy flanged rim, on which the can rests. Our patent catches allow the lid to be instantly removed, which effectually prevents any splashing, and a lady can use the apparatus at any class of work or any kind of mixture, and not soil her dress. The outfit consists of:

One Spramotor Jr., No. 9, with 10 feet of hose, hand valve, and 8 feet iron extension pipe, patent drip guard and one Spramotor nozzle, complete, ready to attach to half barrel. $10.00

Extra for heavy galvanized 5 gallon can, as figure No. 7, etc. $82.00

SPRAMOTOR NOZZLES

This illustration shows a type of Spramotor that has been sent all over the world for the application of oil and water paints. It is intended to be used wherever the ground or floors are hard. The wheels are strong, and are fitted with our strong swivel castor. It is very convenient in handling; will pass through any opening the width of the cask. The Spramotor can be fitted lengthwise of the cask, if desired; can be turned within its own length; can be handled by one person, and has all the latest improvements.

Price as illustrated, with 10 feet of hose, patent hand valve, 8 foot extension tube, drip guard, and painting nozzle, barrel and screen, complete as follows: With No. 1 Spramotor as illustrated and described. $22.00

THE SPRAMOTOR KNAPSACK

Can be used for all classes of spraying with one operator, is made with all brass Spramotor with copper or galvanized tank, as desired, with or without the oil mixing attachment.

The tank is of finest cold rolled copper, with apron to prevent splashing, leather straps, right and left hand action without detaching anything (simply turning it over from one side to the other when one arm is tired). Automatic plunger, automatic mechanical agitator, strainer, detachable bronze ball valves, 3 feet of hose, hand valve, brass extension pipe with drip guard, and nozzle. $15.00
Same if with galvanized tank. 12.00

SPRAMOTOR PAINTING AND WHITE-WASHING MACHINE

The Spramotor nozzle has advantages not possessed by any other style. The spray can be graduated to suit the work in hand from the smallest fan-shaped spray up to the extreme limit of the nozzle, being throughout its range the very finest vapor spray. It can be disgorged in an instant by reversing the handle.

These nozzles have double angle for spray, and will be found to meet all requirements for all tree spraying.

Single nozzles ........................................... $ .75
Two-nozzle, with cluster ................................ 2.00
Three-nozzle, with cluster .............................. 2.85

SPRAMOTOR PAINTING NOZZLES

After a year of careful experimenting, we offer to the public what we honestly believe to be the best nozzle for all purposes yet invented. It is made single or in clusters. There are no springs, nuts, or packing glands in this nozzle. It can be disgorged by a forward thrust, and...
moving backward into the disgorging pin, the internal pressure immediately forcing the movable cap forward, maintaining its proper position.

Warranted to apply oil and water paints, or to produce a better spray than is possible with any Vermorel nozzle. It weighs one-third the old style, and in clusters one-quarter. It is thoroughly well made, and is durable.

When sold in clusters will be supplied with our Patent Drip Guard without extra charge.

Will be supplied with hardened steel interchangeable discs, when used for painting purposes, without extra charge.

Single nozzles, as shown, by mail $ .80
Two-nozzle cluster with Patent Drip Guard, by mail 2.00
Three-nozzle cluster with Patent Drip Guard, by mail 2.90

THE NEW NOZZLE RING CLUSTER

Is the latest development in clusters of nozzles. Nozzles have neither packing nor springs, and disgorge by pressing end of nozzle against limb or other surface. Can spray at any angle by revolving the extension pipe.

Price, 4 clusters, as shown with new style nozzles, complete, $3.60.

BRASS ROW AND MUSTARD SPRayers

Two rows, with nozzles. $3.20
Three rows, with nozzles $4.30
Four " " " 5.90
Five " " " 7.50

With fixed width of row. Supplied any width desired.

IRON ROW SPRayers

Two rows, with nozzles. $2.50
Three rows, with nozzles. $3.75
Four " " " 5.00
Five " " " 6.25

BAMBOO EXTENSION ROD WITH DRIP GUARD

Our bamboo extension rod is as nearly perfection as possible. No iron is used in its construction, the seamless tube extending inside the bamboo being of brass, with brass connections at the ends, interchangeable with other sizes. Made eight or ten feet long; other lengths to order.

We have invented a combination of water drip and end, which is on all our extension rods, thereby preventing any drip from the nozzles from running down the bamboo pole on the operator’s hands.

Price, bamboo rod, 8 feet long, with drip guard $2.25
Price, bamboo rod, 10 feet long, with drip guard 2.50
Price, bamboo rod, 12 feet long, with drip guard 2.75
Price, iron extension rod .60

Y connection for attaching 2 or 4 lines of hose 60
Connection for duplicating two or three nozzles, Fig. 39, to the extension pipe. Price, 2-way 50
Connection for duplicating two or three nozzles, Fig. 39, to the extension pipe. Price, 3-way 60

SPRAMOTOR ATTACHMENTS NOT ALREADY QUOTED

Drip guard .80
10 feet hose with coupings $1.25
Spramotor Lance .95
Hose couplings .20
Strainer 1.00

SPRAMOTOR HAND VALVE

Great complaint has been made by spraying operators against the stop-cocks supplied with spraying equipments, and as the difficulty cannot be overcome with stop-cocks, the Spramotor Co. have perfected a new and novel self-closing valve as illustrated. This valve can be closed or opened by a single pressure of the hand, is packed and clamped, with a spring pressure carefully made of brass, and it has a great advantage over stop-cocks, it will not leak through the nozzle, or through the packing. It can be opened or closed by one hand while operating with the other. By its use the hands are kept dry.

For whitewashing or painting work it is invaluable, and will last longer than a dozen stop-cocks. Price, $1.

THE “IRON AGE” BARREL TRUCK

This Truck is equipped with steel wheels 36 inch tread, Sprinkler attachment for watering lawns, Leaf Rack and box. The latter makes a fine dumping handcart. Price for above complete, $28.50, or would sell any one attachment separately.

WEATHER-PROOF COLD WATER PAINT MAGNITE

The best fire resisting paint made, specially designed for use in and about Farm Buildings, Factories, Hotels, Breweries, Private Residences, etc. A good sanitary paint, taking the place of oil paint at half the cost. 5 lbs. will make one gallon. Price, 5 lb. packages, from 9c. to 15c. per lb. according to color required. Special prices for larger quantities on application.
THE FAULTLESS SPRAYER

Tin .......... $0.60 each.
Brass......... 1.00 

The Faultless Sprayer throws a spray as fine as mist, and a small boy will kill all the "old shellbacks" on 1000 hills of potatoes for a cent. Is a simple, light and an indispensable exterminator of insect pests. Its shape is such that it sprays up or down, and all the liquid is pumped out in the finest possible spray, leaving but a spoonful in the can.

DOUBLE TUBE LIGHTNING SPRAYER, GLASS RESERVOIR

On account of having two tubes it about doubles its capacity. $1.00 each. It sprays any liquid or solution on potato vines, small fruits, house plants, conservatory plants, cut flowers, poultry and live stock; will dampen clothes and tobacco.

MYER'S LITTLE GIANT BRASS BUCKET SPRAY PUMP

With agitator, hose, Imperial combination nozzle, throwing a fine or coarse spray or solid stream, and malleable foot rest. Price, $3.50; with extension rod, $4.00. Is a most practical and useful spray pump for small places. It will throw a stream 40 to 50 feet, and besides spraying can be used for washing windows, buggies, etc.

MYER'S KNAPSACK SPRAY PUMP

Tank holds five gallons, and is fitted with lid and strainer. The Pump is of brass, with large air chamber, ball valves, solid plunger and agitator, and fitted with five feet rubber hose, extension, strainer and nozzle. By placing the tank on the ground it can be used as a Bucket Spray. The handle lever can be shifted from right to left shoulder at will. Is a particularly handy Spray Pump, and very cheap for the work it can accomplish. Price, $10.

WE SELL THE GENUINE CYPHERS INCUBATORS

The best possible test of an incubator is the work it actually does in the hands of the average operator. Tens of thousands of Cyphers Incubators have been sold since they were placed on the market, and their merit is attested in the following:

Every genuine patented Standard Cyphers Incubator is positively guaranteed as follows:

1st. To require no supplied moisture under all ordinary conditions, thus solving and disposing of the troublesome "moisture" question.

2nd. To be self-ventilating, the air in the egg chamber remaining pure at all times by its own gentle but positive action.

3rd. To be self-regulating, being equipped with the most sensitive and durable regulator thus far invented.

4th. To be so constructed that the temperature in the egg chamber is more equable than in any other incubator.

5th. Operated with less labor and expense than any other make of incubator, and is in all essentials the simplest and easiest to operate and control, requiring less attention than any other make or style of incubator in the world.

6th. Will produce larger, stronger and healthier chicks and ducklings than any other style or make of incubator.

7th. That each and every Standard Cyphers Incubator we send out will do satisfactory work in the hands of the purchaser, provided he give it a fair trial, or it can be returned to us within ninety days, in good repair, less reasonable wear, and the purchase price will be refunded.

Special Advantages in Buying Cyphers Incubators from Us—Prices are lower than if you imported direct from factory, when you add freight and duty. Keeping a full line of Incubators and Brooders in stock, you can examine goods. Prompt shipment is assured, and you have no trouble nor expense in passing Customs entry.

THE STANDARD CYPHERS INCUBATOR

Embodies several new and important improvements, which, while they do not in any way affect the working principle of the machine, add greatly to the ease of operation and to its durability.

PRICES:

No. 0, 66-egg size. ... $17.25
No. 1, 140-egg size. ... 25.50
No. 2, 240-egg size. ... 32.50
No. 3, 390-egg size. ... 38.75

All leading Poultry raisers use it, and the Poultry Manager of the Central Experimental Farm at Ottawa says:

"I have found the Cyphers Incubator gives better results than any other make."

IMPORTANT

On receipt of 10c., we shall be pleased to mail you "Cyphers Complete 1907 Catalogue," 212 pages of instructive and invaluable information to all poultry raisers. Other matter mailed free.

LOW-PRICED INCUBATOR

There is a considerable demand for a low-priced incubator, and while we do not have great faith in other than the very best machines, we believe that we are warranted in offering such a machine as can be purchased by people who wish to attempt artificial incubation, and yet not risk a great amount of money. This machine is manufactured by the Cyphers Incubator Company, and while it is not as good a machine as their standard incubator, it is better than any other low-priced incubator on the market, and will, under ordinary favorable conditions, hatch a good percentage of the eggs entrusted to it. Price, $15.00.
CYPHERS UNEQUALLED APARTMENT BROODERS

Briefly the special merits of our Style "A" Outdoor Brooder are:
It is rain-proof and storm-proof, having a heavy canvas covered roof over both the brooder chamber and the feeding apartment, or exercise room.
It is fire-proof, being equipped with a Cyphers Insulated Brooder Stove, the entire lower floor of the brooder chamber being protected underneath by a solid sheet of galvanized iron with an air space between it and the wooden floor.
The flames from the brooder stove cannot pass into either of the chick apartments, but are carried out at the sides of the brooder by an infallible device.

The surplus brooder stove heat preserves all the lower woodwork of the brooder, by warming and drying the soil underneath the brooder, thus making the brooder not only safer and more comfortable for the chicks, but also more lasting.

The brooder stove is easy of access, being above ground. The Cyphers Insulated Brooder Stove combines a heater proper with a chimneyless burner, an insulating plate (which is also the stove slide), and a galvanized plate which forms the stove door. The wick rod extends to the outside of the stove door, and the height of the wick may be adjusted without opening the door. By use of the reflector attached to the outside of the stove door the height of the flame may be varied by operator from an upright position. This stove avoids the necessity of a waterpan. The oil-bowl (which is seamless) remains cool at all times, being protected from the radiant heat of the flame and burner by the insulating plate.

This brooder need not be placed in a pit, nor need the ground be excavated for the brooder stove; hence a saving in labor and trouble thereafter of caring for the stove.

When the temperature underneath the chick floor is at 90 degrees we have a surrounding atmosphere of 80 to 85 degrees, while in the front apartment the temperature will average several degrees lower. The chicks, therefore, may suit themselves, going to and from the heat at will.

The cylindrical chick guard prevents crowding of the chicks, and also prevents coming in contact with the heat dome or drum to their injury.

In this brooder there are no stairs to climb, hence no danger of little chicks getting lost and becoming chilled while learning the way in and out.

Price of Style "A" Brooder complete (with thermometer and stove), $17.00.

CYPHERS STYLE "A" OUTDOOR BROODER
Price ...... $17.00

STORM KING BROODERS

Recognizing the widespread demand for a thoroughly well made, practical brooder that can be sold at a lower price than the Standard Style "A" Brooder, we have devised and perfected the Storm King Brooder. This is a combined brooder and colony coop, has a floor space 34 x 34 in., and is 75 chick capacity. The heating principle employed in the Storm King is the same as in the Style "A" Brooder, but adapted to meet the special requirements of this style of brooder. The entire floor space of this brooder, together with the lamp slide and other working parts, may be removed and roosts inserted, thus making a well-lighted, well-ventilated colony roosting coop.

Price, $13.00.

CYPHERS HYgienic INDOOR BROODER

We offer this brooder with the opinion that it is the best device in the form of an individual indoor brooder thus far invented for the safe and healthful rearing of chicks. It is composed of three compartments, allowing the chicks to seek whatever temperature suits them best. The improved heating system is similar to that employed in the Storm King Brooders; the very best for the purpose.

Prices, complete (with thermometer and lamp) ... $11.50
Two Section, all complete, 200 chicks .. ... 22.50
Three Section, all complete, 300 chicks .. ... 28.75
Four Section, all complete, 400 chicks .. ... 35.00

4 lb. pkt. 50c.; 5 lb. pkt. 60c.; 12 lb. $1.25.; 25 lb. $2.50.

DOG CHAT

"SPRATT'S PATENT DOG CAKES."
The one absolutely unselfish friend that a man can have in this selfish world, the one that never deserts him, the one that never proves ungrateful or treacherous, is his dog.
Love—love your dog. Feed him—your best friend—as he should be fed. Avoid all soft and medicated foods. Train him to take his Spratt's Biscuit dry, and see that every cake is stamped "Spratt's Patent" with a "X" in centre. (See page 89 for price.)
The name of SPRATT'S on an article or package is a guarantee of quality.
(See page 89 for "SPRATT'S POULTRY FOODS.")
SPRATT'S Dog, Poultry and Cage Bird Foods

SPRATT'S QUALITY is the recognized Hall-Mark of Perfection Throughout the World.

SPRATT'S SOFT FOOD FOR POULTRY

A combination of raw valuable meals, meat and tonics, used by breeders and exhibitors in all parts of the United Kingdom. It is specially recommended as a flesh for meat. Our own practical experiments have proved that birds fed on this food have gained 40 per cent. in weight in a month.

In 25 lb. bags, $1.15 each.

The Common Sense of Poultry Keeping, 80 pages, will be mailed free on application.

BRITISH FOODS FOR DOMESTIC PETS

SPRATT’S POULTRY FOOD PELLETS

This food is recommended to be fed dry either alone or mixed with the grain feed. It is considerably in advance of the dry mash system, which has a tendency to cause chronic indigestion. Spratt’s Poultry Pellets are rich in carbo-hydrates, and will be found to be economical and reliable for egg production and general utility purposes.

25 lb. bags, $1.15 each.

SPRATT’S POULTRY SPICE

The Egg Producer and Tonic.

Its use during damp and cold weather enables birds to more easily withstand the many diseases to which they are susceptible. Cholera, Roup and Indigestion disappear from the Poultry Yard where it is used. Its stimulating and tonic properties make it invaluable during the molting season.

4 oz. packets, 5c. each, 50c. per doz.
1 lb. packets, 10c. each.
2½ lb. packets, 20c. each.

SPRATT’S MEAL & MEAT FOOD FOR POULTRY

For upwards of forty years this Food has had the largest sale of any Poultry Food in the United Kingdom. It is easily prepared. Just mix crumbly moist with hot water and feed as the first morning meal. An increased egg supply and better condition of the birds will satisfy you of its value.

It will rear chickens with the minimum of loss. Do not take risks by attempting to rear exclusively on raw foods. Our food rears from the shell, and at the age of 6 weeks the chicks will be heavier and harder than birds fed on dry food.

Test the statement of feeding a few birds this way, and comparing with chucks fed on any other.

Small grain should be given at night, as it takes longer to digest than our meal, therefore enables the chicks to withstand the long fast.

In bags 25 lbs. each, $1.50.

SPRATT’S MIXED BIRD SEEDS

A blend of choice and rare seeds not found in any other mixture, perfectly clean and free from dust. Suitable for all Canaries and Cage Birds.

1 lb. packets, 10c. each.

SPRATT’S PARROT FOOD

“‘There is nothing like it in Canada. A complete diet for Parrots and Macaws.”

1 lb. packets, 10c. each.

The Common Laws of Cage Bird Keeping mailed free on application.

SPRATT’S PATENT DOG CAKES

They Fight for Spratts

Have been manufactured for nearly fifty years. Millions of pounds are sold yearly and there is hardly a country in the world where they are not used.

They are made on scientific lines, contain just the right proportion of meat, vegetables and meals to keep dogs in a healthy and hard condition and free from smell.

The analysis of Spratt’s Dog Cakes shows that they are weight for weight equal in nourishment to raw beefsteak.

In cotton bags containing 5 lbs., 40c. each.

1 lb. 75c. 
25 lb. $1.85

For puppies, pets and small breeds give

SPRATT’S PATENT PUPPY BISCUITS

In cotton bags containing 5 lbs., 40c. each.

1 lb. 75c. 
25 lb. $1.85

A copy of Dog Culture (100 pages) mailed free on application.

BANNER ROOT CUTTER No. 7

It quickly cuts the vegetables into long, round, ribbon-like slices that resemble a bunch of sweet corns, which fowl readily eat up to the last morsel. The value of this kind of food once or twice a day, as an egg producer, is unequalled. It also puts the fowl into a fine healthy condition, acting as a gentle tonic and laxative. This machine will pay for itself in a short time. It is a valuable addition to the poultry house, and is highly recommended by the best poultry experts in the country.

Price..............................$3.50

BEE-KEEPERS’ SUPPLIES

THE IMPROVED MODEL BEE-HIVE.—For the raising of either comb or extracted honey, there is no better hive on the market. $2.25 each.

SECTION NO. 1—65c. per 100. SMOKERS—$1 each.

IMPROVED WAX EXTRACTOR.—This is an excellent thing for the rendering of wax from the combs, doing it thoroughly without daubing everything up. Made to use on a stove. Price on application.
MANN'S BONE CUTTERS

No. 5 B MODEL

This machine is intended for flocks of 15 to 25 hens. Can be used for flocks of 100 hens, but larger size is more economical in the end. Will cut faster and easier than other types costing twice as much; capacity, 15 to 20 lbs. per hour. Price, $0.75.

No. 7 MODEL

Intended for flocks of 40 to 100 hens. Can be profitably used for 200 hens or more. Mounted on strong iron stand with large table or box or pan to receive cut bone. Automatic governing spring feed. Heavy balance wheel, with adjustable handle, besides all the best features of our old-style machines. Weight 107 lbs. Capacity, 1/2 to 1 lb. per minute. Price, $15.

No. 7 1/2 NEW MODEL

A combination hand or power Bone Cutter, adapted to run either way without changing any part. Intended to meet the demand for a small power cutter. It has all the late improvements, special feed, anti-clog, open cylinder, tight and loose pulley, etc. Price, $21.00.

MANN'S CLOVER CUTTER

Made entirely of iron and steel, with balance wheel and mounted on iron stand. Price, $12.75.

Ewing's Improved Calf Meal

IS ESPECIALLY ADAPTÉD FOR THE REARING OF CALVES, LAMBS, FOALS and PIGS

This meal is composed of ingredients that are so scientifically balanced as to be a perfect substitute for milk, supplying the solids that are to be found in New Milk, and the perfect preparation renders it highly digestible even on the delicate stomachs of very young calves. In its chemical properties it is AN EXACT COUNTERPART of MILK, and though highly concentrated is yet easily digested, and is rich in oleaginous or fatty matter, in nitrogenous or flesh-forming substances, and also in sugar.

Any one interested in Stock Raising would do well to try this Food. Printed Instructions furnished and all inquiries cheerfully answered. Put up in 25 lb., 50 lb. and 100 lb. Bags. Per 100 lbs., $4.00.

COMMON SENSE CALF FEEDER

Price, single Feeder ................... $1.75
Price, double Feeder ................... 2.50

OIL CAKE MEAL.—We have always used the greatest precaution to obtain only the purest and richest Meal in the market, and we are gratified to hear so many expressions of satisfaction from our numerous customers. 100 lbs. $1.75.

Prices by the Car Load or Ton on application.

COTTON SEED MEAL—We recommend Cotton Seed Meal being used in conjunction with Oil Cake Meal, in the proportion of 2 lbs. of the former to 3 of the latter. 100 lbs., $1.50.

Prices by the Car Load or Ton on application.

PURE GROUND LINSEED MEAL—Guaranteed pure. It contains nothing but Linseed, ground, and is not mixed with Oil Cake Meal or Cotton Seed Meal, to reduce its price. 100 lbs. $4, 5c. lb.

COLONIAL STOCK FOOD

THREE FEEDS FOR ONE CENT

We positively guarantee that our food will invigorate the stomach, liver and bowels, purify the blood, tone up the entire system, give perfect digestion and assimilation; and very rapid growth.

DIRECTIONS.—We do not guarantee, nor can any intelligent man expect good results, unless you strictly follow our directions. They are plain and easy, and remarkable results will be obtained. Our directions are based on results obtained from many years of practical use by thousands of stockmen. Generally, these directions need not be changed, but in some rare cases the best results may be obtained by decreasing or increasing the size of the feed herein given. Stockmen can use their own judgment in these matters. Remember that "COLONIAL STOCK FEED" is absolutely harmless for animals in working, growing, fattening, milking or breeding, and the size of feed can be increased with perfect safety.

Full Directions given on each package.

Price, lb. 15c.; 3 lb. pkt. 25c.; 6 lb. pkt. 50c.
William Ewing & Co.

Order Sheet for Seeds, Bulbs, Plants, Tools, Etc.

P. O. Box 376

William Ewing & Co.
SEED MERCHANTS, MONTREAL

We send free by mail all seeds except pounds of Beans, Corn and Peas, Field Carrots, Sugar Beets, Field Turnips, Mangel, Cabbage, Grasses, Bird Seeds, Mushrooms, Spun, Onion Sets and Potatoes. Any orders for such, please add postage of five cents per pound to all post offices in Canada; fifteen cents per pound, or fraction thereof, to Newfoundland, and one cent per ounce to United States.

Special discount only refers to flower and vegetable seeds when ordered in packets.

Conditions of sale—While we exercise great care in the selection of seeds as is the custom in the trade, we give no warranty, express or implied, respecting growth, variety or crop. If seeds are not accepted on these terms, they must be returned at once.

When ordering orders please write the address of neighbors who are likely to require seeds, and who are not already customers of ours, and we will enclose you a packet of some choice vegetable or flower seeds in return for your kindness.

Reserved space please do not write here.

Extra order sheets and return envelopes sent on application. BE SURE TO SIGN YOUR NAME.
